## Brendan McGuigan

*The Art of Rhetoric (Collins Classics)* Aristotle, 2012-09-13 HarperCollins is proud to present its incredible range of best-loved, essential classics.

*About Writing* Robin Jeffrey, 2016

**The Aeneid Workbook - Old Western Culture** Callihan Wesley, 2014-12-15

**101 Leadership Insights** Bob Phillips, Del Walinga, 2021-05-04 Tools, Tips, and Techniques for the Leader on the Go Whether you lead in an office, a jobsite, a church, or a classroom, 101 Leadership Insights is a handy guidebook guaranteed to help you better handle the challenges and conundrums that come with being a leader. Written by bestselling author Bob Phillips and business owner Del Walinga, this book is packed with wisdom that will help you improve your skills as a manager, mentor, and communicator. This collection of short yet highly informative chapters takes on more than a hundred of the most common leadership issues, such as... handling workplace conflict maintaining a healthy work/life balance recognizing red flags in unfamiliar situations finding fulfillment even while working unsatisfying jobs Featuring helpful personal checklists, solution-oriented questions, illuminating infographics, and valuable perspectives from well-known leaders, 101 Leadership Insights provides thoughtful and practical guidance that's readily available when you're in a pinch.

**UX Fundamentals for Non-UX Professionals** Edward Stull, 2018-09-11 What can a WWII-era tank teach us about design? What does a small, blue flower tell us about audiences? What do drunk, French marathon-runners show us about software? In 40+ chapters and stories, you will learn the ways in which UX has influenced history and vice versa, and how it continues to change our daily lives. This book enables you to participate fully in discussions about UX, as you discover the fundamentals of user experience design and research. Rather than grasp concepts through a barrage of facts and figures, you will learn through stories. Poisonous blowfish, Russian playwrights, tiny angels, Texas sharpshooters, and wilderness wildfires all make an appearance. From Chinese rail workers to UFOs, you will cover a lot of territory, because the experiences that surround you are as broad and varied as every age, culture, and occupation. You will start by covering the principles of UX before going into more diverse topics, including: being human, the art of persuasion, and the murky waters of process. Every day, people gather around conference tables, jump onto phone calls, draw on whiteboards, stare at computer monitors, and try to build things — we all create. Increasingly, what we create is something digital. From apps to

web sites, and from emails to video games, often the sole evidence of an experience appears on an illuminated screen. We design tiny worlds that thrive or perish at the whim of a device's on/off button. With this book you will be ready. What You'll Learn Master the fundamentals of UX Acquire the skills to participate intelligently in discussions about UX design and research Understand how UX impacts business, including product, pricing, placement, and promotion as well as security, speed, and privacy Who This Book Is For Professionals who work alongside UX designers and researchers, including but not limited to: project managers, graphic designers, copyeditors, developers, and human resource professionals; and business, marketing, and computer science students seeking to understand how UX affects human cognition and memory, product pricing and promotion, and software security and privacy.

**Rhetorical Devices** Brendan McGuigan, 2011 Help students shine on the written portion of any standardized test by teaching the skills they need to craft powerful, compelling arguments using rhetorical devices. Students will learn to accurately identify and evaluate the effectiveness of rhetorical devices in not only famous speeches, advertisements, political campaigns, and literature, but also in the blog, newspaper, and magazine entries they read in their daily lives. Students will then improve their own writing strategy, style, and organization by correctly and skillfully using the devices they have learned. Each device is illustrated with clear, real-life examples to promote proper usage and followed up with meaningful exercises to maximize understanding. Pointers are provided throughout this book to help your students develop a unique writing style, and cumulative exercises will help students retain what they have learned.--

*Praxis: A Brief Rhetoric* Carol Clark, 2012-01-01

**Appeals in Modern Rhetoric** M. Jimmie Killingsworth, 2005-09-26 Appeals in Modern Rhetoric: An Ordinary-Language Approach introduces students to current issues in rhetorical theory through an extended treatment of the rhetorical appeal, a frequently used but rarely discussed concept at the core of rhetorical analysis and criticism. Shunning the standard Aristotelian approach that treats ethos, pathos, and logos as modes of appeal, M. Jimmie Killingsworth uses common, accessible language to explain the concept of the rhetorical appeal—meaning the use of language to plead and to please. The result is a practical and innovative guide to understanding how persuasion works that is suitable for graduate and undergraduate courses yet still addresses topics of current interest to specialists. Supplementing the volume are practical and theoretical approaches to the construction and analysis of rhetorical messages and brief and readable examples from popular culture, academic discourse, politics, and the verbal arts. Killingsworth draws on close readings of primary texts in the field, referencing theorists to clarify concepts, while he decodes many of the basic theoretical constructs common to an understanding of identification. Beginning with examples of the model of appeals in social criticism, popular film, and advertising, he covers in subsequent chapters appeals to time, place, the body, gender, and race. Additional chapters cover the use of common tropes and rhetorical narrative, and each chapter begins with definitions of key concepts.

*Rhetorical Touch* Shannon Walters, 2014-10-20 *Rhetorical Touch* argues for an understanding of touch as a rhetorical art by approaching the sense of touch through the kinds of bodies and minds that rhetorical history and theory have tended to exclude. In resistance to a rhetorical tradition focused on shaping able bodies and neurotypical minds, Shannon Walters explores how people with various disabilities—psychological, cognitive, and physical—employ touch to establish themselves as communicators and to connect with disabled and nondisabled audiences. In doing so, she argues for a theory of rhetoric that understands and values touch as rhetorical. Essential to her argument is a redefinition of key concepts and terms—the rhetorical situation, rhetorical identification, and the appeals of ethos (character), pathos (emotion), and logos (logic or message). By connecting Empedoclean and sophistic theories to Aristotelian rhetoric and Burkean approaches, Walters's methods mobilize a wide range of key figures in rhetorical history and theory in response to the context of disability. Using Empedocles' tactile approach to logos, Walters shows how the iterative writing processes of people with psychological disabilities shape crucial spaces for identification based on touch in online and real life spaces. Mobilizing the touch-based properties of the rhetorical practice of *mētis*, Walters demonstrates how rhetors with autism approach the crafting of ethos in generative and embodied ways. Rereading the rhetorical practice of *kairos* in relation to the proximity between bodies, Walters demonstrates how writers with physical disabilities move beyond approaches of pathos based on pity and inspiration. The volume also includes a classroom-based exploration of the discourses and assumptions regarding bodies in relation to haptic, or touch-based, technologies. Because the sense of touch is the most persistent of the senses, Walters argues that in contexts of disability and in situations in which people with and without disabilities interact, touch can be a particularly vital instrument for creating meaning, connection, and partial identification. She contends that a rhetoric thus reshaped stretches contemporary rhetoric and composition studies to respond to the contributions of disabled rhetors and transforms the traditional rhetorical appeals and canons. Ultimately, Walters argues, a rhetoric of touch allows for a richer understanding of the communication processes of a wide range of rhetors who use embodied strategies.

**Letter from Birmingham Jail** Martin Luther King, 2025-01-14 A beautiful commemorative edition of Dr. Martin Luther King's essay *Letter from Birmingham Jail*, part of Dr. King's archives published exclusively by HarperCollins. With an afterword by Reginald Dwayne Betts On April 16, 1963, Dr. Martin Luther King Jr., responded to an open letter written and published by eight white clergymen admonishing the civil rights demonstrations happening in Birmingham, Alabama. Dr. King drafted his seminal response on scraps of paper smuggled into jail. King criticizes his detractors for caring more about order than justice, defends nonviolent protests, and argues for the moral responsibility to obey just laws while disobeying unjust ones. *Letter from Birmingham Jail* proclaims a message - confronting any injustice is an acceptable and righteous reason for civil disobedience. This beautifully designed edition presents Dr. King's speech in its entirety, paying tribute to this extraordinary leader and his immeasurable contribution, and inspiring a new generation of activists dedicated to

carrying on the fight for justice and equality.

*You Talkin' To Me?* Sam Leith,2011-10-20 Rhetoric gives our words the power to inspire. But it's not just for politicians: it's all around us, whether you're buttering up a key client or persuading your children to eat their greens. You have been using rhetoric yourself, all your life. After all, you know what a rhetorical question is, don't you? In this updated edition of his classic guide, Sam Leith traces the art of argument from ancient Greece down to its many modern mutations. He introduces verbal villains from Hitler to Donald Trump - and the three musketeers: ethos, pathos and logos. He explains how rhetoric works in speeches from Cicero to Richard Nixon, and pays tribute to the rhetorical brilliance of AC/DC's Back In Black. Before you know it, you'll be confident in chiasmus and proud of your panegyrics - because rhetoric is useful, relevant and absolutely nothing to be afraid of.

Data-Driven Personalization Zontee Hou,2024-05-03 Make your marketing truly resonate by personalizing every message, powered by data, research and behavioral economics. To break through the noise, marketers today need to be hyper-relevant to their customers. To do that takes data and a deep understanding of your audience. Data-Driven Personalization breaks down the best ways to reach new customers and better engage your best customers. By combining principles of persuasion, behavioral economics and industry research, this book provides readers with an actionable blueprint for how to implement a customer-centric approach to marketing that will drive results. The book is broken into six parts that detail everything from what data is most valuable for personalization to how to build a data-driven marketing team that's prepared for the next five years and beyond. Each chapter includes actionable insights to guide marketers as they implement a data-driven personalization approach to their strategy. The chapters also focus on hands-on tactics like identifying messages that will move the needle with customers, how to generate seamless omnichannel experiences and how to balance personalization with data privacy. The book features case studies from top brands, including FreshDirect, Target, Adobe, Cisco and Spotify.

**Post-Truth Rhetoric and Composition** Bruce McComiskey,2017-11-01 Post-Truth Rhetoric and Composition is a timely exploration of the increasingly widespread and disturbing effect of “post-truth” on public discourse in the United States. Bruce McComiskey analyzes the instances of bullshit, fake news, feigned ethos, hyperbole, and other forms of post-truth rhetoric employed in recent political discourse. The book frames “post-truth” within rhetorical theory, referring to the classic triad of logos, ethos, and pathos. McComiskey shows that it is the loss of grounding in logos that exposes us to the dangers of post-truth. As logos is the realm of fact, logic, truth, and valid reasoning, Western society faces increased risks—including violence, unchecked libel, and tainted elections—when the value of reason is diminished and audiences allow themselves to be swayed by pathos and ethos. Evaluations of truth are deferred or avoided, and mendacity convincingly masquerades as a valid form of argument. In a post-truth world, where neither truth nor falsehood has reliable meaning, language becomes

purely strategic, without reference to anything other than itself. This scenario has serious consequences not only for our public discourse but also for the study of composition.

**Logos and Power in Isocrates and Aristotle** Ekaterina V. Haskins,2004 Logos and Power in Isocrates and Aristotle presents Isocrates' vision of discourse as a worthy rival, rather than a mere precursor, of Aristotle's Rhetoric. It argues that much of what Aristotle said about the status of rhetoric and the role of discourse may have been a reaction to Isocrates.

**Understanding Rhetoric** Elizabeth Losh,Jonathan Alexander,Kevin Cannon,Zander Cannon,2020-09-11 After shaking up writing classrooms at more than 550 colleges, universities, and high schools, *Understanding Rhetoric*, the comic-style guide to writing, has returned for a third edition! *Understanding Rhetoric* encourages deep engagement with core concepts of writing and rhetoric. With brand-new coverage of fake news, sourcing the source, podcasting as publishing, and support for common writing assignments, the new edition of the one and only composition comic covers what students need to know—and does so with fun and flair.

*Twenty Writing Assignments in Context* Melissa Bender,Karma Waltonen,2017-01-11 Twenty original, classroom-tested assignments: This innovative collection of college writing assignments explores the practical applications of each lesson. Drawing upon current best practices, each chapter includes a discussion of the rationale behind the assignment, along with supplemental elements such as guidelines for evaluation, prewriting exercises and tips for avoiding common pitfalls. The assignments are designed for a range of courses, from first-year composition to upper-division writing in various disciplines.

**RHETORIC** NARAYAN CHANGDER,2024-01-24 THE RHETORIC MCQ (MULTIPLE CHOICE QUESTIONS) SERVES AS A VALUABLE RESOURCE FOR INDIVIDUALS AIMING TO DEEPEN THEIR UNDERSTANDING OF VARIOUS COMPETITIVE EXAMS, CLASS TESTS, QUIZ COMPETITIONS, AND SIMILAR ASSESSMENTS. WITH ITS EXTENSIVE COLLECTION OF MCQS, THIS BOOK EMPOWERS YOU TO ASSESS YOUR GRASP OF THE SUBJECT MATTER AND YOUR PROFICIENCY LEVEL. THE ANSWERS TO THE QUESTIONS ARE PROVIDED AT THE END OF EACH PAGE, MAKING IT EASY FOR PARTICIPANTS TO VERIFY THEIR ANSWERS AND PREPARE EFFECTIVELY.

**Oration by Frederick Douglass. Delivered on the Occasion of the Unveiling of the Freedmen's Monument in Memory of Abraham Lincoln, in Lincoln Park, Washington, D.C., April 14th, 1876, with an Appendix** Frederick Douglass,2024-06-14 Reprint of the original, first published in 1876.

**The History of Chinese Rhetoric** Weixiao Wei,2022-07-22 This book challenges the existing misconception that there was no rhetoric in ancient China. Instead, this book provides ample evidence from public speeches in the Xia dynasty and

oracle bone inscriptions in the Shang dynasty to public debates about government policies in the Han dynasty to show that persuasive discourse and rudimentary rhetorical techniques already existed in ancient China. Using literary analysis and discourse analysis methods, this book explains how the Mandate of Heaven was inscribed at the core of Chinese rhetoric and has guided Chinese thoughts and expressions for centuries. This book also demonstrates Chinese rhetorical wisdom by extracting many concepts and terms related to language expression, persuasive speech, morality and virtue, life and philosophy, and so on from great Chinese literary works. Well-known names, such as Confucius, Laozi, Sima Qian, Liu Xie, Mozi, Hanfeizi, Guibu and so on, are all touched upon with their famous theory and sayings related to and explicated from the rhetorical perspective. Many surprising facts are found by the author and revealed in the book. For example, a thousand years ago, the Chinese author Liu Xie already found that all words have preferred lexical neighbors and structural environment. This is later on 'discovered' by corpus linguistics and illustrated, for example, by the concepts of collocation and pattern grammar. This book targets postgraduate students, teachers, researchers and scholars interested in advanced Chinese language and Chinese literature, history, and culture.

**Rereading the Sophists** Susan C. Jarratt, 1998 In rereading the sophists of fifth-century Greece, Susan C. Jarratt reinterprets classical rhetoric, with implications for current theory in rhetoric and composition. -- Provided by publisher
