Bruce R. Cordell, Stephen Schubert, Chris Thomasson

Numenera Discovery and Destiny Slipcase Set Monte Cook, Monte Cook Games, Sean Reynolds, Bruce Cordell, 2018-07-31 They say there have been eight worlds before ours. Eight times the people of this Earth, over vast millennia, built their civilizations. They reached heights we cannot even imagine now: they spoke to the stars, reshaped the creatures of the world, and mastered form and essence. They built cities and machines that have since crumbled to dust, leaving only their vast outlines and barest remnants. This is the Ninth World. The people of the prior worlds are gonescattered, disappeared, or transcended. But their works remain, in the places and devices that still contain some germ of function. The ignorant call these magic, but the wise know that these are our legacy. They are our future. They are the... Two 416-page corebooks, two poster maps, a handsome and sturdy slipcase, a metal medallion, and additional play aids all for the price of the corebooks alone. All existing Numenera supplements remain compatible with these corebooks.

Numenera Character Options Monte Cook, Monte Cook Games, Rob Schwalb, 2014-05 Numenera is a science fantasy roleplaying game set in the far distant future. Humanity lives amid the remnants of eight great civilizations that have risen and fallen on Earth. These are the people of the Ninth World. This new world is filled with remnants of all the former worlds: bits of nanotechnology, the dataweb threaded among still-orbiting satellites, bio-engineered creatures, and myriad strange and wondrous devices. These remnants have become known as the numenera. Player characters explore this world of mystery and danger to find these leftover artifacts of the past, not to dwell upon the old ways, but to help forge their new destinies, utilizing the so-called 'magic' of the past to create a promising future. Numenera: Character Options is a supplement for Numenera and provides new options for Numenera characters. In addition to new descriptors and foci, Numenera: Character Options offers new mutations, new non-human races, new esoterics, new fighting moves, and new tricks of the trade. It also introduces new kinds of descriptors, expanding the concept to include character origins and negative traits, along with new rules for customizing characters, switching descriptors and foci, and more!

Numenera Corebook Monte Cook,2013-06-01 There have been eight previous worlds ... Each left behind remnants. People of the new world, the Ninth World, sometimes call these remnants magic, and who are we to say they're wrong? But most give a unique name to the legacies of the nigh-unimaginable past. They call them Numenera. The Ninth World is built on the bones of the previous eight. The game of Numenera is about discovering the wonders of the worlds that came before, not for their own sake, but as the means to improve the present and build a future.--Page 4 of cover.

The Devil's Spine ,2013-10

Sword of the Gods Bruce R. Cordell,2011-04-05 With no memory of his past, a lone hero must fight two battles—one to understand his identity and one to defeat the demon that now plagues Faerûn Demascus wakes up on the cold stone slab of an ancient altar. He doesn't know who he is. He doesn't know where he's from. He doesn't even know his own name until a stranger tells it to him. But someone—or something—wants to kill him. This he knows with the certainty of the grave. At the same time, a demon from a dead universe—a gift from the Chained God—is freed from its fossilized prison. Its essence takes root in the nightmare reality of the living, sparking a transformation once thought halted by forgotten heroes. Dodging knives, uncovering clues left by his past life, and dueling demons, Demascus must figure out who he is, who his enemies are, and what battles he is fighting. Along the way, he will discover that he is the last of the forgotten heroes—the only thing that stands between the light of the world and the phantasmagorical torments of the Abyss.

Numenera Ninth World Bestiary 2 Bruce Cordell, Monte Cook Games,2017-05-03 The Ninth World is unlike any other fantasy setting: weird, imaginative, dangerous, and often a bit creepy. The creatures of the Numenera setting are no different and the Ninth World Bestiary 2 gives you 170 new ones to populate your campaign. Lavishly illustrated, wildly imaginative, and cleverly organized to make the GM's job as easy as possible, Ninth World Bestiary 2 gives you great GM advice on using pre-made creatures as well as creating your own, and includes lots of additional details about the Ninth World's complex far-future, post-apocalyptic ecology. Ninth World parasites, transdimensional creatures, mechanical automatons, extraterrestrials, and loads and loads of creatures for characters to face and fight are just the beginning in the weird and wonderful setting of Numenera.
