

Startup Bubble In India

Rebecca A. Fannin

Flight of the Unicorns Soum Paul, 2017-06 The years 2015 and 2016 were watershed years in the history of the Indian start-up ecosystem. Not only did the word 'start-up' enter common parlance as large sums of money were poured in, several firms also achieved the fabled 'unicorn' status of billion-dollar valuation. However, immediately afterwards, the exuberance disappeared as the bubble burst and the very viability of these celebrated ventures came into question. And with it, began a new era. In *Flight of the Unicorns*, Soum Paul takes a deep dive into the trajectory of Indian start-ups in the recent past and explores the trials and tribulations of starting up. Through the voices of many innovators, entrepreneurs and investors, he studies the patterns in successes and parallels from other emerging markets. He builds on theories around what works and what doesn't and paints a vision for the future of start-ups in this part of the world.

Startup Asia Rebecca A. Fannin, 2012 Showing how entrepreneurs and investors can start up in Asia and go global, the book provides a first-hand, on-the-ground tour of the new technology centers that are gaining momentum all over Asia. Interviews with the most successful venture capitalists and entrepreneurs reveal their winning strategies and show how a new generation of entrepreneurs in China and India are no longer looking to the West for their cues - but are instead crafting their own local business models and success strategies.

Unicorns, Hype, and Bubbles Jeffrey Funk, 2024-10-22 New technologies are an investment minefield. Putting money behind them means taking a risk on unproven ventures, often from inexperienced (and potentially unscrupulous) developers. While some will lead the investor to fantastic gains, many others turn out to be mere bubbles - a flimsy veneer of excitement and hype with little profitable at the core. But ignoring these technologies can be even worse, as this can mean failing to capitalise on the next great step in innovation. From cryptocurrencies, blockchain, the metaverse, Web3, and NFTs, to self-driving vehicles, delivery drones, solid state batteries, eVTOLs, and more, technology bubbles have been inflating and popping for many years. Each time a bubble pops, tens if not hundreds of billions of investment dollars disappear with them. *Unicorns, Hype, and Bubbles* arms the reader with the tools required to differentiate between bubbles and genuine, sustainable technological revolutionaries. Under the expert tutelage of Jeffrey Funk, you will learn: • The economics of modern businesses and how they lead to bubbles forming. • How to assess new technologies to sift viable investments from hype-driven bubbles. • That you can be a far better judge of new technologies than so-called "industry experts". • How to

identify exciting new opportunities in a world of money-losing startups. And much more.

The Golden Tap - The Inside Story of Hyper-Funded Indian Start-Ups Kashyap Deorah, 2015-11-16 Ever wondered why global investors are willing to write million dollar cheques to young and inexperienced entrepreneurs? Why companies are no longer judged on their ability to make profits? Why the valuation of a startup can dwarf that of its well-established counterpart? Is it a bubble? Or have the rules of the game changed? Can these hyper-funded; technology driven companies become global superpowers? Or is it an unsustainable phenomenon? The Golden Tap gives you the answers. In a remarkably honest, no holds barred account; Kashyap – himself a serial entrepreneur – demystifies the technology ecosystem that exists in India today. From the origins of Amazon and Google, to the remarkable growth of Flipkart and Ola, he meticulously plots and chronicles a connected global sequence of events. Set in this background he recounts his personal roller coaster of a life. A story filled with ambition, greed, vanity, fear and success that all young entrepreneurs can relate to. Is this the business model of the future? Or merely a game of poker played by master investors? The answers pour out of The Golden Tap.

Corporate Ethics for Turbulent Markets Oswald A. J. Mascarenhas, SJ, 2018-10-30 Corporate Ethics for Turbulent Markets: The Market Context of Executive Decisions focuses on the HOW of doing business – the economic, social, ethical, moral and spiritual values we bring to our business ventures – and how thereby we impact the world.

India Emerging Sandip Sen, Aarohi Sen, 2019-04-18 India, like most democratic developing nations, is prone to populist politics. In the search of votes, politicians look for popular solutions with mass appeal. Some popular solutions benefit the poor, some hurt the economy. Poor economics leads to falling numbers. Falling numbers get statistically captured as economic data. And, the impact of such economic data is immense. This data can lift or crash currency markets, stock markets, affect credit ratings, fuel inflation, affect new investments and even result in mass layoffs. However, there is always a story behind the data. These stories are guided mostly by executive decisions. Some decisions are far-reaching and beneficial to the masses, some cater to political vote banks, some are guided by increasing activism, some serve the need for social justice, some are aimed at environmental protection, while some are simply driven by the greed of power or wealth. This is the story of every regime. The book narrates this compelling data story in a layman's language. Even where data is wrong it leaves behind a tell-tale mark of anomalies, which trips the economy sooner than later. Fudged, incorrect or lazily collected data is worse than genuine but unimpressive data as you do not know what to correct. India Emerging thus captures this dialogue on the pros and cons of economic and political decisions that can be understood by the common voter who is neither an economist nor an academician.

Startup Sacrilege for the Underdog Entrepreneur Paul Orlando, Don't identify with the mainstream startup world? Working on a startup outside of a tech hub or in an unfashionable industry? Maybe that makes you an underdog

entrepreneur. This book is for you. Startups and community organizers outside of the mainstream are being misled. This book is inspired by experience co-founding a startup accelerator and working with startups around the world. Startup Sacrilege includes lessons learned and solutions, especially for startups and community organizers outside of established tech hubs. It's an alternative view that challenges startup world assumptions and makes suggestions for what to do instead.

Augmented Education in the Global Age Daniel Araya, Peter Marber, 2023-03-23 Augmented Education in the Global Age: Artificial Intelligence and the Future of Learning and Work is an edited collection that explores the social impact of Artificial Intelligence over the coming decades, specifically how this emerging technology will transform and disrupt our contemporary institutions. Chapters in this book discuss the history of technological revolutions and consider the anxieties and social challenges of lost occupations, as well as the evolution of new industries overlapping robotics, biotechnology, space exploration, and clean energy. Chapter authors unpack the nature of augmented education, from revamping curriculum and personalizing education, to redesigning workplace learning for an algorithmic era. Ultimately the book discusses policy and planning for an augmented future, arguing that work and learning are undergoing a metamorphosis around creativity and innovation amid a new global era and the race against automating technologies. Bringing together expert perspectives from around the world, this exciting, informative collection of research and analysis helps educators, policymakers and analysts navigate the future of work and learning amid rapid and accelerating technological change. The Open Access version of this book, available at <http://www.taylorfrancis.com>, has been made available under a Creative Commons Attribution-Non Commercial-No Derivatives (CC-BY-NC-ND) 4.0 license.

VUCA in Start-ups Dr. Aseem Chauhan, Prof. (Dr.) Manoj Joshi, Prof. (Dr.) Ashok Kumar & Suhayl Abidi, 2021-12-25 How to Thrive as a Start-Up in an Uncertain World What motivates a start-up in its journey? Wealth and fame? Or is it hunger for innovation? VUCA in Start-Ups attempts to capture a start-up's entrepreneurial journey and find out why some do well when others don't. It's a highly volatile environment out there for entrepreneurs and start-ups, thanks to the unprecedented Covid-19 crisis filled with volatility, uncertainty, complexity and ambiguity (VUCA). Many businesses that did well in the past had to shut shop as a result. So what went wrong? To find the answer, it's important to understand what worked in the past and why a new venture must discover fresh and innovative opportunities to survive. Learn from those who chose the road less travelled, including Zomato, Paytm, Flipkart, Ola Cabs and Quikr, and discover the underlying causes for start-up successes and failures. These well-researched case studies aim to inspire those who wish to embark on an entrepreneurial journey.

The Startup Book Bilal Ahmed,2014-07-10 Building a startup is tough. There are many battles to fight. There are many things to learn. Many of us have dealt with investors so this is a great opportunity to be humble no matter how smart we are. The time is ticking. There is much to be done. At the end, we have the ability and opportunity to transform into something completely different.

Start-up City Moloy Kumar Bannerjee,Siddharth Bannerjee,P. Ranganath Sastry,2014

Sustainable Smart Cities in India Poonam Sharma,Swati Rajput,2017-03-27 This book presents fundamental and applied research aimed at the development of smart cities across India. Based on the exploration of an extensive array of multidisciplinary literature, this book discusses critical factors of smart city initiatives: management and organization, technology, governance, policy, people and communities, economy, infrastructure, and natural environment. These factors are broadly covered under the integrative framework of the book to examine the vision and challenges of smart city initiatives. The book suggests directions and agendas for smart city research and outlines practical implications for government professionals, students, research scholars and policy makers. A lot of work is happening on smart cities as it is an upcoming area of research and development. At international level, and even in India, the concept of smart cities concept is a hot topic at universities, research centers, ministries, transport departments, civic bodies, environment, energy and disaster organizations, town planners and policy makers. This book provides ideas and information to government officials, investors, experts and research students.

India's Journey Toward an Effective Patent System Bruce Abramson,2012 The decade following India's accession to the World Trade Organization's Trade-Related Aspects of Intellectual Property ushered in numerous changes to the country's patent system, culminating in a series of amendments in 2005. But a functioning patent system is more than a statute. This paper discusses the steps that India must still take to develop an effective, functioning patent system capable of attracting foreign direct investment, motivating domestic innovation and education, and filtering its benefits to all elements of Indian society, including the poor and the possessors of traditional knowledge. The analysis combines data studies of historical and recent patenting activity in India and by Indians, interviews with Indian government officials, intellectual property attorneys, industrialists, and researchers, and lessons gleaned from patent systems abroad. It identifies critical needs and concrete steps to meet them. Improving public awareness of the revenue-generating potential of patents will enhance incentives for the participation of individuals and small and medium enterprises in the patent system. Formalizing guidelines for patents derived through government research funds-coupled with needed changes in institutional governance-will enhance prospects for technology transfer from laboratories to commercial markets. Compensation schemes for traditional knowledge will extend the benefits of intellectual property rights to the poorest members of society. This paper's recommendations would

help India achieve both a fully functioning patent system and a mechanism for ensuring that poor people living traditional lifestyles receive their share of the social gains that a working innovation system can confer.

Entrepreneurial Finance in Emerging Markets Darek Klonowski, 2020-08-10 This book presents a wide range of tools and techniques used in entrepreneurial finance in emerging markets. Among them, venture capital is perhaps the best known, understood, and researched mode of entrepreneurial finance. However, a significant focus of the book is dedicated to other modes of entrepreneurial finance such as 'bootstrapping,' angel financing, bank financing, and other alternative means of financing, which could include government assistance programs, business incubation, technology parks, or family financing. In addition, the book highlights how new and innovative financial technologies (comprised of software, business processes, and other modern technologies), known under the term of FinTech, may support, enable, and enhance the provision of different modes of entrepreneurial finance in emerging markets. The book also discusses entrepreneurial finance in emerging markets in the context of women entrepreneurs. A comprehensive analysis of entrepreneurial finance in emerging market countries, this book will appeal to academics, researchers, and students of entrepreneurial finance, venture capital and private equity, entrepreneurship, and international business.
