M Mosston

Dancing on the White Page Kwakiutl L. Dreher, 2008-01-10 Investigates the literary voices of six Black women entertainers and how they negotiated the tensions between the entertainment industries and the Black community. Kim Gayner, 2010-01

In Search of Power Brenda Gayle Plummer, 2013 In Search of Power is a history of the era of civil rights, decolonization, and Black Power. In the critical period from 1956 to 1974, the emergence of newly independent states worldwide and the struggles of the civil rights movement in the United States exposed the limits of racial integration and political freedom. Dissidents, leaders, and elites alike were linked in a struggle for power in a world where the rules of the game had changed. Brenda Gayle Plummer traces the detailed connections between African Americans' involvement in international affairs and how they shaped American foreign policy, integrating African American history, the history of the African Diaspora, and the history of United States foreign relations. These topics, usually treated separately, not only offer a unified view of the period but also reassess controversies and events that punctuated this colorful era of upheaval and change.

Peace Now! Rhodri Jeffreys-Jones, 2001-02-08 How did the protests and support of ordinary American citizens affect their country's participation in the Vietnam War? This engrossing book focuses on four social groups that achieved political prominence in the 1960s and early 1970s--students, African Americans, women, and labor--and investigates the impact of each on American foreign policy during the war. Drawing on oral histories, personal interviews, and a broad range of archival sources, Rhodri Jeffreys-Jones narrates and compares the activities of these groups. He shows that all of them gave the war solid support at its outset and offers a new perspective on this, arguing that these outsider social groups were tempted to conform with foreign policy goals as a means to social and political acceptance. But in due course students, African Americans, and then women turned away from temptation and mounted spectacular revolts against the war, with a cumulative effect that sapped the resistance of government policymakers. Organized labor, however, supported the war until almost the end. Jeffreys-Jones shows that this gave President Nixon his opportunity to speak of the great silent majority of American citizens who were in favor of the war. Because labor continued to be receptive to overtures from the White House, peace did not come quickly.

A Passion for Justice Ralph D. Fertig, 2018-06-11 A Passion for Justice By: Ralph D. Fertig "Ralph D. Fertig documents

origins and episodes in the Civil Rights Movement. He has been a steady and consistent advocate for civil rights through non-violent direct action in most of his 88 years. We met in the 1961 Freedom Rides and in his book, *A Passion for Justice*, Fertig chronicles struggles for desegregation before, through and since then. In the current political climate, this is a book for today.” -John Lewis, US Congressman Hailed by the Washington Post as the “Conscience of Washington,” and by the Los Angeles Times as “a cog in the wheel of justice,” Ralph D. Fertig began his social activism in his home, filled with German Jewish refugees. In high school and college, he campaigned for desegregation and justice in housing and employment. At the University of Chicago, he fought for academic freedom. He began social work organizing peace between warring street gangs on Chicago’s South side. Fertig organized programs for equal rights with the Congress Of Racial Equality and the Americans for Democratic Action. He became a Freedom Rider on a bus bound for Jackson, Mississippi, to help integrate interstate buses. The Sheriff in Selma, Alabama threw him in jail, where White prisoners kicked in his ribs. While running a community center in Washington, D.C., he organized welfare mothers and public housing tenants. Martin Luther King, Jr. invited him to help mobilize the iconic 1963 March on Washington, and to help lobby for the Civil Rights Act of 1964. He ran the Greater Los Angeles Community Action Agency serving thousands of disadvantaged people, became a civil rights lawyer, and then a Federal Administrative Judge, ruling on cases of employment discrimination. He taught at the USC School of Social Work rising to the level of full professor, and where he is now a professor emeritus. As President of the Humanitarian Law Project, he was a consultant to the United Nations, and challenged restrictions to free speech in the USA PATRIOT Act before the U.S. Supreme Court. Fertig’s earlier book, *Love and Liberation*, was a Los Angeles Times best seller, praised in its Kirkus review as “a sweeping Jewish love story couched in revolution, and it is written in with an apt power and elegance. The book is a contained epic... An intimate, compassionate work of historical fiction.”

Ebony, 1993-10 EBONY is the flagship magazine of Johnson Publishing. Founded in 1945 by John H. Johnson, it still maintains the highest global circulation of any African American-focused magazine.

Answering the Call Nathaniel R. Jones, 2010-03-01 “Jones, a trailblazing African American judge, delivers an urgently needed perspective on American history . . . [A] passionate and informative account” (Booklist, starred review). *Answering the Call* is an extraordinary eyewitness account from an unsung hero of the battle for racial equality in America—a battle that, far from ending with the great victories of the civil rights era, saw some of its signal achievements in the desegregation fights of the 1970s and its most notable setbacks in the affirmative action debates that continue into the present in Ferguson, Baltimore, and beyond. Judge Nathaniel R. Jones’s groundbreaking career was forged in the 1960s: As the first African American assistant US attorney in Ohio; as assistant general counsel of the Kerner Commission; and, beginning in 1969, as general counsel of the NAACP. In that latter role, Jones coordinated attacks against Northern school segregation—a vital, divisive, and poorly understood chapter in the movement for equality—twice arguing in the pivotal US Supreme Court case

Bradley v. Milliken, which addressed school desegregation in Detroit. He also led the national response to the attacks against affirmative action, spearheading and arguing many of the signal legal cases of that effort. Answering the Call is “a stunning, inside story of the contemporary struggle for civil rights . . . Essential reading for understanding where we are today—underscoring just how much work is left to be done” (Vernon E. Jordan Jr., civil rights activist). “A forthright testimony by a witness to history.” —Kirkus Reviews

Encyclopedia of African American History, 1896 to the Present: O-T Paul Finkelman, 2009 Alphabetically-arranged entries from O to T that explores significant events, major persons, organizations, and political and social movements in African-American history from 1896 to the twenty-first-century.

Black Celebrity, Racial Politics, and the Press Sarah J. Jackson, 2014-05-23 Shifting understandings and ongoing conversations about race, celebrity, and protest in the twenty-first century call for a closer examination of the evolution of dissent by black celebrities and their reception in the public sphere. This book focuses on the way the mainstream and black press have covered cases of controversial political dissent by African American celebrities from Paul Robeson to Kanye West. Jackson considers the following questions: 1) What unique agency is available to celebrities with racialized identities to present critiques of American culture? 2) How have journalists in both the mainstream and black press limited or facilitated this agency through framing? What does this say about the varying role of journalism in American racial politics? 3) How

have framing trends regarding these figures shifted from the mid-twentieth century to the twenty-first century? Through a series of case studies that also includes Eartha Kitt, Sister Souljah, and Mahmoud Abdul-Rauf, Jackson illustrates the shifting public narratives and historical moments that both limit and enable African American celebrities in the wake of making public politicized statements that critique the accepted racial, economic, and military systems in the United States.

Sounding Like a No-No Francesca T. Royster, 2023-06-20 Black popular music and offbeat performance, from Eartha Kitt to Meshell Ndegeocello

"Wake Up, Mr. West" Joshua K. Wright, 2022-01-27 Black celebrities in America have always walked a precarious line between their perceived status as spokespersons for their race and their own individual success--and between being not black enough for the black community or too black to appeal to a broader audience. Few know this tightrope walk better than Kanye West, who transformed hip-hop, pop and gospel music, redefined fashion, married the world's biggest reality TV star and ran for president, all while becoming one of only a handful of black billionaires worldwide. Despite these accomplishments, his polarizing behavior, controversial alliances and bouts with mental illness have made him a caricature in the media and a disappointment among much of his fanbase. This book examines West's story and what it reveals about black celebrity and identity and the American dream.

The League of Wives Heath Hardage Lee, 2019-04-04 Featured in *Stylist's* guide to 2019's best non-fiction books The true story of the fierce band of women who battled Washington - and Hanoi - to bring their husbands home from the jungles of Vietnam. On 12 February, 1973, one hundred and sixteen men who, just six years earlier, had been high flying Navy and Air Force pilots, shuffled, limped, or were carried off a huge military transport plane at Clark Air Base in the Philippines. These American servicemen had endured years of brutal torture, kept shackled and starving in solitary confinement, in rat-infested, mosquito-laden prisons, the worst of which was The Hanoi Hilton. Months later, the first Vietnam POWs to return home would learn that their rescuers were their wives, a group of women that included Jane Denton, Sybil Stockdale, Louise Mulligan, Andrea Rander, Phyllis Galanti, and Helene Knapp. These women, who formed The National League of Families, would never have called themselves 'feminists', but they had become the POW and MIAs most fervent advocates, going to extraordinary lengths to facilitate their husbands' freedom - and to account for missing military men - by relentlessly lobbying government leaders, conducting a savvy media campaign, conducting covert meetings with antiwar activists, and most astonishingly, helping to code secret letters to their imprisoned husbands. In a page-turning work of narrative non-fiction, Heath Hardage Lee tells the story of these remarkable women for the first time. The League of Wives is certain to be on everyone's must-read list.

A Century of Musicals in Black and White Bernard L. Peterson Jr., 1993-10-25 This comprehensive reference book

provides succinct information on almost thirteen hundred musical stage works written and produced from the 1870s to the 1990s involving contributions by black librettists, lyricists, composers, musicians, producers, or performers or containing thematic materials relevant to the black experience. Organized alphabetically, they include tent and outdoor shows, vaudeville, operas and operettas, comedies, farces, spectacles, revues, cabaret and nightclub shows, children's musicals, skits, one-act musicals, one-person shows, and even a musical without songs. In addition to the hundreds of shows independently created, produced, and performed by black writers and theatrical artists, it presents hundreds more representing a collaboration of black and white talents. An appendix organizes the shows chronologically and highlights those that were most significant in the history of the black American musical stage. An extensive bibliography and indexes of names, songs, and subjects complete the work.

Washington's Iron Butterfly Donald A. Ritchie, Terry L. Birdwhistell, 2022-01-11 Had Elizabeth Bess Clements Abell (1933–2020) been a boy, she would likely have become a politician like her father, Earle C. Clements. Effectively barred from office because of her gender, she forged her own path by helping family friends Lyndon and Lady Bird Johnson. Abell's Secret Service code name, Iron Butterfly, exemplified her graceful but firm management of social life in the Johnson White House. After Johnson's administration ended, she maintained her importance in Washington, DC, serving as chief of staff to Joan Mondale and cofounding a public relations company. Donald A. Ritchie and Terry L. Birdwhistell draw on Abell's own words and those of others known to her to tell her remarkable story. Focusing on her years working for the Johnson campaign and her time in the White House, this engaging oral history provides a window into Abell's life as well as an insider's view of the nation's capital during the tumultuous 1960s.

The Leading Man Burton W. Peretti, 2012-09-17 American presidents and Hollywood have interacted since the 1920s. This relationship has made our entertainment more political and our political leadership more aligned with the world of movies and movie stars. In *The Leading Man*, Burton W. Peretti explores the development of the cinematic presidential image. He sets the scene in chapter 1 to show us how the chief executive, beginning with George Washington, was positioned to assume the mantle of cultural leading man. As an early star figure in the young republic, the president served as a symbol of national survival and wish fulfillment. The president, as head of government and head of state, had the potential to portray a powerful and charismatic role. At the center of the story are the fourteen presidents of the cinematic era, from Herbert Hoover to Barack Obama. Since the 1920s, the president, like the lead actor in a movie, has been given the central place on the political stage under the intense glare of the spotlight. Like other American men, future presidents were taught by lead movie actors how to look and behave, what to say, and how to say it. Some, like John F. Kennedy and Richard M. Nixon, took particular care to learn from the grooming, gestures, movements, and vocal inflections of film actors and applied these lessons to their political careers. Ronald Reagan was a professional actor. Bill Clinton, a child of the post-World War II Baby

Boom, may have been the biggest movie fan of all presidents. Others, including Lyndon Johnson, showed little interest in movies and their lessons for politicians. Presidents and other politicians have been criticized for cheapening their offices by hiring image and advertising consultants and staging their public events. Peretti analyzes the evolution and the significance of this interaction to trace the convoluted history of the presidential cinematic image. He demonstrates how movies have been the main force in promoting appearance and drama over the substance of governing, and how Americans' lives today may be dominated by entertainment at the expense of their engagement as citizens.

Mr. and Mrs. President Gil Troy, 2000 With a new chapter devoted to Hillary and Bill Clinton's tainted partnership in office and to the present First Lady's senatorial ambitions, this second edition offers fresh insights into America's paradoxical expectations for its presidential wives and husband. Deeply engrossing.--Publishers Weekly. 33 photos.

Encyclopedia of the Kennedys Joseph M. Siracusa, 2012-09-07 An expansive reference that overviews John F. Kennedy's presidency, covering the people, places, and events that comprised the political landscape of the Kennedy era. The Kennedy family has played a leading role in the annals of American politics for over 100 years, no greater than when John F. Kennedy (JFK) became the 35th president of the United States. The celebrity surrounding the circumstances of his presidency, particularly his sudden assassination, made JFK the object of many enduring myths: that he might have been one of the country's greatest leaders had he lived, that he would have kept the United States out of Vietnam, and that he was a martyr to right-wing assassins. Encyclopedia of the Kennedys: The People and Events That Shaped America is a three-volume reference set that provides an in-depth look at JFK's presidency, including his foreign and domestic policies, political allies and enemies, and major events and speeches. This A-Z encyclopedia also contains entries on the events of the 1960s that changed our nation forever, such as JFK's assassination and the Warren Commission report, the space program, and the My Lai Massacre, as well as the individuals who defined the time, such as writers Norman Mailer and James Baldwin, folk musicians Bob Dylan and Joan Baez, and activists Cesar Chavez and Martin Luther King, Jr. Appendices provide a substantial archive of primary documents and identify officeholders during JFK's presidency, while an annotated bibliography supplies sources for additional research.
