Exploding the Phone Phil Lapsley, 2013-02-05 "A rollicking history of the telephone system and the hackers who exploited its flaws." —Kirkus Reviews, starred review Before smartphones, back even before the Internet and personal computers, a misfit group of technophiles, blind teenagers, hippies, and outlaws figured out how to hack the world's largest machine: the telephone system. Starting with Alexander Graham Bell's revolutionary "harmonic telegraph," by the middle of the twentieth century the phone system had grown into something extraordinary, a web of cutting-edge switching machines and human operators that linked together millions of people like never before. But the network had a billion-dollar flaw, and once people discovered it, things would never be the same. Exploding the Phone tells this story in full for the first time. It traces the birth of long-distance communication and the telephone, the rise of AT&T's monopoly, the creation of the

sophisticated machines that made it all work, and the discovery of Ma Bell's Achilles' heel. Phil Lapsley expertly weaves together the clandestine underground of "phone phreaks" who turned the network into their electronic playground, the mobsters who exploited its flaws to avoid the feds, the explosion of telephone hacking in the counterculture, and the war between the phreaks, the phone company, and the FBI. The product of extensive original research, *Exploding the Phone* is a groundbreaking, captivating book that "does for the phone phreaks what Steven Levy's *Hackers* did for computer pioneers" (Boing Boing). "An authoritative, jaunty and enjoyable account of their sometimes comical, sometimes impressive and sometimes disquieting misdeeds." —The Wall Street Journal "Brilliantly researched." —The Atlantic "A fantastically fun romp through the world of early phone hackers, who sought free long distance, and in the end helped launch the computer era." —The Seattle Times

Peter Goin and the Photography of Environmental Change Cheryll Glotfelty, Peter Goin, 2022-06-30 Peter Goin and the *Photography of Environmental Change* narrates the forty-year quest of award-winning and internationally exhibited contemporary photographer Peter Goin to document human-altered landscapes across America and beyond. It is a collaborative work between an artist and a literary critic, a retrospective of an accomplished environmental photographer, and an innovative education in visual reading. to radioactive landscapes, abandoned mines, simulated swamps, rechanneled rivers, controlled burns, overgrown ruins, industrialized agriculture, shrinking reservoirs, feral spaces in the city, architected wilderness, sacred wastelands, contested borderlands, and more. Based on more than seventy hours of taped interviews with the artist spanning over a decade, trailblazing ecocritic Cheryll Glotfelty narrates the arc of Goin's career, sharing excerpts from their conversations that reveal his brilliant mind and piquant personality while situating his work within the broader context of environmental thinkers. This beautifully illustrated volume, with 200 images in color and black-and-white showcasing Goin's work, will be a fascinating and insightful read for upper-level students, academics, and researchers in photography, environmental history and culture, landscape studies, and environmental humanities.

The Old Iron Road David Haward Bain,2022-09 In the summer of 2000 David Haward Bain and his family left their home in Vermont and headed west in search of America’s past. Spiritually, their journey began on a Kansas trail where the author’s grandmother was born in a covered wagon in 1889. Between the Missouri River and the Golden Gate, they retraced the entire route of the first transcontinental railroad and large stretches of the Oregon and California trails, and the equally colorful old Lincoln Highway. Following vanished iron rails and wagon wheel ruts, bumping down backroads and main streets, they discovered the deep, restless, uniquely American spirit of adventure that connects our past to our present. A superb writer and an exacting researcher, Bain conjures up a marvelous sense of coming unstuck in time as he lingers in the ghost towns and battlegrounds, prairies and river ports, trainyards, museums, deserts, and diners that line his cruise west to California. Bain encounters a fascinating cast of characters, both historic and contemporary, as well as memories of his grandparents and the journeys that shaped his own heritage. Writing in the tradition of William Least Heat-Moon and Ian Frazier, and with an engaging warmth and a deep grasp of history all his own, Bain has fashioned a quintessentially American journey.

Global West, American Frontier David M. Wrobel,2013-10-15 This thoughtful examination of a century of travel writing about the American West overturns a variety of popular and academic stereotypes. Looking at both European and American travelers’ accounts of the West, from de Tocqueville’s *Democracy in America* to William Least Heat-Moon’s *Blue Highways*, David Wrobel offers a counter narrative to the nation’s romantic entanglement with its western past and suggests the importance of some long-overlooked authors, lively and perceptive witnesses to our history who deserve new attention. Prior to the professionalization of academic disciplines, the reading public gained much of its knowledge about the world from travel writing. Travel writers found a wide and respectful audience for their reports on history, geography, and the natural world, in addition to reporting on aboriginal cultures before the advent of anthropology as a discipline. Although in recent decades western historians have paid little attention to travel writing, Wrobel demonstrates that this genre in fact offers an important and rich understanding of the American West—one that extends and complicates a simple reading of the West that promotes the notions of Manifest Destiny or American exceptionalism. Wrobel finds counterpoints to the mythic West of the nineteenth century in such varied accounts as George Catlin’s *Adventures of the Ojibbeway and Ioway Indians in England, France, and Belgium* (1852), Richard Francis Burton’s *The City of the Saints* (1861), and Mark Twain’s *Following*

the Equator (1897), reminders of the messy and contradictory world that people navigated in the past much as they do in the present. His book is a testament to the instructive ways in which the best travel writers have represented the West.

The Banshee House Brad McClure, 2008-03-20 Quietly, without drawing attention to themselves, a group of five men and two women, all with a special concern, met secretly to discuss the impact of the planned construction project at the local old abandoned hotel. They were friends and long-time local citizens, bound by a single incident, which they had successfully hidden from the rest of the world. Now, the planned construction rekindled old, deeply hidden emotions as well as a renewed terror into their very hearts and souls. It was fear, although never really forgotten, that had laid dormant for more than twenty-five years.

Sierra Stories Gary Noy, 2014-08-01 The author of Gold Rush Stories shares tales of the larger-than-life characters from the history of the legendary Sierra Nevada mountain range. With its 14,000-foot granite mountains, crystalline lakes, conifer forests, and hidden valleys, the Sierra Nevada has long been the domain of dreams, attracting the heroic and the delusional, the best of humanity and the worst. Stories abound, and characters emerge so outlandish and outrageous that they must be real. Could the human imagination have invented someone like Eliza Gilbert? Born in Limerick, Ireland, in 1818, she transformed herself into Lola Montez, born in Seville, Spain, in 1823, and brought to the Gold Country the provocative "Spider Dance"—impersonating a young woman repelling a legion of angry spiders under her petticoats. Or Otto Esche, who in 1860 imported fifteen two-humped Bactrian camels from Asia to transport goods to the mines. Or the artist Albert

Bierstadt, whose paintings Mark Twain characterized as having “more the atmosphere of Kingdom-Come than of California.” Or multimillionaire George Whittell Jr., who was frequently spotted driving around Lake Tahoe in a luxurious convertible with his pet lion in the front seat. These, and scores more, spill out of the pages of this well-illustrated and lively tribute to the Sierra by a native son.

Patriot Children Episode One Episode two Episode Three Episode four Richard L. Newell,2019-03 God gave unto mankind sanctuaries - holy, sacred, and undefiled places; consecrated and set apart for the purpose of respectful and reverential spiritual union and worship. It makes no difference whether they be out of doors under the open sky - or man-made edifices constructed exclusively for this purpose. It is a sad state of affairs when a society becomes so warped, deranged, and unbalanced - that hardened criminals, blatant lawbreakers, illegal aliens, war-faring insurgents, corrupt political malefactors, radical reprobates, traitors, demon worshipers, and all other conspirators against God and humanity are welcomed - unchecked and unrestrained - into their midst. We invite you to follow the impact such circumstances made in the lives of the PATRIOT CHILDREN - leaving the homestead, farm, and estate which, from the time of the 1849 California gold rush, had been handed down through many generations - in the quest of pursuing a sounder, safer future in rural America's mid-south.

Dark Days, Bright Nights Matthew O'Brien,2020-11-17 A vivid and enlightening oral account of homelessness in the Las Vegas storm drains and the hard work of re-entering mainstream society. Are you aware that hundreds of people live underground in the flood channels of Las Vegas? Few people were until Matthew O'Brien grabbed a flashlight, tape recorder, and expandable baton for protection and explored the storm-drain system in depth. This research resulted in his landmark book Beneath the Neon. Now the drains have been covered by CNN, Fox News, NPR, Dr. Phil, the New York Times, the BBC, Al Jazeera, and many other media outlets. They have even found their way on to popular TV shows, including CSI, Criminal Minds, and into mainstream movies. But the fact that several of these drug- and gambling-addicted tunnel dwellers have clawed their way out of the drains and turned around their lives has received far less attention. Dark Days, Bright Nights shares their harrowing stories and provides a unique perspective on one of America's most fascinating cities. It also paints a larger picture of homelessness and recovery in America. These stories are the happy (though not Hollywood) ending to the infamous tunnel tale. The narrative is complemented by bios and stark, black-and-white images of the survivors, putting a scarred, knowing face to the unblinkingly honest accounts.
