Arthur Schnitzler

Eyes Wide Shut Robert P. Kolker, Nathan Abrams, 2019-05-08 Twenty years since its release, Stanley Kubrick's *Eyes Wide Shut* remains a complex, visually arresting film about domesticity, sexual disturbance, and dreams. It was on the director's mind for some 50 years before he finally put it into production. Using the Stanley Kubrick Archive at the University of the Arts, London, and interviews with participants in the production, the authors create an archeology of the film that traces the progress of the film from its origins to its completion, reception, and afterlife. The book is also an appreciation of this enigmatic work and its equally enigmatic creator.

Changing Tunes Phil Powrie, Robynn Jeananne Stilwell, 2006 The study of pre-existing film music is a well-established part of Film Studies, covering 'classical' music and popular music. Generally, these broad musical types are studied in isolation. This anthology brings them together in twelve focused case studies. The first section explores art music; it revolves around the debate on the relation between the aural and visual tracks, and whether pre-existing music has an integrative function or not. The second section is devoted to popular music in film, and shows how very similar the functions of popular music in film are to the supposedly more 'elite' classical music and opera.

The Hidden Brain Shankar Vedantam, 2010-01-19 The hidden brain is the voice in our ear when we make the most important decisions in our lives—but we're never aware of it. The hidden brain decides whom we fall in love with and whom we hate. It tells us to vote for the white candidate and convict the dark-skinned defendant, to hire the thin woman but pay her less than the man doing the same job. It can direct us to safety when disaster strikes and move us to extraordinary acts of altruism. But it can also be manipulated to turn an ordinary person into a suicide terrorist or a group of bystanders into a mob. In a series of compulsively readable narratives, Shankar Vedantam journeys through the latest discoveries in neuroscience, psychology, and behavioral science to uncover the darkest corner of our minds and its decisive impact on the choices we make as individuals and as a society. Filled with fascinating characters, dramatic storytelling, and cutting-edge science, this is an engrossing exploration of the secrets our brains keep from us—and how they are revealed.

Stanley Kubrick David Mikics, 2020-08-18 An engrossing biography of one of the most influential filmmakers in cinematic history Kubrick grew up in the Bronx, a doctor's son. From a young age he was consumed by photography, chess, and, above all else, movies. He was a self-taught filmmaker and self-proclaimed outsider, and his films exist in a unique world of their own outside the Hollywood mainstream. Kubrick's Jewishness played a crucial role in his idea of himself as an outsider. Obsessed with rebellion against authority, war, and male violence, Kubrick was himself a calm, coolly masterful creator and a talkative, ever-curious polymath immersed in friends and family. Drawing on interviews and new archival material, Mikics for the first time explores the personal side of Kubrick's films.

Why Sinatra Matters Pete Hamill, 2009-02-28 In honor of Sinatra's 100th birthday, Pete Hamill's classic tribute returns with a new introduction by the author. In this unique homage to an American icon, journalist and award-winning author Pete Hamill evokes the essence of Sinatra--examining his art and his legend from the inside, as only a friend of many years could do. Shaped by Prohibition, the Depression, and war, Francis Albert Sinatra became the troubadour of urban loneliness. With his songs, he enabled millions of others to tell their own stories, providing an entire generation with a sense of tradition and pride belonging distinctly to them. With a new look and a new introduction by Hamill, this is a rich and touching portrait that lingers like a beautiful song.

We'll Meet Again Kate McQuiston, 2013-09-19 Unique and often startling encounters between music and the moving

image in the films of Stanley Kubrick are trademarks of his style; witness the powerful effects of Strauss's Also Sprach Zarathustra in 2001: A Space Odyssey and of Beethoven's 9th Symphony in A Clockwork Orange, each excerpt vetted by Kubrick himself. We'll Meet Again argues that, for Kubrick, music is neither post-production afterthought nor background nor incidental, but instead is core to films' effects and meanings. The book first identifies the building blocks in Kubrick's sonic world and illuminates the ways in which Kubrick uses them to support his characters and to define character relationships. It then delves into the effects of Kubrick's signature musical techniques, including the use of texture, form, and inscription to render and reinforce psychological ideas and spectator responses. Finally it presents case studies that show how the history of the music plays a vital and dynamic role for the films. As a whole, the book locates Kubrick as a force in music reception history by examining the relationship between his musical choices and popular culture, and reveals the foundational role of music in his filmmaking.

With My Eyes Wide Open Brian "Head" Welch, Carol Traver, 2016-05-17 He left KoRn to help himself. He went back to help others. And along the way, he nearly lost everything. A life-changing spiritual awakening freed Brian "Head" Welch from a stranglehold of drugs and alcohol and prompted him to leave the highly successful nu-metal band KoRn in 2005. What followed was a decade-long trial by fire, from the perils of fathering a teen lost in depression and self-mutilation to the harsh realities of playing solo and surviving the shattering betrayal of a trusted friend. In this intensely inspiring redemption saga, perhaps most inspiring is Brian's radical decision to rejoin KoRn and reconcile with the tribe of people he once considered family in the metal music scene. Brian returned to his musical roots with a clear head and a devoted heart. Though his story is wild, hilarious, and deeply poignant, the message is simple: God will love you into the freedom of being yourself, as long as you keep the relationship going and never, ever quit.

Listening to Stanley Kubrick Christine Lee Gengaro, 2013 The musical scores of Stanley Kubrick's films are often praised as being innovative and forward-looking. Despite playing such an important part in his productions, however, the ways in which Kubrick used music to great effect is still somewhat mysterious to many viewers. Although some viewers may know a little about the music in 2001 or A Clockwork Orange, few are aware of the particulars behind the music in Kubrick's other films. In *Listening to Stanley Kubrick: The Music in His Films*, Christine Lee Gengaro provides an in-depth exploration of the music that was composed for Kubrick's films and places the pre-existent music he utilized into historical context. Gengaro

discusses the music in every single work, from Kubrick's first films, including the documentary shorts *The Flying Padre* and *Day of the Fight*, through all of his feature films, from *Fear and Desire* to *Eyes Wide Shut*. No film is left out; no cue is ignored. Besides closely examining the scores composed by Gerald Fried for Kubrick's early works, Gengaro pays particular attention to five of the director's most provocative and acclaimed films--2001: A Space Odyssey, *A Clockwork Orange*, *Barry Lyndon*, *The Shining*, and *Eyes Wide Shut*. For each film, she engages the reader by explaining how the music was excerpted (and changed, in some cases), and how the historical facts about a musical piece add layers of meaning--sometimes unintended--to the films. Meant for film lovers, music lovers, and scholars, *Listening to Stanley Kubrick* is a thoroughly researched examination into the musical elements of one of cinema's most brilliant artists. Appropriate for a cinema studies or music classroom, this volume will also appeal to any fan of Kubrick's films.

Music as Image Benjamin Nagari, 2015-06-26 Through a theoretical and practical exploration of Jungian and post-Jungian concepts surrounding image, this book moves beyond the visual scope of imagery to consider the presence and expression of music and sound, as well as how the psyche encounters expanded images - archetypal, personal or cultural - on both conscious and unconscious levels. By closely examining music in film, Nagari considers music's complementary, enhancing, meaningful, and sometimes disruptive, contribution to expressive images. Chapters present a Jungian approach to music in film, highlighting how 'music-image' functions both independently and in conjunction with the visual image, and suggesting further directions in areas of research including music therapy and autism. Divided into three cumulative parts, Part I explores the Jungian psychological account of the music-image; Part II combines theory with practice in analysing how the auditory image works with the visual to create the 'film as a whole' experience; and Part III implements a specific understanding of three individual film cases of different genres, eras and styles as psychologically scrutinised 'case histories'. *Music as Image* will be of interest to academics and students in the fields of applied psychoanalysis and Jungian psychology, music, film and cultural studies. With implications for music therapy and other art-based therapies, it will also be relevant for practising psychotherapists.

Stanley Kubrick's A Clockwork Orange Stuart Y. McDougal, 2003-07-07 Stanley Kubrick's 'A Clockwork Orange' brings together critically informed essays about one of the most powerful, important and controversial films ever made. Following an introduction that provides an overview of the film and its production history, a suite of essays examine the literary origins of the work, the nature of cinematic violence, questions of gender and the film's treatment of sexuality, and the difficulties of adapting an invented language ('nadsat') for the screen. This volume also includes two contemporary and conflicting reviews by Roger Hughes and Pauline Kael, a detailed glossary of 'nadsat' and stills from the film.

György Ligeti Louise Duchesneau, Wolfgang Marx, 2011 The combination of new insights into Ligeti by people who knew him with new analytical approaches will make this a core publication not only for Ligeti scholars, but also for readers

interested in post-war music history and in Hungarian culture. Shortlisted for the RPS Music Award 2012 for Creative Communication. György Ligeti: Of Foreign Lands and Strange Sounds offers a new assessment of a composer whose constant exploration of new sound worlds- based on the musics of different cultures and ages - contributed in crucial ways to making him one of the most important musical voices of the last 50 years. The book combines texts by former students, colleagues and friends, who reflect on different and so far unknown aspects of Ligeti's persona, with new musicological interpretations of his style and several of his main works. Among the contributors are some of the most eminent Ligeti scholars, including Richard Steinitz and Paul Griffiths. Louise Duchesneau, Ligeti's assistant of over 20 years, acts not only as contributor but also as co-editor of the volume. Many of the musicological chapters are based on studies of Ligeti's sketches, which are now housed by the Paul Sacher Foundation in Basle and were made available for research only recently. Two close collaborators representing disciplines which deeply interested Ligeti - Heinz-Otto Peitgen (a mathematician who introduced Ligeti to fractal geometry, which influenced many of his works since 1985) and Simha Arom (an ethnomusicologist who acquainted Ligeti with the complex rhythmic patterns of the music of Sub-saharan Africa) - also reflect on the composer for the very first time in writing. The combination of new insights into Ligeti by people who knew him with new analytical approaches will make this a core publication not only for Ligeti scholars, but also for readers interested in music of the second half of the twentieth century and in Hungarian culture. WOLFGANG MARX is Lecturer in Music, University College Dublin. LOUISE DUCHESNEAU was Ligeti's assistant for 20 years Contributors: SIMHA AROM, JONATHAN W. BERNARD, CIARÁN CRILLY, LOUISE DUCHESNEAU, BENJAMIN DWYER, TIBORC FAZEKAS, PAUL GRIFFITHS, ILDIKÓ MÁNDI-FAZEKAS, WOLFGANG MARX, HEINZ-OTTO PEITGEN, FRIEDEMANN SALLIS, WOLFGANG-ANDREAS SCHULTZ, MANFRED STAHNKE, RICHARD STEINITZ
