Cookie Isabelle Duff, 2021-10-06 Cookie the Border Collie loves lots of things, like smelling smelly smells, chewing chewy things, going for adventures and making friends. But most of all, Cookie loves Girl. Join this inseparable pair as they play together and learn how to make each other happy, even on the days when Cookie is the only one who can make Girl smile. Cookie is a heart-warming story about the love between a pet and their person. It is also a sensitive exploration of childhood depression and anxiety, and the importance of empathy. With beautiful words and playful illustrations, it provides a gentle starting point for big conversations. 19-year-old author Isabelle Duff was inspired to write *Cookie* by her personal experiences with acute depressive disorder and anxiety, and by her wonderful dog, Saffy, who has been an invaluable support to her. The result is a valuable resource for reducing stigmatism around mental illness, and a tribute to the loved ones who are able to get you out of bed when nothing else can. Anyone who picks up *Cookie* will find themselves learning something from this mischievous pup and his Girl. It is for children who have experienced depression and anxiety just like Girl. It is for kids who don't understand why someone close to them is so sad. It is for child psychologists who need to talk to young people about mental illness. And, of course, it is for dog-lovers everywhere.

Handbook of Teen and Novice Drivers Donald L Fisher, Jeff Caird, William Horrey, Lana Trick, 2016-09-19 Despite a growing body of research and targeted remediation, teenage and novice drivers continue to be six to nine times more likely to die in a crash than they are when they are just a few years older. The World Health Organization reports that road traffic injuries are the leading cause of death globally among 15 to 19 year olds. In light of these crash statistics, understanding the teen driver problem remains of paramount public health importance around the world. The Handbook of Teen and Novice Drivers: Research, Practice, Policy, and Directions provides critical knowledge for a broad range of potential readers, including students, teachers, researchers in academics, industry and the federal government, public policy makers at all levels, insurance companies and automobile manufacturers, driving instructors, and parents and their teens.

Paramedic Heretic: Immutable Laws and Ethical Illusions K. Patrick McDonald, 2014-12-08 At one point during our lunch the famous Sonny Bono asked, So in other words, we've reached a point where a rescuer can't say 'screw the rules' and just do the right thing? Not in other words, Sonny. Those are the perfect words. Immutable Law #2 Saving lives is not our

priority. Following our policies is our priority. Protecting ourselves comes next. Avoiding lawsuits comes third. You come somewhere after that. * * * I was not even out of school before I witnessed my first doctor commit murder. It would not be my last - Lord, no - but I can recall that night as vividly as though it happened last week. Few medics forget their first physician homicide. * * * The ugly truth is some of the most macho medics on the planet turn into complete lollipops in the presence of an arrogant, incompetent physician. No matter how you parse it, that is professional cowardice. * * * K. Patrick McDonald is a graduate of UCSD La Jolla School of Medicine original Advanced Field Medicine program. He was appointed the first EMS Supervisor for the City of San Diego under Mayor (and then Governor) Pete Wilson's administration. He created one of the nation's first STAR (Special Trauma & Rescue) Teams and co-authored the San Diego City Disaster Preparedness Plan. He was a co-author of the National Waterpark Lifeguard Training Manual. He has acted as consultant to the U.S. Secret Service in Presidential Protection matters. He writes, After 30 years of occasionally saving lives, I learned that by writing and speaking, I can do more good for more citizens, while tolerating far fewer medical-political snollygosters.
