**Latino Images in Film** Charles Ramírez Berg,2009-09-15 The bandido, the harlot, the male buffoon, the female clown, the Latin lover, and the dark lady—these have been the defining, and demeaning, images of Latinos in U.S. cinema for more than a century. In this book, Charles Ramírez Berg develops an innovative theory of stereotyping that accounts for the persistence of such images in U.S. popular culture. He also explores how Latino actors and filmmakers have actively subverted and resisted such stereotyping. In the first part of the book, Berg sets forth his theory of stereotyping, defines the classic stereotypes, and investigates how actors such as Raúl Julia, Rosie Pérez, José Ferrer, Lupe Vélez, and Gilbert Roland have subverted stereotypical roles. In the second part, he analyzes Hollywood's portrayal of Latinos in three genres: social problem films, John Ford westerns, and science fiction films. In the concluding section, Berg looks at Latino self-representation and anti-stereotyping in Mexican American border documentaries and in the feature films of Robert Rodríguez. He also presents an exclusive interview in which Rodríguez talks about his entire career, from *Bedhead* to *Spy Kids*, and comments on the role of a Latino filmmaker in Hollywood and how he tries to subvert the system.

Adams of Fleet Street, Instrument Makers to King George III John R. Millburn,2017-07-05 'G. Adams in Fleet Street London' is the signature on some of the finest scientific instruments of the eighteenth century. This book is the first comprehensive study of the instrument-making business run by the Adams family, from its foundation in 1734 to bankruptcy in 1817. It is based on detailed research in the archival sources as well as examination of extant instruments and publications by George Adams senior and his two sons, George junior and Dudley. Separate chapters are devoted to George senior's family background, his royal connections, and his new globes; George junior's numerous publications, and his dealings with van Marum; and to Dudley's dabbling with 'medico-electrical therapeutics'. The book is richly illustrated with plates from the Adams's own publications and with examples of instruments ranging from unique museum pieces - such as the 'Prince of Wales' microscope - and globes to the more common, even mundane, items of the kind seen in salesrooms and dealers - the surveying, navigational and military instruments that formed the backbone of the business. The appendices include facsimiles of trade catalogues and an annotated short-title listing of the Adams family's publications, which also covers American and Continental editions, as well as the posthumous ones by W. & S. Jones.

*Local Cults in Etruria* Lily Ross Taylor,1923

*Directory of British Scientific Instrument Makers, 1550-1851* Gloria Clifton,1995 This publication lists over 5,000 scientific instrument makers and retailers working in the British Isles, together with a further 10,000 names of apprentices and associates. The directory transforms our understanding of the history of the scientific instrument-making trades in Britain. Each entry includes estimated working dates, specific trades, addresses, training, apprentices, types of instruments made and brief biographical details. As such this volume not only provides essential information for collectors, dealers, museum curators and scholars, but it will also have much to offer economic, social and family historians, with its evidence about master-apprentice links, trade connections and family relationships.

*Economic Empowerment Of Women In The Islamic World: Theory And Practice* Toseef Azid,Jennifer L Ward-batts,2020-06-22 The book, Economic Empowerment of Women in the Islamic World, discusses the economic, social, and political rights and status of women in Islam, which is theoretically given by the Islamic Jurisprudence (Shariah law). The chapters in this volume will address historical practices in comparison to the status of women in the contemporary Muslim world. Men and women in Islam, regardless of their age, social class, and education, are equal as citizens and individuals, but not identical in their rights and responsibilities. It can be observed from Islamic history that in the early age of Islam, women were given full confidence, trust, and high responsibilities in leadership, educational guidance, and decision-making.This

volume will try to clarify the confusion in the status of the women in Islam that is presented by the media, as it is assumed that theoretical Islamic empowerment of women bears little relation to the real conditions of women in modern Muslim societies. It has been widely claimed in the media that Muslim women suffer more than men in Muslim societies and communities in terms of insecurity, domestic abuse, and low access to education and medical care. It is also stated in the press and media that absence of good governance also results in gender inequality and violation of the rights of Muslim women. This volume also aims to provide the solutions for the empowerment of women in the Islamic world. We assumed that without good governance, the status of women is not likely to improve. Muslim women have the potential to play a fundamental role in curbing corruption, social ills, violence, and crime in the Muslim world. This volume will make the case that in order to achieve stability and prosperity, the government must ensure a platform for women to participate in decision-making and hence benefit from the rights they are accorded in Islam. By covering a range of perspectives on the economic lives of Muslim women around the world, it hopes to shed light on the problems faced and to offer possible solutions to the empowerment of women in the Islamic world.

*Music After Hitler, 1945-1955* Toby Thacker, 2007 The political control of music in the Third Reich has been analysed from several perspectives, and with ever increasing sophistication. Toby Thacker asks how and why music was controlled in Germany under Allied Occupation from 1945-1949, and in the early years of 'semi-sovereignty' between 1949 and 1955. The 're-education' of Germany after the Hitler years was a unique historical experiment and the place of music within this is explored here for the first time.

**Story** Robert McKee, 2010-09-28 Robert McKee's screenwriting workshops have earned him an international reputation for inspiring novices, refining works in progress and putting major screenwriting careers back on track. Quincy Jones, Diane Keaton, Gloria Steinem, Julia Roberts, John Cleese and David Bowie are just a few of his celebrity alumni. Writers, producers, development executives and agents all flock to his lecture series, praising it as a mesmerizing and intense learning experience. In *Story*, McKee expands on the concepts he teaches in his \$450 seminars (considered a must by industry insiders), providing readers with the most comprehensive, integrated explanation of the craft of writing for the screen. No one better understands how all the elements of a screenplay fit together, and no one is better qualified to explain the magic of story construction and the relationship between structure and character than Robert McKee.

High Times Hard Times Anita O'Day, 2020-02-24 Celebrating the One Hundredth Anniversary of Anita O'Day's Birth. Jazz legend Anita O'Day was one of the most remarkable and unforgettable talents of the jazz world. A swinging, good-humored

stylist, O'Day rose to fame as a vocalist with the Gene Krupa Big Band (Let Me Off Uptown) and the Stan Kenton Band (And Her Tears Flowed Like Wine) in the 1940s before she became a successful solo act in the 1950s—punctuated by her energetic performance at the 1958 Newport Jazz Festival, as captured in the concert film *Jazz on a Summer's Day*. Unfortunately, O'Day was as well known for her drug problems as her jazz singing, and in *High Times Hard Times*, O'Day offers an unvarnished personal account of her life, as well as a behind-the-scenes look at the golden age of jazz. Starting out with her grisly 1966 overdose, then flashing back to tell all from the beginning, *High Times Hard Times* presents an intimate portrait of a larger-than-life jazz and big-band singer—the success of her early career, the tragedy of heroin addiction, her painful recovery, and her ultimate triumph. Filled with vivid characters, including Gene Krupa, Stan Kenton, Roy Eldridge, Billie Holiday, and other jazz legends, this candid, classic memoir is a must-read for anyone interested in the real details of jazz's golden age.

*Introduction to the Semiotics of the Text* Gianfranco Marrone, 2021-11-08 This book aims to demonstrate how semiotic models of textual analysis can be used to study any social reality or cultural process. In addition, it shows how semiotic models work by using examples from everyday life and social praxis, communicative processes and modes of consumption, online interactions and cross-media procedures, political experiences and scientific universes.
