

Libro Matemáticas 1 Santillana

Yicheng Fang

Enseñar matemática, 2006 Aquí se presentan propuestas variadas para la enseñanza de la matemática en la educación infantil, con sugerencias de juegos, recursos y secuencias de trabajo. Se desarrollan, desde la acción, aquellos contenidos de la disciplina que en los marcos teóricos vigentes son considerados como los más apropiados para abordar en este nivel educativo. La antigua discusión acerca de la pertinencia -o no- del uso del material concreto, la geometría desde edades tempranas y las secuencias didácticas para abordar contenidos, son algunos de los temas desarrollados. La obra profundiza sobre el día a día de la clase de matemática: conocimientos matemáticos previos, la conformación de los grupos de trabajo, las relaciones entre el abordaje de la matemática y las unidades didácticas. Se analiza la articulación ente el nivel y el primer ciclo de la educación primaria, proponiendo criterios para la continuidad. No están ausentes la fuerza de lo lúdico y la vivencia emocional que caracteriza a los primeros aprendizajes. Se reflexiona acerca de la evaluación de los aprendizajes significativos en el nivel inicial y se proponen ideas para llevarla adelante.

Bibliografía peruana, 1990

Proyecto kovalevskaya. Investigación matemático-literaria en el aula de primaria Margarita Marín Rodríguez, Juan Lirio Castro, 2006 El proyecto Kovalevskaya tiene como objetivo central favorecer el aprendizaje matemático a través de recursos literarios con una metodología heurística de aula. La obra detalla las actividades de puesta en marcha de este proyecto durante dos cursos académicos.

These Rebel Waves Sara Raasch, 2018-08-07 A thrilling new fantasy series—full of deadly magic, double crosses, and a dangerous quest in a new world—from Sara Raasch, the New York Times bestselling author of the Snow Like Ashes series. Adeluna is a soldier. Five years ago, she helped the magic-rich island of Grace Loray overthrow its oppressor, Agrid, a country ruled by religion. But adjusting to postwar life has not been easy. When an Argridian delegate vanishes during peace talks with Grace Loray's new Council, Argrid demands brutal justice—but Lu suspects something dangerous is at work. Devereux is a pirate. As one of the stream raiders who run rampant on Grace Loray, he scavenges the island's magic plants and sells them on the black market. But after Argrid accuses raiders of the diplomat's abduction, Vex becomes a target. An expert navigator, he agrees to help Lu find the Argridian—but the truth they uncover could be deadlier than any war. Benat is a heretic. The crown prince of Argrid, he harbors a secret obsession with Grace Loray's forbidden magic. When Ben's

father, the king, gives him the shocking task of reversing Argrid's fear of magic, Ben has to decide if one prince can change a devout country—or if he's building his own pyre. As conspiracies arise, Lu, Vex, and Ben will have to decide who they really are . . . and what they are willing to become for peace.

Libros de texto y material didáctico autorizado para los niveles de Educación Preescolar y Educación General Básica Espanya. Subdirección General de Ordenación Educativa, España. Gabinete de Medios Didácticos, 1979 Publicación que contiene los libros destinados a Educación Preescolar y Educación General Básica que tenían vigente su autorización por parte del Ministerio de Educación y Ciencia en 1979 y que, por lo tanto, podían ser adoptados legalmente por los centros de enseñanza.
