How To Be a Geek Matthew Fuller,2017-05-15 Computer software and its structures, devices and processes are woven into our everyday life. Their significance is not just technical: the algorithms, programming languages, abstractions and metadata that millions of people rely on every day have far-reaching implications for the way we understand the underlying dynamics of contemporary societies. In this innovative new book, software studies theorist Matthew Fuller examines how the introduction and expansion of computational systems into areas ranging from urban planning and state surveillance to games and voting systems are transforming our understanding of politics, culture and aesthetics in the twenty-first century. Combining historical insight and a deep understanding of the technology powering modern software systems with a powerful critical perspective, this book opens up new ways of understanding the fundamental infrastructures of contemporary life, economies, entertainment and warfare. In so doing Fuller shows that everyone must learn ‘how to be a geek’, as the seemingly opaque processes and structures of modern computer and software technology have a significance that no-one can afford to ignore. This powerful and engaging book will be of interest to everyone interested in a critical understanding of the political and cultural ramifications of digital media and computing in the modern world.

Kinesis Dónal Mac Erlaine,2024-03-12 Our universe is characterized by constant motion. From electrons to galaxies, all things are on the move. This resonates within the human condition; we are born to move. From the earliest hunters, sailors, and horse-riders to the modern world of trains, bicycles, and cars, movement is everywhere in human life. Our history as nomads compares starkly to our increasingly sedentary life today. This fundamental disruption of the human as a moving being led to the invention of the wheel, new religious cultures, and even the rational mind. This book considers the full depth of the link between humanity and motion, examining how it manifests in us and how we embody it. Broad and multidisciplinary, it blends history, geography, psychology, philosophy, architecture, anthropology, and spirituality.

Conversations with Good Men Bethel Swift,2020-03-08 Conversations with Good Men beautifully ponders themes of love and loneliness, heartbreak and hope. Fans of poets from Elizabeth Barrett Browning, to E.E. Cummings, to Rupi Kaur and Charly Cox will appreciate Bethel Swift’s brevity, wit, transparency, and heart in this collection. Through real and imagined (spoken and internal) dialogue between feminine and masculine characters, the poet invites readers to join her on a three-act journey exploring the concept of “goodness” as well as the spiritual and practical complexity of awakening as a feminist while being in relationship with one’s faith, family, friends, lovers, and self. Swift’s chapbook compassionately

tackles the struggle to better understand upbringing and belief, self-esteem and desire, betrayal and healing while learning to love, lose, and become open to loving again.

The Tao of Elvis David H. Rosen,2013-11-01 *The Inner Man vs The Mythical King* With a scholar's mind and an Elvis-fan's heart, eminent psychiatrist and Jungian analyst Dr David H. Rosen illuminates both the inner Elvis and the myth of Elvis. Forty-two chapters representing the forty-two years of Elvis's life contain perceptive and inspiring quotations from the

world's most perceptive thinkers, as well as from the people who knew Elvis best. In a most readable fashion, Rosen unites the varied voices into each chapter's theme, such as: "Spirit, Soul and Religion," "Transcendence & Transformation," "Darkness, Sorrow, and Sadness," "Alone and Loneliness," and "Love." An inspirational, perceptive, personal and truly innovative exploration of Elvis, which includes essays by two New York Times Best-Selling Authors: Thomas Moore, author of *Care of the Soul: A Guide for Cultivating Depth and Sacredness in Everyday Life*, contributes a foreword in which he asks pivotal questions about the parallel destinies of Elvis and America. Clarissa Pinkola Estés, author of *Women Who Run with the Wolves: Myths and Stories of the Wild Woman Archetype*, has contributed a free-wheeling afterword passionately expressing how Elvis's "beautiful flame of life" rocked the post-war world, and rocks her still. The Tao of Elvis is fully illustrated with Chinese papercut-inspired artwork by Diane Katz, author and illustrator of *On All My Holy Mountain: A Modern Fraktur and Apples Dipped in Honey: A Jewish ABC*.

Revisiting a Progressive Pedagogy Nancy Nager, Edna K. Shapiro, 2000-02-24 *Revisiting a Progressive Pedagogy* reviews the history of the developmental-interactive approach, a formulation rooted in developmental psychology and educational practice, progressively informing educational thinking since the early-twentieth century. This conceptualization is identified with—but not restricted to—Bank Street College of Education. Examining the origins and evolution of the approach, the contributors assess its continued heuristic and practical value for classroom practice and teacher education in light of new ideas in social science and education, and indicate new directions. The book describes and analyzes key assumptions, and assesses the compatibility of new theoretical approaches, focuses on historical precedents and current adaptations in classroom practice, and examines teacher education, giving close attention to the personal and professional development of teachers. Contributors include Edna K. Shapiro, Nancy Nager, Margery B. Franklin, Laura M. W. Martin, Linda Levine, Salvatore Vascellaro, Lucy Sprague Mitchell, Edith Gwathmey, Ann-Marie Mott, Nina Jaffe, Carol Lippman, Eva G. Haberman, Frank Pignatelli, Helen Freidus, Jonathan Silin, and Eileen Wasow.

A Time for Heroes Frank Barnard,2012-03-29 War makes heroes of men, but at what price? Sure to enthrall fans of *Masters of the Air* and *Fall of Giants*, *A Time for Heroes* is a magnificent, sweeping, three-generation historical epic encompassing both World Wars, about heroism, the romance of aviation and the conflict between fathers and sons. As the twentieth century dawns, Guv Sutro, against his father's will, becomes a pioneer of aviation, a fighter ace on the Western Front during the Great War and a record-breaker between the wars. From his first flight in a primitive glider over the fields of Sussex, helped by the dogged loyalty of his friend Stan Kemp, he charts his ruthless course to fame and adulation. But with the outbreak of World War Two 'the best of Old England' begins to crumble. Guv's son Tim is fighting a more covert war, desperate to shed the burden of his father's reputation, while Tim's childhood companion Will Kemp, the son Guv felt he deserved, is fighting heroically, against overwhelming odds, as a Spitfire pilot. The fates of the men are bound together in the monumental ambitions and terrible tragedies of an age of heroes. What readers are saying about *A Time for Heroes* 'A beautifully told epic of human love and error. A truly great read' 'Highly entertaining, with great action scenes and moments of gut-wrenching excitement. A very human novel, about people and strife, and survival in extreme circumstances that have universal resonances' [Frank Barnard] is without doubt the Wilbur Smith of the skies'

The Temple of High Magic Ina Cüsters-van Bergen, 2010-03-09 A practical guide to pathworking and other esoteric techniques from the ancient mystery schools predating Christianity • Explains the dynamics of both group ritual and solo practice • Shows that temples of high magic are not mere physical structures but inner edifices created by sustained meditative practice • Explains why this practice is sometimes called the Yoga of the West Before the advent of Christianity, early civilizations had, at the heart of their spiritual traditions, mystery schools that offered a corpus of training methods in what is now called magic. The persecution of heresies that followed the establishment of Christianity as Rome's state religion, a persecution that reached its high point during the Middle Ages, forced the degradation and disappearance of this training system. While the knowledge of these mystery traditions--jealously guarded by secret societies--has begun to emerge, the actual techniques and practices of spiritual magic have remained hidden. The Temple of High Magic provides the practical knowledge of these techniques for modern spiritual seekers who wish to incorporate the proven esoteric techniques of the magi into their lives. This book explains the dynamics of group ritual and solo practice as well as the critical role played by the kabbalistic tree of life--the key to inner knowledge. Ina Cüsters-van Bergen shows that temples of high magic are not mere physical structures but are the inner edifices willed into being by a sustained meditative practice and pathworking, using key symbols from ancient Hebraic and Egyptian traditions. Sometimes called the Yoga of the West, this spiritual magic is a system of esoteric development that seeks to create full union between the magician and the divine.
