*The Making of Memory in the Middle Ages* Lucie Doležalová, 2009-11-17 Memory in the Middle Ages has received particular attention in recent decades; yet, the topic remains difficult to grasp and the research on it rather fragmented. This book gathers particular case studies on memory in different parts of medieval Europe and in a variety of fields including literatures, languages, manuscript studies, history, history of ideas, philosophy, social history and art history. The studies address, on the one hand, memory as means of storing and recuperating knowledge (arts of memory and memory aids), and, on the other hand, memory as remembering and constructing the past (including the subject of forgetting). It should be useful to all interested in medieval culture, literature and history. Contributors are Milena Bartlová, Bergsveinn Birgisson, Irene Bueno, Vincent Challet, Greti Dinkova-Bruun, Lucie Doležalová, Dávid Falvay, Carmen Florea, Cédric Giraud, Laura Iseppi de Filippis, Farkas Gábor Kiss, Rüdiger Lorenz, Else Mundal, Előd Nemerkenyi, William J. Purkis, Slavica Ranković, Lucia Raspe, Kimberly Rivers, Victoria Smirnova, Francesco Stella, Péter Tóth, Tamás Visi, Jon Whitman and Rafał Wójcik.

*The Charm of a List* Lucie Doležalová, 2009-01-14 Lists, one of the most archaic literary genres, stand behind many of our complex mental or rhetorical structures and they often influence the way we conceptualize the world (even if we are unaware of it). They seem plain but may conceal a complicated inner logic. They are agrammatical but may tell a story. Their basic features - selection, order, and layout - may be enough to give them enormous power: by including they exclude, by ordering they create a hierarchy, by taking on particular physical aspects they place themselves into a specific context. These and other issues are discussed in the present transdisciplinary volume collecting the best revised contributions to a workshop on lists held at the Center for Theoretical Study in Prague in November 2008. Each of the 13 articles by researchers from seven countries provides a case study on the subject of list. The fields covered include late antique, medieval and early modern history, philology, philosophy, cognitive and computer science. The contributors aim both at presenting particular cases - specific lists or list-types - and, at the same time, at addressing methodological issues: exploring the ways of researching lists in their particular disciplines, formulating relevant research themes and questions, contextualizing the subject. Since theoretical discourse on lists has not been established yet, this volume should be seen as a first step in the process, showing the variety of possible research directions on a transdisciplinary level, and raising interest in the topic, which, although it may seem a bit obscure at first, has indeed a lot to offer.

**The Emergence of Multiple-Text Manuscripts** Alessandro Bausi, Michael Friedrich, Marilena Maniaci, 2019-12-02 The universal practice of selecting and excerpting, summarizing and canonizing, arranging and organizing texts and visual signs, either in carefully dedicated types of manuscripts or not, is common to all manuscript cultures. Determined by intellectual or practical needs, this process is never neutral in itself. The resulting proximity and juxtaposition of previously distant contents, challenge previous knowledge and trigger further developments. With a vast selection of highly representative case studies – from India, Islamic Asia and Spain to Ethiopian cultures, from Ancient Christian to Coptic, and Medieval European domains – this volume deals with manuscripts planned or growing and resulting in time to comprise ‘more than one’. Whatever their contents – the natural world and related recipes, astronomical tables or personal notes, documentary, religious and even highly revered holy texts – codicological and textual features of these manuscripts reveal how similar needs received different answers in varying contexts and times.

The Ten Commandments in Medieval and Early Modern Culture Walter Melion, Jürgen Pieters, Youri Desplenter, 2017-09-04 Over the course of the fourteenth and fifteenth centuries, as more and more vernacular commentaries on the Decalogue were produced throughout Europe, the moral system of the Ten Commandments gradually became more prominent. The Ten Commandments proved to be a topic from which numerous proponents of pastoral and lay catechesis drew inspiration. God’s commands were discussed and illustrated in sermons and confessor’s manuals, and they spawned new theological and pastoral treatises both Catholic and Reformed. But the Decalogue also served several authors, including Dante, Petrarch, and Christine de Pizan. Unlike the Seven Deadly Sins, the Ten Commandments supported a more positive image of mankind, one that embraced the human potential for introspection and the conscious choice to follow God’s Law.

Where China Meets India Thant Myint-U, 2011-08-18 China and India have always been separated not only by the Himalayas, but also by the impenetrable jungle and remote areas that once stretched across Burma. Now this last great frontier will likely vanish - forests cut down, dirt roads replaced by superhighways, insurgencies ended - leaving China and India exposed to each other as never before. This basic shift in geography is as profound as the opening of the Suez Canal

and is taking place just as the centre of the world's economy moves to the East. Thant Myint-U has travelled extensively across this vast territory, where high-speed trains and gleaming shopping malls now sit alongside the last remaining forests and impoverished mountain communities. In *Where China Meets India* he explores the new strategic centrality of Burma, the country of his ancestry, where Asia's two rising giant powers - China and India - appear to be vying for supremacy. Part travelogue, part history, part investigation, *Where China Meets India* takes us across the fast-changing Asian frontier, giving us a masterful account of the region's long and rich history and its sudden significance for the rest of the world. Thant Myint-U is the author of *The River of Lost Footsteps* and has written articles for the *New York Times*, the *Washington Post* and the *New Statesman*. He has worked alongside Kofi Annan at the UN's Department of Political Affairs and currently works as a special consultant to the Burmese government.

*Form and Function in the Late Medieval Bible*, 2013-05-13 Thirteenth- and fourteenth-century Latin Bibles survive in hundreds of manuscripts, one of the most popular books of the Middle Ages. Their innovative layout and organization established the norm for Bibles for centuries to come. This volume is the first study of these Bibles as a cohesive group. Multi- and inter-disciplinary analyses in art history, liturgy, exegesis, preaching and manuscript studies, reveal the nature and evolution of layout and addenda. They follow these Bibles as they were used by monks and friars, preachers and merchants. By addressing Latin Bibles alongside their French, Italian and English counterparts, this book challenges the Latin-vernacular dichotomy to show links, as well as discrepancies, between lay and clerical audiences and their books. Contributors include Peter Stallybrass, Diane Reilly, Paul Saenger, Richard Gameson, Chiara Ruzzier, Giovanna Murano, Cornelia Linde, Lucie Doležalová, Laura Light, Eyal Poleg, Sabina Magrini, Sabrina Corbellini, Margriet Hoogvliet, Guy Lobrichon, Elizabeth Solopova, and Matti Peikola.

*Strategies of Remembrance* Lucie Doležalová, 2009 Concentrated on the meanings and contexts of memory in literature, history, cognitive science and philosophy, primarily in the Middle Ages, this collective monograph offers a variety of ideas and approaches to memory in connection to identity, the past, and immortality. Contributors include Peter AgÅ3cs, Michal Ajvaz, Ivan M. Havel, Michael W. Herren, Gerhard Jaritz, Lenka KarfÅ-ková, Zsuzsanna KisÅ(c)ry, Regina Koycheva, Csaba NÅ(c)meth, Sylvain Piron, Tamàs Visi, and RafaÅ' WÅ3jcik.

*Dear Black Girls* Shanice Nicole, 2021-02-08 *Dear Black Girls* is a letter to all Black girls. Every day poet and educator Shanice Nicole is reminded of how special Black girls are and of how lucky she is to be one. Illustrations by Kezna Dalz support the book's message that no two Black girls are the same but they are all special--that to be a Black girl is a true gift. In this celebratory poem, Kezna and Shanice remind young readers that despite differences, they all deserve to be loved just the way they are.

Along the Oral-written Continuum Slavica Ranković, Leidulf Melve, Else Mundal, 2010 Ever since its introduction in the 1970s, Ruth Finnegan's notion of the oral-written, or the oral-literate, continuum has served as one of the most effective means of dispelling the dichotomous understanding of the two principal media of communication in the Middle Ages. However, while often casually invoked, the concept has never been made a focus of study in its own right. The present volume is an attempt to place the oral-written continuum at the heart of discussion as an object of a head-on theoretical investigation, as a backdrop to distinct processes of acquisition of literacy in different European regions, and, indeed, as a tool for navigating the rugged landscape of verbal forms, exploring the complexity of oral-literary interrelationships that they manifest. The articles probe the concept with a variety of theoretical and methodological approaches, span diverse texts and genres, and involve a range of European cultural contexts, with special emphasis on Scandinavia and Northern Europe, but also reaching out to various other corners of the continent: from France, the Netherlands and England in the West, over Germany, Bohemia and Poland in the central region, to Serbia and Bosnia in the Southeast.

**Reception and Its Varieties** Lucie Doležalová, 2007

Religious Controversy in Europe, 1378-1536 Michael Van Dussen, Pavel Soukup, 2013 This book gathers new work by scholars who share a common interest not only in the controversial texts of the period between 1378 and 1536, but also in how the use, geographical movement, and manipulation of texts contributed materially to the formation of groups and group identities. The period covered spans the traditional medieval/early modern divide and the concomitant transition from manuscript to print. The years between the eruption of the Great Schism and the outbreak of European reformations witnessed unprecedented rifts in communities, institutions, and alliances. Yet while the crises of this period gave rise to division, they also prompted new groups to coalesce, resulting in realignments of communication networks, readership, and textual circulation in Europe. The Councils of Constance and Basel facilitated the production and dissemination of vast quantities of documents. Movements challenging the Roman Church and efforts to reform the Church from within provoked a torrent of persuasive and polemical writings which gained further momentum with the introduction of printing. These new situations also fostered the development and expression of group identities, defined by doctrine, opposition, vernacularity, and a burgeoning sense of national self-consciousness. *Religious Controversy in Europe, 1378-1536* examines the textual and material circumstances of these developments.

**The Edges of the Medieval World** Gerhard Jaritz, Juhan Kreem, 2009-10-15 In the Middle Ages, the edges of someone's world could carry various meanings and represent different things. They might, on the one hand, have been situated in far-away regions, mainly in the north and east, lands most often only known from hearsay and inhabited by strange beings: humans who had their faces on their chest, did not have a mouth, or had the heads of dogs. On the other hand, the edges of an individual's world could also just mean the borders of the community they lived in, borders that they may not have had a

chance to cross their whole lives long.

**Scared to Death** Anthony Horowitz, 2018-10 This chilling collection of ten nightmarish and fiendishly funny short stories is a perfect read for fearless children. From a train journey straight to hell, out of control robots with a murderous streak and even a television show where death is the penalty - these terrifying tales display the dazzling wit and wicked humour of master storyteller Anthony Horowitz, and are guaranteed to make your blood curdle and your spine tingle.

**Fifteen Medieval Latin Parodies** Martha Bayless, 2018 The fifteen medieval Latin parodies edited in this volume are among the liveliest from a lively age of satire and literary mischief. That medieval clerical life was often high-spirited and entertaining was a secret the official Church was not eager to reveal. Thus, apart from a few exceptions, such as the drinking songs of the Carmina Burana (famously and anachronistically revived by Carl Orff), the medieval Latin of religion and the schools is rarely regarded as a repository of madcap humour. Instead it typically gives the impression of a medium of sombre and utilitarian literature, the dryness relieved by occasional flights of sophisticated love poetry. As the lingua franca of the medieval world, and above all of the medieval Church, Latin can certainly lay claim to innumerable works that prize worthiness above entertainment value. But the examples of clerical and scholarly merrymaking edited in this book--representatives of a widespread tradition--are testimony that the educated were just as fond of revelry as their more secular and plebeian contemporaries.--
