Sevilla: crónicas del siglo XX (1841-1960). Nicolás Salas, 1991 En este recorrido por el siglo XX sevillano, escrito con perspectiva y estilo periodísticos, como unos modernos anales, de fácil lectura y consulta, se ofrecen unas crónicas del pasado más reciente, tan cercano en el tiempo y tan lejano en la memoria colectiva sometida a la vorágine informativa de nuestra época.

La arquitectura de las escuelas primarias municipales de Sevilla hasta 1937 Rosa María Añón Abajas, 2005 Analiza la arquitectura de las escuelas primarias municipales de Sevilla, profundizando en la genealogía de cada obra en relación con la ideología social, y la apropiación que hace cada período político de los programas de obras públicas escolares heredados de los gobiernos anteriores.

Creating Shapes in Civil and Naval Architecture Horst Nowacki, Wolfgang Lefèvre, 2009 The design, construction and verification of complex two- and three-dimensional shapes in architecture and ship geometry have always been a particularly demanding part of the art of engineering. Before science-based structural design and analysis were applied in the construction industries, i.e., before 1800, the task of conceiving, documenting and fabricating such shapes constituted the most significant interface between practitioner's knowledge and learned knowledge, above all in geometry. The history of shape development in these two disciplines therefore promises especially valuable insights into the knowledge history of shape creation. This volume is a collection of contributions by outstanding scholars in their fields of study, archaeology, history of architecture and ship design, in classic antiquity, the Middle Ages and the early modern period. The volume presents a comparative knowledge history in these two distinct branches of construction engineering.

Jándalos. Arte y Sociedad entre Cantabria y Andalucía Miguel Ángel Aramburu-Zabala Higuera, Consuelo Soldevilla Oria, 2014-01-31 Las relaciones entre Cantabria y Andalucía, cuyos orígenes se remontan a la época de la Reconquista y repoblación del sur peninsular, han continuado hasta nuestros días, con consecuencias económicas, sociales y culturales que nunca se han dejado de manifestar. Estas relaciones se deben sobre todo a un importante flujo de población entre las dos comunidades, que dio lugar a una arquitectura y a una serie de obras de arte tanto en Andalucía como en Cantabria, hasta ahora no estudiadas desde esta perspectiva. Este libro se centra en la figura del «jándalo», el emigrante montañés a Andalucía, como promotor artístico, con sus manifestaciones artísticas en Andalucía, en las provincias de Sevilla y Cádiz especialmente; y en Cantabria, particularmente en las poblaciones del área más occidental de la región.

How to Write the History of the New World Jorge Cañizares-Esguerra, 2001 An Economist Book of the Year, 2001. In the 18th century, a debate ensued over the French naturalist Buffon's contention that the New World was in fact geologically new. Historians, naturalists, and philosophers clashed over Buffon's view. This book maintains that the "dispute" was also a debate over historical authority: upon whose sources and facts should naturalists and historians reconstruct the history of the New World and its people. In addressing this question, the author offers a strikingly novel interpretation of the Enlightenment.

Picasso Ibero, 2021-09-07 Picasso in dialogue with the Iberian holdings of the Louvre Although he spent most of his adult life in France, painter Pablo Picasso (1881-1973) never denied the artistic influence that his upbringing in Spain imparted upon him. Of particular significance was the art and culture of the Iberian Peninsula where he had been born and later lived as a young man, though it was likely that his first real encounter with Iberian art took place at the Louvre in France. This volume accompanies a curatorial collaboration between the Centro Botín in Spain and the Musée Picasso-Paris in France that explores Picasso's relationship with Iberian art on an unprecedented scale. The book demonstrates this rich connection by comparing works by Picasso with masterpieces from the Louvre's Iberian collection and major Spanish archaeological museums. Further context provided by the world's leading experts in Iberian art conveys the depth of Picasso's cultural and artistic dialogue with his birthplace.

Spanish Rome, 1500-1700 Thomas James Dandele, 2008-10-01 In the sixteenth and seventeenth centuries, Rome was an aged but still vigorous power while Spain was a rising giant on track toward becoming the world's most powerful and first truly global empire. This book tells the fascinating story of the meeting of these two great empires at a critical moment in

European history. Thomas Dandeleet explores for the first time the close relationship between the Spanish Empire and Papal Rome that developed in the dynamic period of the Italian Renaissance and the Spanish Golden Age. The author examines on the one hand the role the Spanish Empire played in shaping Roman politics, economics, culture, society, and religion and on the other the role the papacy played in Spanish imperial politics and the development of Spanish absolutism and monarchical power. Reconstructing the large Spanish community in Rome during this period, the book reveals the strategies used by the Spanish monarchs and their agents that successfully brought Rome and the papacy under their control. Spanish ambassadors, courtiers, and merchants in Rome carried out a subtle but effective conquest by means of a distinctive “informal” imperialism, which relied largely on patronage politics. As Spain’s power grew, Rome enjoyed enormous gains as well, and the close relations they developed became a powerful influence on the political, social, economic, and religious life not only of the Iberian and Italian peninsulas but also of Catholic Reformation Europe as a whole.
