Numerology Deciphered Lisa Lazuli,2015-02-20 If you are interested in astrology, numerology, palm reading, psychic readings, clairvoyance etc then you are already aware that life is not one big coincidence, but a series of patterns and puzzles from which we can decipher clues as to our unique potentials and destiny. As many of you know I write books on astrology, however numerology is the perfect complement to astrology in terms of gaining an insight into your personality and life path. Numerology is a simple way of gaining insights into yourself and others via those most fundamental letters and numbers connected to you ie your name and date of birth. The date of birth is key as it is the one constant in life: our name and place we live changes, but as the compass always points North, our date of birth is fixed and fundamental to who we are. The are number associations which you can use to calculate your numbers from your name and derive meaning from that. The purpose of this book is to dive right into numerology with a hands on guide to how to calculate your numbers and what they mean. This is an ideal introduction, but it is not just an introduction but full of revealing information. We will mainly be looking at the numbers 1-9 and the master numbers 11 and 22, but I will go over the exact meanings of the compound numbers in Book 2.
