Mary Renault

The Persian Boy Mary Renault, 2014-08-07 'One of the greatest historical novels ever written' SARAH WATERS 'I love to find queer representation in historical fiction. . . Renault's eye for intimacy is amazing' DOUGLAS STUART 'Fierce, complex and eloquent' MADELINE MILLER 'Mary Renault is a shining light' HILARY MANTEL *** A groundbreaking queer classic and powerful reimaging of the last years of Alexander the Great, told through the eyes of his lover. I thought, There goes my lord, whom I was born to follow. I have found a king. And, I said to myself, looking after him as he walked away, I will have him, if I die for it. Bagoas, abducted as a boy and sold as a eunuch, has been transported to the heart of the Persian court as courtesan to King Darius. But when the Macedon army conquers his homeland, Bagoas finds freedom at the hands of their golden young commander, whose name is already becoming a legend: Alexander. Their encounter sparks a passionate devotion that shapes the Persian boy's future - and deepens into a relationship that will sustain them both through assassination plots, political intrigue and the threat of Alexander's own restless ambition. This is a spellbinding tale of power, loyalty and loss - a vision of history transfigured by love. 'Nowhere else in fiction have Alexander's beauty and charisma blazed with such potency' TOM HOLLAND 'Passionate and captivating' SEÁN HEWITT 'All my sense of the ancient world - its value, its style, the scent of its wars and passions - comes from Mary Renault' EMMA DONOGHUE 'The Alexander Trilogy stands as one of the most important works of fiction in the 20th century' ANTONIA SENIOR, THE TIMES

Funeral Games Mary Renault, 2014-08-07 'The Alexander Trilogy contains some of Renault's finest writing. Lyrical, wise, compelling: the novels are a wonderful imaginative feat' SARAH WATERS In the final novel of her stunning trilogy, Mary Renault vividly imagines the life of Alexander the Great, the charismatic leader whose drive and ambition created a legend. Alexander the Great died at the age of thirty-three, leaving behind an empire that stretched from Greece and Egypt to India. After Alexander's death in 323 B.C. his only direct heirs were two unborn sons and a simpleton half-brother. Every long-simmering faction exploded into the vacuum of power. Wives, distant relatives and generals all vied for the loyalty of the increasingly undisciplined Macedonian army. Most failed and were killed in the attempt. For no one possessed the leadership to keep the great empire from crumbling. But Alexander's legend endured to spread into worlds he had seen only in dreams. 'Mary Renault is a shining light to both historical novelists and their readers. She does not pretend the past is like the present, or that the people of ancient Greece were just like us. She shows us their strangeness; discerning, sure-footed,

challenging our values, piquing our curiosity, she leads us through an alien landscape that moves and delights us' - HILARY MANTEL 'The Alexander Trilogy stands as one of the most important works of fiction in the 20th century . . . it represents the pinnacle of [Renault's] career . . . Renault's skill is in immersing us in their world, drawing us into its strangeness, its violence and beauty. It's a literary conjuring trick like all historical fiction - it can only ever be an approximation of the truth. But in Renault's hands, the trick is so convincing and passionately conjured' Antonia Senior, The Times

Thermopylae Paul Cartledge,2011-08-19 Go tell the Spartans, Passerby, That here, obedient to their laws, we lie' Thus did the poet Simonides remember the three hundred elite Spartan warriors who, led by their king, Leonidas, faced the vast, inrushing Persian army at the 'hot gates' of Thermopylae and fought to the death for an ideal dearer to them than life itself - the ideal of freedom. Paul Cartledge's offers a compelling re-examination of this crucial moment in history, a epic clash of civilizations that helped shape the identity of Classical Greece and our own cultural heritage. 'Our greatest living expert on Sparta tells the story of that fearsome city's finest hour. The result is a book that wonderfully demonstrates the capacity of profound scholarship to thrill, to move and to inspire' Tom Holland, author of Rubicon and Persian Fire 'The world's leading authority on ancient Sparta' Noel Malcolm, Sunday Telegraph

The Nature of Alexander Mary Renault,2013-09-10 An "intriguing and invaluable" biography of Alexander the Great by the novelist whose fiction redefined Ancient Greece (The New York Times). Acclaimed writer Mary Renault is widely known

for her provocative historical novels of Alexander the Great and his lovers. But she also authored this nonfiction classic, a fresh, illuminating look at a man whose legend has remained larger than life for more than two thousand years. From his dysfunctional family dynamics to his molding under Aristotle, from his shocking rise to power at age twenty to the staggering violence of his military campaigns, Renault is clear-eyed about Alexander's accomplishments and his flaws. Infectious in its enthusiasm, this is a penetrating study of an unrivaled conqueror, enduring icon, and fascinating man. Hailed as both "a splendid achievement in nonfiction" (The Plain Dealer) and "the perfect companion to her Alexander novels" (The Wall Street Journal), Renault's engrossing and accessible biography stands alone in the pantheon of Alexander the Great literature. This ebook features an illustrated biography of Mary Renault including rare images of the author.

A Mist of Prophecies Steven Saylor, 2012-01-19 One afternoon as Gordianus the Finder is crossing the marketplace, a beautiful young seeress staggers towards him and dies in his arms. Possibly insane, and with no memory of her past Cassandra - like her Trojan namesake - had been reputed to possess the true gift of prophecy. For such a gift there are many in Rome who would pay handsomely...or resort to murder. Cassandra had been the confidante of the rich and powerful, until she fell victim to vicious killer. Obsessed with Cassandra and her mystery, Gordianus begins to investigate. As the citizens of Rome nervously await news of the war and the political situation verges on chaos, Gordianus gradually peels away the veils of secrecy that surround Cassandra's life and death. What he uncovers has deadly implications, involving some of the most powerful women in Rome - Gordianus's pursuit of the truth not only endangers his own life, but could well affect the future of Rome herself.

Alexander Valerio Manfredi, 2002 Alexander's epic quest continues into the heart of Asia and on towards the mystery of India. The Macedonian Army march ever onward in search of glory, crushing resistance at every turn. The culture and beauty of Babylon is quickly ravaged and the Palace of Persepolis burnt to ashes and cinder. An empire is destroyed and a new and bloody era begins. But there are other things on Alexander's mind. An ambitious project to unite the peoples of the empire under one homeland, begins to obsess him. There are rebellions and bloodshed, but the curious beauty of Queen Roxanna gives Alexander the strength to fulfil his destiny... This is a truly compelling, romantic and exciting book, and a fitting conclusion to the bestselling Alexander trilogy.

Silk Alessandro Baricco, 2006-07-09 In 1861 French silkworm merchant Hervé Joncour travels to Japan, where he encounters the mysterious Hara Kei. He develops a painful longing for Kei's beautiful concubine - but they cannot touch; they don't even speak. And he cannot read the note she sends him until he has returned to his own country. But the moment he does, Joncour is enslaved. Subtle, tender and surprising, *Silk* is an evocative tale of erotic possession.

Plato on God as Nous Stephen Philip Menn, 1995 This book is the first sustained modern investigation of Plato's theology. A central thesis of the book is that Plato had a theology--not just a mythology for the ideal city, not just the theory of forms or

the theory of cosmic souls, but also, irreducible to any of these, an account of God as Nous (Reason), the source of rational order both to souls and the world of bodies. The understanding of God as Reason, and of the world as governed directly or indirectly by Reason, is worked out in the dialogues of Plato's last period, the Statesman, Philebus, Timaeus, and Laws. These dialogues offer a strategy for explaining the physical world that goes beyond anything in the middle dialogues, and gives the best starting point for understanding the cosmologies and theologies of Aristotle, the Stoics, and later ancient thinkers. Menn focuses on the Timaeus as Plato's most sustained effort to provide what (according to the Phaedo) Anaxagoras had failed to deliver: an explanation of the world through Reason, showing that things are as they are because it is best, or because it best serves the order of the world as a whole. Anaxagoras was disappointed because he explained things through their material constituents, without explaining why the constituents are ordered as they are; but the theory of forms has the same defect, since it cannot explain why different parts of the universe participate in different forms according to a particular order. The Timaeus and other late dialogues attempt to supply the missing explanation of the ordering of the physical world. These dialogues do not retreat from the middle dialogue theory of forms, nor do they escape into an esoteric theory of numbers; but they add to the middle dialogues an analysis of the principles necessary to account for the existence and partial intelligibility of the sensible world--not only forms and a material substance but also Nous and souls. Although the demiurge of the Timaeus (and his counterpart the Nous of Philebus) is represented as a cause both to souls and bodies, most scholars have been reluctant to identify the demiurge as a being separate from and superior to souls, because they think that both the meaning of the Greek word nous and Plato's own statements require that Nous is either a kind of soul (mind or rational soul) or something inseparable from souls (rational mental activity). Reexamining the linguistic evidence and the Platonic texts, Menn argues that nous can mean something separate from souls, namely the virtue of rationality or intelligence that souls participate in. Menn argues that Anaxagoras' Nous should be construed as such a virtue; then he examines what status this virtue has in the context of the Platonic theory of forms, and how it is a cause both to souls and to bodies. Soul plays a crucial role in mediating the causality of Nous and introducing rational order into the world of bodies, but neither soul in general nor the world-soul in particular can be identified with Nous. Menn stresses the pre-Socratic context for the cosmology and theology of Plato's late dialogues; he argues for the importance of Diogenes of Appollonia in particular, and he reconstructs a possible new fragment of Diogenes from the Timaeus and from the Hippocratic treatise On Breaths. In the Timaeus and other late dialogues Plato attempts to do better than his predecessors by standards implicit in Socrates' critique of Anaxagoras in the Phaedo, but what Plato offers remains consciously provisional. Aristotle argues that the Timaeus remains liable to some of the same criticisms that Socrates had leveled against Anaxagoras, and Aristotle's own cosmology and theology take up Plato's challenge to carry out Anaxagoras' promise of an explanation of the world through Nous, and attempt to improve on the Timaeus as Plato had improved on Anaxagoras. In this way the Timaeus serves as an essential starting point, not only for

those later ancient philosophers who took it as an authoritative statement on the world and on God but also for those who took it as a challenge to do better.

The Legend of Alexander the Great on Greek and Roman Coins Karsten Dahmen,2007-01-24 This outstanding introductory survey collects, presents and examines, for the very first time, the portraits and representations of Alexander the Great on the ancient coins of the Greek and Roman period. From 320 BC to AD 400, Karsten Dahmen examines not only Alexander's own coinage and the posthumous coinages of his successors, but also the re-use of his image by rulers from the Greek world and the Roman empire, to late antiquity. Also including numismatic material that exceeds all previous published works, and well-illustrated, this historical survey brings Alexander and his legacy to life.

Legends of the Earth Dorothy B. Vitaliano,1973 The slower geologic processes are represented by myths associated with natural landforms, rocks and minerals, rivers and mountains, and other outstanding features of the landscape. Examples are also given to show some minor ways in which folklore and geology impinge on one another: misconceptions about geologic phenomena, such as earthquakes, which are so prevalent as to constitute a form of modern folklore, and conversely, ideas long considered to be pure folklore which may prove to have some basis in scientific fact. The most dramatic example of geom mythology so far discovered is the theory the origin of the lost continent of Atlantis may be found in the Minoan civilization of Crete, which suddenly disappeared from view around 1450 B.C., about the time of a tremendous eruption know to have occurred in the nearby volcano, Santorin. This theory, variously developed by Marinatos and Galanopoulos, is examined in the light of new evidence gathered in Crete by Mrs.

The Legacy of Alexander A. B. Bosworth,2005 This set of thematic studies is dedicated to the thirty years after the death of Alexander the Great in 323 BC, and forms the prelude to a general history of the period of the Successors (Diadochi). It begins with an investigation of the Babylon Settlement that sheds new light on the power groups which emerged after Alexander's death, and then examines the main social issue of the period - the dismemberment of what had been the Macedonian national army. A substantial central chapter presents the first detailed study ever attempted of the epic struggle between Antigonus the One-Eyed and Eumenes of Cardia (318-316), one of the most important and decisive campaigns of the ancient world. This is continued by a close analysis of Seleucus' rise to power in Babylonia, the foundation of arguably the greatest dynasty of the post-Alexander period, in which Babylonian documentary evidence is combined with the Greek literary tradition. There is a strong emphasis on source analysis, with a long essay dedicated to the most important literary figure of the period, the statesman and historian, Hieronymus of Cardia, focusing on his treatment of the ethnographic phenomena of widow-burning in ancient India and nomadism among the Nabataean Arabs. Finally, there is an investigation of the new monarchies which emerged during the period; it highlights the factors which brought success and failure in the new age, and compares and contrasts the very different experiences of Lysimachus and Demetrius the Besieger.

The book as a whole reflects the colour and turbulence of this critical period of transition, and reveals something of the nature and character of the extraordinary men and women who created the Hellenistic world.--BOOK JACKET.
