MIS Hossein Bidgoli,2024

Communicating at Work Ronald Brian Adler,Jeanne Marquardt Elmhorst,1996 The leading text in business communication, *Communicating at Work* takes a pragmatic approach that features a strong multicultural focus, a heavy

emphasis on effective presentations, and a pedagogical program that is designed to encourage group activities and skill building. That, plus clear writing and effective use of tables, make the text an excellent teaching tool.

Technical Report Writing Today Daniel Riordan,2013-01-03 TECHNICAL REPORT WRITING TODAY provides thorough coverage of technical writing basics, techniques, and applications. Through a practical focus with varied examples and exercises, students internalize the skills necessary to produce clear and effective documents and reports. Project worksheets help students organize their thoughts and prepare for assignments, and Focus boxes highlight key information and recent developments in technical communication. Extensive individual and collaborative exercises expose students to different kinds of technical writing problems and solutions. Annotated student examples--more than 100 in all--illustrate different writing styles and approaches to problems. Numerous short and long examples throughout the text demonstrate solutions for handling writing assignments in current career situations. The four-color artwork in the chapter on creating visuals keeps pace with contemporary workplace capabilities. The Tenth Edition offers the latest information on using electronic resumes and documenting electronic sources and Ethics and Globalization sidebars that highlight these two important topics in the technical communication field. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

E-commerce Kenneth C. Laudon,Carol Guercio Traver,2016 For undergraduate and graduate courses in business. Understanding The Vast And Expanding Field of E-Commerce Laudon's E-Commerce 2016: Business, Technology, Society emphasizes three driving forces behind the expanding field of e-commerce: technology change, business development, and social issues. A conceptual framework uses the templates of many modern-day companies to further demonstrate the differences and complexities in e-commerce today. An in-depth investigation of companies such as Uber, Pinterest, and Apple kick-off the course while preparing students for real-life scenarios. In the Twelfth Edition, Laudon and Traver add new or update existing case studies to match developments in the e-commerce field as they exist in today's tech world. They built in additional video cases for each chapter, making the material even more accessible to students as they prepare for their future roles in business.

Principles of Statistics for Engineers and Scientists William Cyrus Navidi,2010 Principles of Statistics for Engineers and Scientists offers the same crystal clear presentation of applied statistics as Bill Navidi's Statistics for Engineers and Scientists text, in a manner especially designed for the needs of a one-semester course that is focused on applications. By presenting ideas in the context of real-world data sets and with plentiful examples of computer output, the book is great for

motivating students to understand the importance of statistics in their careers and their lives. The text features a unique approach highlighted by an engaging writing style that explains difficult concepts clearly and the use of contemporary real world data sets to help motivate students and show direct connections to industry and research. While focusing on practical applications of statistics, the text makes extensive use of examples to motivate fundamental concepts and to develop intuition.

Leadership Richard L. Hughes,Robert C. Ginnett,Gordon J. Curphy,2005-03-07 *Leadership: The Art of Experience, Fifth Edition*, is written for the general student to serve as a stand-alone introduction to the subject of leadership. The text consists of 13 chapters and a final section on Basic and Advanced Leadership Skills. Authors Hughes, Ginnett, and Curphy have drawn upon three different types of literature: empirical studies; interesting anecdotes, stories and findings; and leadership skills to create a text that is personally relevant, interesting and scholarly. The authors' unique quest for a careful balancing act of leadership materials help students apply theory and research to their real-life experiences.

Critical Thinking Brooke Noel Moore,Richard Parker,2011-01-11 Imagine a class where students are actively and personally engaged in thinking critically while also discovering how to apply those thinking skills in everyday life.
