60 Handel Overtures Arranged for Solo Keyboard George Frideric Handel,1993-01-01 The dramatic overture had its beginnings in Renaissance court entertainments, which often began with a flourish of trumpets. It reached a high point of inspiration in the overtures that George Frideric Handel (1685 1759) composed for his operas and oratorios. This volume presents 60 Handel overtures and sinfonias, originally scored for orchestra, superbly arranged for solo keyboard. They have been reprinted from an extremely rare edition originally printed, probably in the 1750s, by Handel's London publisher, John Walsh. Happily, these brilliant works have lost nothing in translation of their Handelian vitality and interest. Many of them, such as the overtures to Messiah, Acis and Galatea, Alexander s Feast, Julius Caesar, the second overture in Solomon (known as the Arrival of the Queen of Sheba), and the so-called Water Musick, are very familiar to music lovers. Some will be fresh discoveries for keyboard players. Together they demonstrate Handel s exciting theatrical sense, his technical virtuosity in composition, and his dazzling mastery of musical forms, which he often combined into his own unique creations. This edition preserves the original keyboard notation, amazingly precise in its elegant execution and, of course, entirely legible to present-day performers.

**Confederate Sheet Music** E. Lawrence Abel,2015-06-14 During the American Civil War, songs united and inspired people on both sides. The North had a well-established music publishing industry when the war broke out, but the South had no such industry. The importance of music as an expression of the South's beliefs was obvious; as one music publisher said, The South must not only fight her own battles but sing her own songs and dance to music composed by her own children.

Southern entrepreneurs quickly rose to the challenge. This reference book is distinguished by three major differences from previously published works. First, it lists sheet music that is no longer extant (and listed nowhere else). Second, it gives complete lyrics for all extant songs, a rich source for researchers. And third, a brief historical background has been provided for many of the songs. Each entry provides as much of the following as possible (staying faithful to the typography of each title page): the title as published, names of all lyricists, composers and publishers; dates of publication; cities of publication; and if applicable, the names of catalogs or magazines in which the song appeared. Music published in Southern cities under Federal occupation is excluded.
