

Good Books On Ethics

Russ Shafer-Landau

Be Good Randy Cohen, 2012-08-22 Collects the author's favorite questions and answers from his tenure as the author of the New York Times' *The Ethicist*, presenting evidence that sensible people disagree on the definition of ethical behavior.

Good Ethics and Bad Choices Jennifer S. Blumenthal-Barby, 2021-08-03 An analysis of how findings in behavioral economics challenge fundamental assumptions of medical ethics, integrating the latest research in both fields. Bioethicists have long argued for rational persuasion to help patients with medical decisions. But the findings of behavioral economics—popularized in Thaler and Sunstein's *Nudge* and other books—show that arguments depending on rational thinking are unlikely to be successful and even that the idea of purely rational persuasion may be a fiction. In *Good Ethics and Bad Choices*, Jennifer Blumenthal-Barby examines how behavioral economics challenges some of the most fundamental tenets of medical ethics. She not only integrates the latest research from both fields but also provides examples of how physicians apply concepts of behavioral economics in practice. Blumenthal-Barby analyzes ethical issues raised by “nudging” patient decision making and argues that the practice can improve patient decisions, prevent harm, and perhaps enhance autonomy. She then offers a more detailed ethical analysis of further questions that arise, including whether nudging amounts to manipulation, to what extent and at what point these techniques should be used, when and how their use would be wrong, and whether transparency about their use is required. She provides a snapshot of nudging “in the weeds,” reporting on practices she observed in clinical settings including psychiatry, pediatric critical care, and oncology. Warning that there is no “single, simple account of the ethics of nudging,” Blumenthal-Barby offers a qualified defense, arguing that a nudge can be justified in part by the extent to which it makes patients better off.

The Power of Ethics Susan Liataud, 2021-01-05 The essential guide for ethical decision-making in the 21st century, *The Power of Ethics* depicts “ethical decision-making not in a nebulous philosophical space, but at the point where the rubber meets the road” (Michael Schur, producer and creator of *The Good Place*). It's not your imagination: we're living in a time of moral decline. Publicly, we're bombarded with reports of government leaders acting against the welfare of their constituents; companies prioritizing profits over health, safety, and our best interests; and technology posing risks to society with few or no repercussions for those responsible. Personally, we may be conflicted about how much privacy to afford our children on the internet; how to make informed choices about our purchases and the companies we buy from; or how to handle

misconduct we witness at home and at work. How do we find a way forward? Today's ethical challenges are increasingly gray, often without a clear right or wrong solution, causing us to teeter on the edge of effective decision-making. With concentrated power structures, rapid advances in technology, and insufficient regulation to protect citizens and consumers, ethics are harder to understand than ever. But in *The Power of Ethics*, Susan Liautaud shows how ethics can be used to create a sea change of positive decisions that can ripple outward to our families, communities, workplaces, and the wider world—offering unprecedented opportunity for good. Drawing on two decades as an ethics advisor guiding corporations and leaders, academic institutions, nonprofit organizations, and students in her Stanford University ethics courses, Susan Liautaud provides clarity to blurry ethical questions, walking you through a straightforward, four-step process for ethical decision-making you can use every day. Liautaud also explains the six forces driving virtually every ethical choice we face. Exploring some of today's most challenging ethics dilemmas and showing you how to develop a clear point of view, speak out with authority, make effective decisions, and contribute to a more ethical world for yourself and others, *The Power of Ethics* is the must-have ethics guide for the 21st century.

Ethics and the Good Teacher Andrew Peterson, James Arthur, 2020-04-29 *Ethics and the Good Teacher* brings together reviews of existing literature and analysis of empirical data from three research projects conducted by the Jubilee Centre for Character and Virtues - *The Good Teacher*, *Schools of Virtue* and *Teacher Education* - to explore the ethical dimensions of the teaching profession. The book is premised on the idea that what constitutes a good teacher involves more than technical skills and subject knowledge. Understood as a professional activity, teaching involves an important ethical dimension, a fact that has come under increased scrutiny - and some would argue increased threat - over recent years as education and schooling have become shaped by market logic and accountability. Addressing the influence of personal and professional character on teachers and teaching, and containing clear implications for policy, practice and research, this book will be of great interest to teachers and other professionals working in education settings, as well as those working in educational policy. It will also appeal to academics, undergraduate students and postgraduate students researching the teaching profession and ethics/morality in education more generally.

Choosing the Good Dennis P. Hollinger, 2002-09 An intelligent discussion of the foundations and methods in ethics and ways to apply a Christian worldview to our secular culture.

Ethics Harry J. Gensler, 2006-08-21 *Ethics* introduces the issues and controversies of contemporary moral philosophy to undergraduate students who have already done an introductory course in philosophy. It will help students to think more clearly about how to form their moral beliefs in the wisest and most rational way. The basic approaches to metaethics and normative ethics are related to specific issues, particularly those of racism, education, and abortion. Written in a clear and concise way by an experienced textbook author, *Ethics* will also be of interest to the general reader. Unique features of the

textbook: * boxed key ideas * Glossary of philosophical terms * Chapter summaries and study questions * Annotated further reading and Internet Web resources There is an associated website for teachers and students at www.routledge.com/routledge/philosophy/cip/ethics.htm

Ethics of Consumption David A. Crocker, Toby Linden, 1998 Contains 27 essays which discuss the impact of consumption on the global environment, quality of life and international justice. Examines consumption behaviour including both motives and practices.

Morality and the Good Life Robert C. Solomon, Clancy W. Martin, 2004 The premise of this ethical theory anthology is that the study of ethics represents, above all else, participation in the thinking of a long tradition of philosophers. Organized historically by philosopher, the book provides an introductory chapter on ethical concepts and helpful commentary and study questions throughout the reading selections. *Morality and the Good Life* is substantial enough for a full course in ethics, but it is concise enough to allow the instructor time to include other approaches in addition to the classic texts and materials presented in this volume.

Being Good Simon Blackburn, 2002-03-14 It is not only in our dark hours that scepticism, relativism, hypocrisy, and nihilism dog ethics. Whether it is a matter of giving to charity, or sticking to duty, or insisting on our rights, we can be confused, or be paralysed by the fear that our principles are groundless. Many are afraid that in a Godless world science has unmasked us as creatures fated by our genes to be selfish and tribalistic, or competitive and aggressive. Simon Blackburn, author of the best-selling *Think*, structures this short introduction around these and other threats to ethics. Confronting seven different objections to our self-image as moral, well-behaved creatures, he charts a course through the philosophical quicksands that often engulf us. Then, turning to problems of life and death, he shows how we should think about the meaning of life, and how we should mistrust the sound-bite sized absolutes that often dominate moral debates. Finally he offers a critical tour of the ways the philosophical tradition has tried to provide foundations for ethics, from Plato and Aristotle through to contemporary debates.

The Ethics of Belief William Kingdon Clifford, 2022-05-29 In *The Ethics of Belief*, William Kingdon Clifford presents a profound exploration of the moral implications surrounding the act of believing. The essay, originally published in 1877, adopts a rationalist approach, arguing that beliefs must be supported by evidence and that it is unethical to hold beliefs without sufficient justification. Clifford's signature literary style combines clarity of thought with rigorous logical argumentation, positioning his work in the context of Victorian rationalism and the burgeoning debate between faith and reason. Through his memorable assertion, *It is wrong always, everywhere, and for anyone, to believe anything upon insufficient evidence*, he challenges the reader to scrutinize their belief systems critically and underscores broader ethical considerations of intellectual honesty and responsibility in society. William Kingdon Clifford, a prominent British philosopher,

mathematician, and advocate for empiricism, was influenced by contemporaneous thinkers such as John Stuart Mill and Charles Darwin. His background in mathematics and philosophy shaped his rigorous analytical approach, focusing on the relationship between knowledge, belief, and ethics. Clifford's commitment to rational inquiry and social reform resonates throughout his work, reflecting the intellectual currents of an era grappling with rapid scientific advances. *The Ethics of Belief* is a compelling treatise for anyone seeking to understand the intersection of epistemology and morality. Its impact on subsequent philosophical discourse makes it essential reading for students of philosophy, ethics, and critical thinking. Clifford's accessible yet profound arguments invite readers to reflect critically on their own beliefs and the ethical implications of holding them, making this work a timeless contribution to the discourse on rational belief.

Introduction to Philosophy George Matthews, Christina Hendricks, 2019

Metaethics Andrew Fisher, 2014-12-05 Do moral facts exist? What would they be like if they did? What does it mean to say that a moral claim is true? What is the link between moral judgement and motivation? Can we know whether something is right and wrong? Is morality a fiction? *Metaethics: An Introduction* presents a very clear and engaging survey of the key concepts and positions in what has become one of the most exciting and influential fields of philosophy. Free from technicality and jargon, the book covers the main ideas that have shaped metaethics from the work of G. E. Moore to the latest thinking. Written specifically for beginning students, the book assumes no prior philosophical knowledge. The book highlights ways to avoid common errors, offers hints and tips on learning the subject, includes a glossary of core terms, and provides guidance for further study.

Ethics Julia Driver, 2013-05-20 *Ethics: The Fundamentals* explores core ideas and arguments in moral theory by introducing students to different philosophical approaches to ethics, including virtue ethics, Kantian ethics, divine command theory, and feminist ethics. The first volume in the new *Fundamentals of Philosophy* series. Presents lively, real-world examples and thoughtful discussion of key moral philosophers and their ideas. Constitutes an excellent resource for readers coming to the subject of ethics for the first time.

The Good Lawyer Adrian Evans, 2014-08-29 *The Good Lawyer* encourages the development of a sense of social and moral responsibility as the foundation of better practice.

The Good Life of Teaching Chris Higgins, 2011-09-19 *The Good Life of Teaching* extends the recent revival of virtue ethics to professional ethics and the philosophy of teaching. It connects long-standing philosophical questions about work and human growth to questions about teacher motivation, identity, and development. Makes a significant contribution to the philosophy of teaching and also offers new insights into virtue theory and professional ethics. Offers fresh and detailed readings of major figures in ethics, including Alasdair MacIntyre, Charles Taylor, and Bernard Williams and the practical philosophies of Hannah Arendt, John Dewey and Hans-Georg Gadamer. Provides illustrations to assist the reader in

visualizing major points, and integrates sources such as film, literature, and teaching memoirs to exemplify arguments in an engaging and accessible way Presents a compelling vision of teaching as a reflective practice showing how this requires us to prepare teachers differently

Nature, Reason, and the Good Life Roger Teichmann,2014 At the centre of our ethical thought stands the human being. Roger Teichmann examines the ways in which facts about human nature determine the shape of ethical concepts such as rationality, virtue, and happiness.

The Ethical Life Russ Shafer-Landau,2011 Message: A compact, yet thorough collection or reading in ethical theory and contemporary moral problems-at the best price. Brief yet thorough and affordably priced, *The Ethical Life: Fundamental Readings in Ethics and Moral Problems* is ideal for courses in introductory ethics and contemporary moral problems. Featuring forty readings divided into four parts--Value Theory, Normative Ethics, Metaethics, and Moral Problems--it introduces students to ethical theory and a wide range of moral issues. The essays include selections from such historically influential philosophers as Aristotle, Hume, Kant, and Mill alongsidework by contemporary philosophers like Philippa Foot, Robert Nozick, Peter Singer, and Judith Jarvis Thomson. Detailed section and reading introductions provide helpful contextual information. Designed as a companion reader to Russ Shafer-Landau's textbook, *The Fundamentals of Ethics*, *The EthicalLife* is also comprehensive enough to be used on its own. For the new edition, Part II on Normative Ethics now includes Plato's dialogue *Euthyphro* and Ayn Rand's essay . Part III on Metaethics now includes , a classic presentation of expressivism by A.J. Ayer, by Harry Gensler, and a newly revised version of Renford Bambrough's writings on proof in ethics. By far the most revision was made to Part IV on Moral Problems. One significantchange is that these entries are now organized by topic: Euthanasia and a Modest Proposal; Terrorism and Torture; The Treatment of Non-Humans: Animals and the Environment; Abortion; The Limits of the Law; and Children and Parents. New articles in this section include Alan Dershowitz's controversial defense of the morality of torture, ; Alastair Norcross's provocative paper on the (im)morality of meat-eating, ; Paul Taylor's defense of a biocentric ethic, ; Thomas Hill, Jr.'s appeal to virtue as the basis of an environmental ethic, ; and Philippa Foot's classic article, . Readings omitted from the new edition include Gilbert Harman, ; Mary Midgley, ; Heidi Malm, *Paid Surrogacy: Arguments and Responses*; Ronald Dworkin, *Playing God: Genes, Clones, and Luck*; Peter Singer, *Unsanctifying Human Life*; William F. Baxter, *People or Penguins: The Case for Optimal Pollution*; David Luban, *Liberalism, Torture, and the Ticking Bomb*; and Bonnie Steinbock, *Adultery*. The Instructor's Manual and Test Bank on CD is thoroughly updated and includes summaries of every reading with accompanying essay questions; a Test Bank with essay and multiple-choice questions on every reading; A guide on how to use *The Ethical Life, Second Edition* in conjunction with *The Fundamentals of Ethics, Second Edition*; Further Reading; Lecture outlines on PowerPoint; and Weblinks. The Companion Website (www.oup.com/us/shafer-landau) features all the material from the Instructor'sManual and Test Bank.

For students, there are introductions to each of the four main sections; Self-quiz questions for each reading; Further Reading; Lecture outlines on PowerPoint slides; and Weblinks.

Ethics and the Problem of Evil James P. Sterba, 2017-02-27 The problem of evil has been an extremely active area of study in the philosophy of religion for many years. Until now, most sources have focused on logical, metaphysical, and epistemological issues, leaving moral questions as open territory. With the resources of ethical theory firmly in hand, this volume provides lively insight into this ageless philosophical issue.

Ethics Integrity and Aptitude Nanda Kishore Reddy, 2015

Good Books On Ethics Introduction

In this digital age, the convenience of accessing information at our fingertips has become a necessity. Whether its research papers, eBooks, or user manuals, PDF files have become the preferred format for sharing and reading documents. However, the cost associated with purchasing PDF files can sometimes be a barrier for many individuals and organizations. Thankfully, there are numerous websites and platforms that allow users to download free PDF files legally. In this article, we will explore some of the best platforms to download free PDFs. One of the most popular platforms to

download free PDF files is Project Gutenberg. This online library offers over 60,000 free eBooks that are in the public domain. From classic literature to historical documents, Project Gutenberg provides a wide range of PDF files that can be downloaded and enjoyed on various devices. The website is user-friendly and allows users to search for specific titles or browse through different categories. Another reliable platform for downloading Good Books On Ethics free PDF files is Open Library. With its vast collection of over 1 million eBooks, Open Library has something for every reader. The website offers a seamless experience by providing options to borrow or download PDF files. Users simply need to create a free account to access this treasure trove of knowledge. Open Library also allows users to contribute by uploading and sharing their own PDF files, making it a collaborative platform for book enthusiasts. For those interested in academic resources, there are websites dedicated to providing free PDFs of research papers and scientific articles. One such website is Academia.edu, which allows

researchers and scholars to share their work with a global audience. Users can download PDF files of research papers, theses, and dissertations covering a wide range of subjects. Academia.edu also provides a platform for discussions and networking within the academic community. When it comes to downloading Good Books On Ethics free PDF files of magazines, brochures, and catalogs, Issuu is a popular choice. This digital publishing platform hosts a vast collection of publications from around the world. Users can search for specific titles or explore various categories and genres. Issuu offers a seamless reading experience with its user-friendly interface and allows users to download PDF files for offline reading. Apart from dedicated platforms, search engines also play a crucial role in finding free PDF files. Google, for instance, has an advanced search feature that allows users to filter results by file type. By specifying the file type as "PDF," users can find websites that offer free PDF downloads on a specific topic. While downloading Good Books On Ethics free PDF files is convenient, it's important to note that

copyright laws must be respected. Always ensure that the PDF files you download are legally available for free. Many authors and publishers voluntarily provide free PDF versions of their work, but it's essential to be cautious and verify the authenticity of the source before downloading Good Books On Ethics. In conclusion, the internet offers numerous platforms and websites that allow users to download free PDF files legally. Whether it's classic literature, research papers, or magazines, there is something for everyone. The platforms mentioned in this article, such as Project Gutenberg, Open Library, Academia.edu, and Issuu, provide access to a vast collection of PDF files. However, users should always be cautious and verify the legality of the source before downloading Good Books On Ethics any PDF files. With these platforms, the world of PDF downloads is just a click away.

FAQs About Good Books On Ethics Books

1. Where can I buy Good Books On Ethics books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
2. What are the different book formats available? Hardcover: Sturdy and durable, usually more expensive. Paperback: Cheaper, lighter, and more portable than hardcovers. E-books: Digital books available for e-readers like Kindle or software like Apple Books, Kindle, and Google Play Books.
3. How do I choose a Good Books On Ethics book to read? Genres: Consider the genre you enjoy (fiction, non-fiction, mystery, sci-fi, etc.). Recommendations: Ask friends, join book clubs, or explore online reviews and recommendations. Author: If you like a particular author, you might enjoy more of their work.
4. How do I take care of Good Books On Ethics books? Storage: Keep them away from direct sunlight and in a dry environment. Handling: Avoid folding pages, use bookmarks, and handle them with clean hands. Cleaning: Gently dust the covers and pages occasionally.
5. Can I borrow books without buying them? Public Libraries: Local libraries offer a wide range of books for borrowing. Book Swaps: Community book exchanges or online platforms where people exchange books.
6. How can I track my reading progress or manage my book collection? Book Tracking Apps: Goodreads, LibraryThing, and Book Catalogue are popular apps for tracking your reading progress and managing book collections. Spreadsheets: You can create your own spreadsheet to track books read, ratings, and other details.
7. What are Good Books On Ethics audiobooks, and where can I find them? Audiobooks: Audio recordings of books, perfect for listening while commuting or multitasking. Platforms: Audible, LibriVox, and Google Play Books offer a wide selection of audiobooks.
8. How do I support authors or the book industry? Buy Books: Purchase books from authors or independent bookstores. Reviews: Leave reviews on platforms like Goodreads or Amazon. Promotion: Share your favorite books on social media or recommend them to friends.
9. Are there book clubs or reading communities I can join? Local Clubs: Check for local book clubs in libraries or community centers. Online Communities: Platforms like Goodreads have virtual book clubs and discussion groups.
10. Can I read Good Books On Ethics books for free? Public Domain Books: Many classic books are available for free as they're in the public domain. Free E-books:

Some websites offer free e-books legally, like Project Gutenberg or Open Library.
