Landmark Cases in Privacy Law Paul Wragg, Peter Coe, 2023-02-23 This new addition to Hart's acclaimed Landmark Cases series is a diverse and engaging edited collection bringing together eminent commentators from the United Kingdom, the United States, Australia, Canada, and New Zealand, to analyse cases of enduring significance to privacy law. The book tackles the conceptual nature of privacy in its various guises, from data protection, to misuse of private information, and intrusion into seclusion. It explores the practical issues arising from questions about the threshold of actionability, the function of remedies, and the nature of damages. The cases selected are predominantly English but include cases from the United States (because of the formative influence of United States' privacy jurisprudence on the development of privacy law), Australia, Canada, the Court of Justice of the European Union, and the European Court of Human Rights. Each chapter considers the reception and application (and, in some instances, rejection) outside of the jurisdiction where the case was decided.

Journalists and Confidential Sources Joseph M Fernandez, 2020-11-23 *Journalists and Confidential Sources* explores the fraught and widespread reliance by journalists on anonymous sources, whistleblowers, and others to whom they owe an obligation of confidentiality. It examines the difficulties afflicting such relationships; analyses the deteriorating right to know and freedom of expression frameworks; and explores solutions and reforms. The book discusses key Australian and international source protection ethics rules, statutes, court cases, law enforcement actions, and case studies. It highlights weakness in journalists' professional practice codes governing confidentiality obligations; discusses inadequate journalistic appreciation of the importance of establishing clear terms and conditions underpinning confidentiality obligations; and identifies shortcomings in the law governing source protection. The book argues that despite source protection being widely recognised as an important ideal, source protection is under sustained assault, thereby undermining public access to information, and democracy itself. The work focusses on Australia but takes into account source protection in the United Kingdom, the United States, Canada, and New Zealand. This timely contribution to the global discussion on the subject will greatly interest journalists, scholars, educators, and students especially in the areas of media law and policy, journalism, media and communication studies, and public relations; the legal fraternity; and anyone who communicates with journalists.

Women in the Medieval Common Law c.1200-1500 Gwen Seabourne, 2021-04-06 This book examines the view of

women held by medieval common lawyers and legislators, and considers medieval women's treatment by and participation in the processes of the common law. Surveying a wide range of points of contact between women and the common law, from their appearance (or not) in statutes, through their participation (or not) as witnesses, to their treatment as complainants or defendants, it argues for closer consideration of women within the standard narratives of classical legal history, and for re-examination of some previous conclusions on the relationship between women and the common law. It will appeal to scholars and students of medieval history, as well as those interested in legal history, gender studies and the history of women.

A Sourcebook on Equity and Trusts in Australia Michael Bryan, Simone Degeling, Scott Donald, Vicki Vann, 2022-11-30
Provides a selection of primary legal materials with accompanying commentary and discussion.

Data Disclosure Moritz Hennemann, Kai von Lewinski, Daniela Wawra, Thomas Widjaja, 2023-04-26 Data has become a key factor for the competitiveness of private and state actors alike. Personal data in particular fuels manifold corresponding data ecosystems - in many cases based on the disclosure decision of an individual. This volume presents the proceedings of the bidt Vectors of Data Disclosure conference held in Munich 2022. The contributions give comparative insights into the data disclosure process - combining perspectives of law, cultural studies, and business information systems. The authors thereby tackle the question in which way regulation and cultural settings shape (or do not shape) respective decisions in different parts of the world. The volume also includes interim results of the corresponding bidt research project - including in-depth reports covering the regulatory and cultural dimensions of data disclosure in eight different countries / regions worldwide, a business information systems model of the disclosure decision process, and empirical studies. The volume thereby lays the ground for interdisciplinary informed policy decisions and gives guidance to stakeholders.

Military Operation and Engagement in the Domestic Jurisdiction Pauline Therese Collins, Rosalie Arcala Hall, 2022-06-08 This book details the position in 13 countries on calling out the military in the domestic domain. A historical context along with the current position and practice is provided.

Australian Politics in the Twenty-First Century Stewart Jackson, Joff Lelliott, Shannon Brincat, Josephine Bourne, Nick Economou, 2022-09-02 The global political environment in the twenty-first century is proving dynamic and challenging for Australian policymakers and political institutions. *Australian Politics in the Twenty-first Century* contextualises the Australian political landscape through an institutional lens. It examines the legislative and judicial bodies, minor parties, lobby groups, the media and the citizenry, providing historical and contemporary facts, explaining political issues and examining new challenges. The second edition has been updated to reflect the application of political theories in today's civic environment. New spotlight boxes highlight issues including marriage equality, COVID-19 and federalism, the inclusion of First Nations peoples in the political system, and gender equality in public policy. Short-answer, reflection, research and discussion questions encourage students to test and extend their knowledge of each topic and to clearly link theory to practice. Written

in an accessible and engaging style, *Australian Politics in the Twenty-First Century* is an invaluable introduction to the Australian political system.

Equity and Trusts in Australia Michael Bryan, Vicki Vann, Susan Barkehall Thomas, 2022-11-30 *Equity and Trusts in Australia* offers an accessible introduction to the principles of Australian equity and trusts law for students, linking key doctrines to their wider relationship with the law. The text covers foundational topics of equity and trusts law, including the nature of equity, fiduciary relationships and trust structures. This edition has been revised to include recent landmark decisions and a new chapter on termination and variation of trusts. Each chapter concludes with a guide to the online resources, which encourage students to extend their knowledge of the content through further reading, practice problems and discussion topics. Written by a team of experienced authors, *Equity and Trusts in Australia* is an ideal text for students undertaking this area of study for the first time. A Sourcebook on *Equity and Trusts in Australia* is also available and provides cases and primary legal materials to accompany *Equity and Trusts in Australia*.

Global Perspectives on Press Regulation, Volume 2 Paul Wragg, András Koltay, 2024-02-22 In this ground-breaking two-volume set, world-leading experts produce a rich, authoritative depiction of the world's press, its freedom, and its limits. We want press freedom but we also want freedom from the press. A powerful press may expose corrupt government or aid it. It may champion citizens or unfairly attack them. A vulnerable press may lack supporters and succumb to conformity. It may resist, and overcome tyranny. According to common belief, press freedom involves social responsibilities to equip public debate and render government transparent. Is this attitude valid given that the press is usually a private, commercial actor? Globally, the health, authority, and viability of the press varies dramatically. These patterns do not conform to traditional divisions between North and South, East and West. Instead, they are much more complex. How do we measure successful press regulation? What concessions can the state and/or society demand of the press? What constitutes the irreducible core of press freedom? The contributions in Volume 1 look at key jurisdictions in Europe; whereas Volume 2 goes beyond Europe to analyse the situation in key jurisdictions in Asia, Africa, the Americas and Oceania. Each volume can be used independently or as part of the complete set. This work will be incredibly valuable to policy makers and academics who seek to capture the global picture for the purposes of effecting change.

The Communicator's Guide to Media Law and Ethics Mark Pearson, 2023-11-23 This book offers an introduction to the key legal and ethical topics confronting Australian journalists and strategic communicators both at home and internationally and offers a suite of reflective techniques for navigating them. It starts by positioning morals, ethics, and the law in their historical and philosophical frameworks by tracing the evolution of free expression and professional media ethics. Media law and ethics are then contextualized in their modern international human rights framework. Readers are equipped with a skill set for reflecting on the law and ethics of professional media dilemmas – including mindful reflection, the Potter

Box, journaling, concept mapping, and discussion. Such approaches are then applied to key topic areas, including free expression; reputation; confidentiality; privacy; justice; intellectual property; national security; discrimination and harassment; and conflicted interests. Each is examined in terms of its philosophical underpinnings, relationship to human rights, professional ethical context, international examples, legal principles, key Australian laws, legal cases, and strategies for applying reflective practice techniques. It concludes on a confident note - imploring communicators to engage in constructive and mindful strategic communication with the authority and confidence that results from a working knowledge of media law and ethics. This handbook is for professional communicators and students in all fields, but particularly in journalism, public relations, corporate communication, media relations, and marketing.

Government Accountability Judith Bannister, Anna Olijnyk, Stephen McDonald, 2023-06-30 *Government Accountability: Australian Administrative Law* presents a thorough account of the administrative state and the mechanisms that exist to bring it to account for its actions. It contextualises the theory and explanation of administrative law through carefully chosen case studies and events that offer practical examples of the principles discussed and how they are applied. The third edition has been thoroughly updated to incorporate recent legal developments and includes expanded discussion of 'materiality' in the context of jurisdictional error. The examples used illustrate the operation of legal principles and reflect contemporary social and political circumstances. Written by a team of experts, and known for its clear, consistent and straightforward narrative with logical progression, *Government Accountability* remains a student-friendly guide to complex administrative law concepts. *Government Accountability: Australian Administrative Law* is accompanied by a casebook, *Government Accountability Sources and Materials: Australian Administrative Law*, which provides curated cases and primary legal materials with helpful commentary.

Law at the Cutting Edge Sinéad Agnew, Marcus Smith, 2024-04-04 This collection celebrates the immense contribution of Sarah Worthington to the field of private law. Defining the subject broadly, experts from the judiciary and the academy address contemporary challenges arising in the fields of agency, company law and insolvency, contract law, equity, the law of money, personal property, restitution and unjust enrichment. The breadth of the contributors' expertise and their willingness to offer innovative and insightful solutions to difficult problems perfectly mirror Sarah Worthington's rigorous and inspirational approach to private law scholarship.

Equity Today Ben McFarlane, Steven Elliott KC, 2023-06-29 This book presents a clear, carefully-analysed picture of the operation of equity today, across the common law world. Rather than revisit the abstract debate as to whether or not equity has 'fused' with the common law, it focuses on specific equitable principles and doctrines. Expert contributors step back and take a wider view of those doctrines, examining how they can best be understood today, and how they might develop in the future. This will prove invaluable to practitioners and courts (at first instance as well as appellate level), allowing them to

navigate the constantly-growing mass of case law. Drawing on expertise from across the worlds of academia, practice and the bench, this seminal collection provides the most illuminating picture available of how equity operates.

Land Law Ben Hopkins, Nicholas McFarlane (Nicholas Nield, Sarah), 2024

Technology Law Marcus Smith, Gregor Urbas, 2021-04-08 A thorough exploration of the new legal challenges created by evolving technologies, from facial recognition technology to cryptocurrencies.

On Secrets Annika Smethurst, 2020-05-26 On June 4, Federal Police raided the home of Walkley award-winning journalist Annika Smethurst, changing her life forever. Police claim they were investigating the publication of classified information, her employer called it a 'dangerous act of intimidation', Smethurst believes she was simply doing her job. Smethurst became the accidental poster woman for press freedom as politicians debated the merits of police searching through her underwear drawer. In *On Secrets* she will discuss the impact this invasion has had on her life, and examine the importance of press freedom.

Freedom of Speech in International Law Amal Clooney, David Neuberger, 2024-04-04 Freedom of Speech in International Law charts the minimum protections for speech enshrined in international human rights law. It not only addresses the problems facing free speech today but offers recommendations to give effect to the international-law obligation to protect freedom of expression.

Land Law Ben McFarlane, Nicholas Hopkins, Sarah Nield, 2021 *Land Law: Text, Cases, and Materials* offers a comprehensive, critical, and case-focused approach to the subject, combining insightful author commentary with carefully selected extracts to fully support students.

Constitutional and Administrative Law Neil Parpworth, 2018 *Constitutional and Administrative Law* is a clear and concise text which allows students to easily get to the heart of the subject.

Textbook on Civil Liberties and Human Rights Richard Stone, 2014 Written primarily for students, this textbook will also be of interest to anyone who is concerned about restrictions on individual freedom. The author assesses the impact of the Human Rights Act 1998 and the Freedom of Information Act 2000.
