The China Garden Liz Berry, 1999-10-06 When Clare moves with her mother from London to Ravensmere, an historic English estate, she can't shake the feeling that the residents already know her, especially Mark, a maddeningly attractive biker. Clare also feels compelled to take midnight walks in Ravensmere's abandoned China Garden. Then her mother reveals that their own past is tragically linked to the estate. But when Clare discovers that Ravensmere is in grave danger, will she risk her future-and Mark's-to save it?

Mel Liz Berry, 2018-07-09 Seventeen-year-old Mel Calder is desperate for her life to change, and she is learning the hard way that only she can make it happen. Left alone in their run-down house after her mother's breakdown, Mel decides to repair and redecorate it for her mother when she comes home, but it's not long before the whole neighbourhood is involved. When Mel meets attractive Mitch Hamilton, lead guitarist with top rock group Assassination, Mitch is more than willing to help with the house, but Mel is suspicious. She has no time for a boyfriend, particularly a famous one who will be off to other girls in other countries soon enough, and, besides, there's her lovely teacher, young Mr Edwards, so helpful and sympathetic. So when Mitch announces his intention to marry Mel, no one is more astounded than Mel herself except, perhaps, Mitch's girlfriend, the formidable Roxy Leigh. In her latest compulsively readable novel, Liz Berry has created a courageous and resourceful heroine, who finds she is able to assert her independence and, against the odds, make a future for herself.

Black Country Liz Berry, 2014-08-07 WINNER OF THE FORWARD PRIZE BEST FIRST COLLECTION 2014 *PBS Recommendation 2014* 'When I became a bird, Lord, nothing could not stop me...' In Black Country, Liz Berry takes flight: to Wrens Nest, Gosty Hill, Tipton-on-Cut; to the places of home. The poems move from the magic of childhood - bostin fittle at Nanny's, summers before school - into deeper, darker territory: sensual love, enchanted weddings, and the promise of new life. In Berry's hands, the ordinary is transformed: her characters shift shapes, her eye is unusual, her ear attuned to the sounds of the Black Country, with 'vowels ferrous as nails, consonants / you could lick the coal from.' Ablaze with energy and full of the rich dialect of the West Midlands, this is an incandescent debut from a poet of dazzling talent and verve.

Why the Garden Club Couldn't Save Youngstown Sean Safford, 2009-01-31 In this book, Sean Safford compares the recent history of Allentown, Pennsylvania, with that of Youngstown, Ohio. Allentown has seen a noticeable rebound over the course of the past twenty years. Facing a collapse of its steel-making firms, its economy has reinvented itself by transforming existing companies, building an entrepreneurial sector, and attracting inward investment. Youngstown was similar to Allentown in its industrial history, the composition of its labor force, and other important variables, and yet instead of adapting in the face of acute economic crisis, it fell into a mean race to the bottom. Challenging various theoretical perspectives on regional socioeconomic change, *Why the Garden Club Couldn't Save Youngstown* argues that the structure of social networks among the cities' economic, political, and civic leaders account for the divergent trajectories of post-industrial regions. It offers a probing historical explanation for the decline, fall, and unlikely rejuvenation of the Rust Belt. Emphasizing the power of social networks to shape action, determine access to and control over information and resources, define the contexts in which problems are viewed, and enable collective action in the face of externally generated crises, this book points toward present-day policy prescriptions for the ongoing plight of mature industrial regions in the U.S. and abroad.

The Borders of Chinese Architecture Nancy Shatzman Steinhardt, 2022-01-11 An internationally acclaimed expert explains why Chinese-style architecture has remained so consistent for two thousand years, no matter where it is built. For the last two millennia, an overwhelming number of Chinese buildings have been elevated on platforms, supported by pillars, and covered by ceramic-tile roofs. Less obvious features, like the brackets connecting the pillars to roof frames, also have been remarkably constant. What makes the shared features more significant, however, is that they are present in Buddhist, Daoist, Confucian, and Islamic milieus; residential, funerary, and garden structures; in Japan, Korea, Mongolia, and elsewhere. How did Chinese-style architecture maintain such standardization for so long, even beyond China's borders? Nancy Shatzman Steinhardt examines the essential features of Chinese architecture and its global transmission and translation from the predynastic age to the eighteenth century. Across myriad political, social, and cultural contexts within China and throughout East Asia, certain design and construction principles endured. Builders never abandoned perishable wood in favor of more permanent building materials, even though Chinese engineers knew how to make brick and stone structures in the last millennium BCE. Chinese architecture the world over is also distinctive in that it was invariably accomplished by anonymous craftsmen. And Chinese buildings held consistently to the plan of the four-sided enclosure, which both afforded privacy and differentiated sacred interior space from an exterior understood as the sphere of profane activity. Finally, Chinese-style buildings have always and everywhere been organized along straight lines. Taking note of these and other fascinating uniformities, *The Borders of Chinese Architecture* offers an accessible and authoritative overview of a tradition studiously preserved across time and space.

Beatrix Farrand's Plant Book for Dumbarton Oaks Diane K. McGuire,1980 The Plant Book for Dumbarton Oaks was prepared as a resource for those charged with maintenance of the gardens following their acquisition by Harvard University in 1941. Beatrix Farrand here explains the reasoning behind her plan for each of the gardens and stipulates how each should be cared for in order that its basic character remain intact. Her resourceful suggestions for alternative plantings, her rigorous strictures concerning pruning and replacement, her exposition of the overall concept that underlies each detail, and the plant lists that accompany her discussion of each garden make this a volume of interest to every student, practitioner, and lover of landscape design.

Small Hands Mona Arshi,2015-04-09 Winner of the 2015 Forward Prize for Best First Collection Mona Arshi's debut collection, 'Small Hands', introduces a brilliant and compelling new voice. At the centre of the book is the slow detonation of grief after her brother's death but her work focuses on the whole variety of human experience: pleasure, hardship, tradition,

energised by language which is in turn both tender and risky. Often startling as well as lyrical, Arshi's poems resist fixity; there is a gentle poignancy at work here which haunts many of the poems. This is humane poetry. Arshi's is a daring, moving and original voice.

Stranger Magic Marina Warner, 2012-03-03 Our foremost theorist of myth, fairytale, and folktale explores the magical realm of the imagination where carpets fly and genies grant prophetic wishes. *Stranger Magic* examines the profound impact of the Arabian Nights on the West, the progressive exoticization of magic, and the growing acceptance of myth and magic in contemporary experience.

Life Keith Richards, 2010-11-12 The long-awaited autobiography of Keith Richards, guitarist, songwriter, singer, and founding member of the Rolling Stones. With The Rolling Stones, Keith Richards created the songs that roused the world, and he lived the original rock and roll life. Now, at last, the man himself tells his story of life in the crossfire hurricane. Listening obsessively to Chuck Berry and Muddy Waters records, learning guitar and forming a band with Mick Jagger and Brian Jones. The Rolling Stones's first fame and the notorious drug busts that led to his enduring image as an outlaw folk hero. Creating immortal riffs like the ones in *Jumpin' Jack Flash* and *Honky Tonk Women*. His relationship with Anita Pallenberg and the death of Brian Jones. Tax exile in France, wildfire tours of the U.S., isolation and addiction. Falling in love with Patti Hansen. Estrangement from Jagger and subsequent reconciliation. Marriage, family, solo albums and *Xpensive Winos*, and the road that goes on forever. With his trademark disarming honesty, Keith Richards brings us the story of a life we have all longed to know more of, unfettered, fearless, and true.

Girl Meets Boy Ali Smith, 2021-06-30 From the astonishingly talented writer of *The Accidental* and *Hotel World* comes Ali Smith's brilliant retelling of Ovid's gender-bending myth of Iphis and Ianthe, as seen through the eyes of two Scottish sisters. *Girl Meets Boy* is about girls and boys, girls and girls, love and transformation, and the absurdity of consumerism, as well as a story of reversals and revelations that is as sharply witty as it is lyrical. Funny, fresh, poetic, and political, *Girl Meets Boy* is a myth of metamorphosis for a world made in Madison Avenue's image, and the funniest addition to the *Myths* series from Canongate since Margaret Atwood's *The Penelopiad*.

Dairy Queens Meredith Martin, 2011-02-15 In a lively narrative that spans more than two centuries, the author tells the story of a royal and aristocratic building type that has been largely forgotten today: the pleasure dairy of early modern France. These garden statues have long been dismissed as the trifling follies of a reckless elite. The author challenges such

assumptions and reveals the pivotal role that pleasure dairies played in cultural and political life, especially with respect to polarizing debates about nobility, femininity, and domesticity. Together with other forms of pastoral architecture such as model farms and hermitages, pleasure dairies were crucial arenas for elite women to exercise and experiment with identity and power.

Off the Books Sudhir Alladi Venkatesh,2009-02-01 In this revelatory book, Sudhir Venkatesh takes us into Maquis Park, a poor black neighborhood on Chicago's Southside, to explore the desperate, dangerous, and remarkable ways in which a community survives. We find there an entire world of unregulated, unreported, and untaxed work, a system of living off the books that is daily life in the ghetto. From women who clean houses and prepare lunches for the local hospital to small-scale entrepreneurs like the mechanic who works in an alley; from the preacher who provides mediation services to the salon owner who rents her store out for gambling parties; and from street vendors hawking socks and incense to the drug dealing and extortion of the local gang, we come to see how these activities form the backbone of the ghetto economy. What emerges are the innumerable ways that these men and women, immersed in their shadowy economic pursuits, are connected to and reliant upon one another. The underground economy, as Venkatesh's subtle storytelling reveals, functions as an intricate web, and in the strength of its strands lie the fates of many Maquis Park residents. The result is a dramatic narrative of individuals at work, and a rich portrait of a community. But while excavating the efforts of men and women to generate a basic livelihood for themselves and their families, *Off the Books* offers a devastating critique of the entrenched poverty that we so often ignore in America, and reveals how the underground economy is an inevitable response to the ghetto's appalling isolation from the rest of the country.

China Between Empires Mark Edward Lewis,2011-04-30 After the collapse of the Han dynasty in the third century CE, China divided along a north-south line. Mark Lewis traces the changes that both underlay and resulted from this split in a period that saw the geographic redefinition of China, more engagement with the outside world, significant changes to family life, developments in the literary and social arenas, and the introduction of new religions. The Yangzi River valley arose as the rice-producing center of the country. Literature moved beyond the court and capital to depict local culture, and newly emerging social spaces included the garden, temple, salon, and country villa. The growth of self-defined genteel families expanded the notion of the elite, moving it away from the traditional great Han families identified mostly by material wealth. Trailing the rebel movements that toppled the Han, the new faiths of Daoism and Buddhism altered every aspect of life, including the state, kinship structures, and the economy. By the time China was reunited by the Sui dynasty in 589 ce, the elite had been drawn into the state order, and imperial power had assumed a more transcendent nature. The Chinese were incorporated into a new world system in which they exchanged goods and ideas with states that shared a common Buddhist religion. The centuries between the Han and the Tang thus had a profound and permanent impact on the Chinese world.
