

Secrets Of Kenya The Mythos Roams Wild

Myriam Warner-Vieyra

Secrets of Kenya David Conyers, 2007 The Eastern regions of Africa are largely unexplored by Westerners. Beneath the desert sands, and lurking within the highlands lie mysteries far older than Western civilization, and indeed mankind. Long before the arrival of Arab traders or European explorers some of the native peoples learned to fear and worship great and terrible beings. Here within the heart of Africa, adventure and horror await those brave or foolhardy enough to seek them out. *Secrets of Kenya* details the cultures, geography, and history of Kenya through the 1930's; provides an African bestiary; details several secret societies; and includes four adventures to jump start your own explorations of Kenya and the surrounding African wilds.

Man and His Symbols Carl G. Jung, 2012-02-01 The landmark text about the inner workings of the unconscious mind—from the symbolism that unlocks the meaning of our dreams to their effect on our waking lives and artistic impulses—featuring more than a hundred images that break down Carl Jung's revolutionary ideas "What emerges with great clarity from the book is that Jung has done immense service both to psychology as a science and to our general understanding of man in society."—The Guardian "Our psyche is part of nature, and its enigma is limitless." Since our inception, humanity has looked to dreams for guidance. But what are they? How can we understand them? And how can we use them to shape our lives? There is perhaps no one more equipped to answer these questions than the legendary psychologist Carl G. Jung. It is in his life's work that the unconscious mind comes to be understood as an expansive, rich world just as vital and true a part of the mind as the conscious, and it is in our dreams—those personal, integral expressions of our deepest selves—that it communicates itself to us. A seminal text written explicitly for the general reader, *Man and His Symbols* is a guide to understanding the symbols in our dreams and using that knowledge to build fuller, more receptive lives. Full of fascinating case studies and examples pulled from philosophy, history, myth, fairy tales, and more, this groundbreaking work—profusely illustrated with hundreds of visual examples—offers invaluable insight into the symbols we dream that demand understanding, why we seek meaning at all, and how these very symbols affect our lives. By illuminating

the means to examine our prejudices, interpret psychological meanings, break free of our influences, and recenter our individuality, *Man and His Symbols* proves to be—decades after its conception—a revelatory, absorbing, and relevant experience.

Corpus Anarchicum Hamid Dabashi, 2012-09-24 This book is a meditation on and an attempt to understand suicidal violence in the immediate context of its most recent political surge: the decade between 2001 and 2011, from the suicidal mission of Muhammad Atta and his band in the United States to the suicide of Mohamed Bouazizi in 2010 in Tunisia. After the former a devastating military strike and occupation of two Muslim countries commenced, and after the latter a massive transnational democratic uprising ensued. Suicidal violence is neither specific to Islam nor peculiar to our time. It has been manifested in practically all cultures and religions and throughout human history. But the suicidal violence we witness today is of an entirely different disposition because the bodies (both of the assailant and of the assailed) on which it is perpetrated are no longer the human body of our Enlightenment assumption. What we are witnessing is in fact the contour of a posthuman body. The posthuman body, as Dabashi here proposes, is the body of a contingent and contextual being, and as such an object of disposable knowledge; while the human body that it has superseded was corporeally integral, autonomous, rational, indispensable, and above all the site of a knowing subject.

The Spiritual Quest Robert M. Torrance, 2023-09-01 Robert Torrance's wide-ranging, innovative study argues that the spiritual quest is rooted in our biological, psychological, linguistic, and social nature. The quest is not, as most have believed, a rare mystical experience, but a frequent expression of our most basic human impulses. Shaman and scientist, medium and poet, prophet and philosopher, all venture forth in quest of visionary truths to transform and renew the world. Yet Torrance is not trying to reduce the quest to an archetype or monomyth. Instead, he presents the full diversity of the quest in the myths and religious practices of tribal peoples throughout the world, from Oceania to India, Africa, Siberia, and especially the Americas. In theorizing about the quest, Torrance draws on thinkers as diverse as Bergson and Piaget, van Gennep and Turner, Pierce and Popper, Freud, Darwin, and Chomsky. This is a book that will expand our knowledge—and awareness—of

a fundamental human activity in all its fascinating complexity.

Car Crash Culture M. Brottman, 2016-04-30 A morbidly fascinating and articulate collection of essays, this book explores the grim underside of America's cult of the automobile and the disturbing, frequently conspiratorial, speculations that arise whenever the car becomes the cause or the site of human death. Through analysis of fatal celebrity car accidents and other examples of death by automobile, as well as through personal memoir and forensic reports, cultural critics ponder our very human fascination with the car crash. Topics include the roles and experiences of passengers and bystanders, car crash conspiracy theories, the automobile as a site of murder, studies of car crash cinema, and psychological interpretations of the notion of the 'accident.' The book features original essays by such underground icons as Kenneth Anger and Adam Parfrey.

Abrahamic Faiths, Ethnicity, and Ethnic Conflicts Paul Peachey, George F. McLean, John Kromkowski, 1997 This study of religions is concerned with the tension which can be generated from these sources and the resources which religions bring to their resolution. Especially it looks to the common Abrahamic roots of the three religions of the book: Judaism, Christianity and Islam. Throughout it looks for the complex dialects of unity in diversity, and diversity in unity.

Sociogenesis Reexamined Willibrord De Graaf, Robert Maier, 2012-12-06 Sociogenesis Reexamined offers the foundation for an inter-disciplinary social scientific approach towards the development of persons in their historical and societal contexts. The editors have organized herein the opportunity for exchange and theoretical confrontation on the theme of mechanisms in sociogenesis. Stemming from a workshop that took place at the Rijksuniversiteit Utrecht in December 1990, the editors and contributors attempt to begin the refinement and reworking of the concept of sociogenesis. Two possible branches in the definition of sociogenesis are presented in the introduction as a useful guide in mapping existing approaches. The text is then divided into four parts: theoretical and historical foundations; new conceptual approaches; analysis of existing frameworks; empirical case studies. Systematic perspectives for research in the field are offered. For

developmental and social psychologists, anthropologists, researchers and graduate students, this groundbreaking work will surely initiate much elaboration and innovation in the study of sociogenesis.

The Truth about Crime Jean Comaroff, John L. Comaroff, 2016-12-05 This new book by the well-known anthropologists Jean and John L. Comaroff explores the global preoccupation with criminality in the early twenty-first century, a preoccupation strikingly disproportionate, in most places and for most people, to the risks posed by lawlessness to the conduct of everyday life. Ours in an epoch in which law-making, law-breaking, and law-enforcement are ever more critical registers in which societies construct, contest, and confront truths about themselves, an epoch in which criminology, broadly defined, has displaced sociology as the privileged means by which the social world knows itself. They also argue that as the result of a tectonic shift in the triangulation of capital, the state, and governance, the meanings attached to crime and, with it, the nature of policing, have undergone significant change; also, that there has been a palpable muddying of the lines between legality and illegality, between corruption and conventional business; even between crime-and-policing, which exist, nowadays, in ever greater, hyphenated complicity. Thinking through Crime and Policing is, therefore, an excursion into the contemporary Order of Things; or, rather, into the metaphysic of disorder that saturates the late modern world, indeed, has become its leitmotif. It is also a meditation on sovereignty and citizenship, on civility, class, and race, on the law and its transgression, on the political economy of representation.

Juletane Myriam Warner-Vieyra, 2014-05-01 In this powerful and moving novel, Myriam Warner-Vieyra sensitively portrays the complexities of cross-cultural relationships and, in particular, the female predicament. When Helene, a self-reliant career woman, is packing her belongings for a move and imminent marriage for which she is reluctant, she unearths a faded old book. It is the diary of young Juletane, a confused, sheltered West Indian woman struggling to find herself. Written over three weeks, it records her short life: childhood in France, marriage to an African student, and an eager return with him to Africa, the land of her ancestors. It is Juletane's diary that brings her and Helene together. Juletane does not fit into her husband's traditional African family, especially the Muslim cultural demands of polygamy. Full of gentle ironies, *Juletane* is a story about alienation, madness, shattered dreams: the disillusioned West Indian outsider's disenchantment with Africa. Myriam Warner-Vieyra looks at women's lives, at the paths they have taken, at the possibilities open to women in the Caribbean, in Africa, in life. She forces readers, through the double narrative of Juletane and Helene, to reexamine easy assumptions, to look again at safe generalizations. Includes valuable Introduction 2014 by the translator.
