Heal Your Mind Mona Lisa Schulz, Louise L. Hay, 2016 Many of us grapple with how to stay happy, calm, and focused in a world that seems to get more complex by the minute. How do we keep our wits about us, our mood stable, and our memory intact when our brains and bodies are bombarded with information and influences from every side? This one-of-a-kind resource combines cutting-edge science with compassion and wisdom to offer answers we can really use. Heal Your Mind continues the three-pronged healing approach that Dr. Mona Lisa Schulz and Louise Hay pioneered together in All Is Well: Heal Your Body with Medicine, Affirmations, and Intuition. Here, it's applied to aspects of the mind ranging from depression, anxiety, and addiction to memory, learning, and even mystical states. You'll learn what's going on in your brain and body when: You feel sad, angry, or panicked; An addictive substance or behavior has hold of you; You have trouble focusing, reading, or remembering · A past trauma is clouding your mind in the present; An emotional state is a clue to a physical ailment ; And more And in each chapter, you'll get a virtual healing experience through case studies in the All Is Well Clinic, where Dr. Mona Lisa uses medical intuition to pinpoint issues in a wide range of prototypical client histories and she and Louise offer solutions and affirmations to help restore well-being. Today, the pill-for-every-ill approach is so prevalent that we may think our minds and bodies need an endless array of expensive, ever-changing pharmaceutical interventions. In truth,

medicines are just one approach to healing the mind; nutritional supplements give us another important way to support mind-body health; and affirmations, as well as various forms of therapy, can restore us to balance by changing the way we think. Heal Your Mind puts all these tools at your disposal to help you choose your own path toward wholeness--

The Spontaneous Healing of Belief Gregg Braden,2009-04-01 What would it mean to discover that everything from the DNA of life, to the future of our world, is based upon a simple Reality Code—one that we can change and upgrade by choice? New revelations in physics and biology suggest that we're about to find out! A growing body of scientific evidence suggests that our universe works like a Consciousness Computer. Rather than the number codes of typical software, our Consciousness Computer uses a language that we all have, yet are only beginning to understand. Life's reality code is based in the language of human emotion and focused belief. Knowing that belief is our reality-maker, the way we think of ourselves and our world is now more important than ever! For us to change the beliefs that have led to war, disease, and the failed careers and relationships of our past we need a reason to see things differently. Our ancestors used miracles to change what they believed. Today we use science. The Spontaneous Healing of Belief offers us both: the miracles that open the door to a powerful new way of seeing the world, and the science that tells us why the miracles are possible, revealing: why we are not limited by the laws of physics and biology as we know them today. Once we become aware of the paradigm-shattering discoveries and true-life miracles, we must think of ourselves differently. And that difference is where the spontaneous healing of belief begins.

But anytime you want to manifest gold that has got a minted mark on it that is acceptable as currency, then you are rearranging the past and your involvement in past events that happened thirty, forty, fifty years ago, and suddenly you are going to live an event that brings you that gold. And all the history books will be rewritten, and one day you will open up and see that you are one of the people involved in it. Of course you didn't know that now because it is yet to be rewritten. So the study then of the Great Work is to manipulate reality and evolve it. - Ramtha
