Invitation to World Religions Jeffrey Brodd, 2024 THE WORLD'S RELIGIOUS TRADITIONS have offered answers to the weightiest questions of human existence, contributed to the formation of political and social institutions, inspired masterpieces of art and literature, and provided many of the cultural values and ideals on which entire civilizations have been based. Today, religions continue to play a powerful role in shaping the ways in which people understand themselves, the world they live in, and how they should live. *Invitation to World Religions* welcomes students to the study of religion. In these pages, we open the doors and invite the reader to explore with wonder and respect. We describe the essential features of the world's major religions and show how they have responded to basic human needs and to the cultural settings in which they developed. We also compare the answers religions have offered us regarding some of the most essential human questions: Why are we here? What is the nature of the universe? How should we live? Our aim has been to balance concision and substance in an introductory text that is accessible, as well as challenging--

Altruism in World Religions Suzanne Neusner, Bruce Chilton, 2005-11-08 In 1830 philosopher Auguste Comte coined the term altruism to provide a general definition for the act of selflessly caring for others. But does this modern conception of sacrificing one's own interests for the well-being of others apply to the charitable behaviors encouraged by all world religions? In *Altruism in World Religions* prominent scholars from an array of religious perspectives probe the definition of altruism to determine whether it is a category that serves to advance the study of religion. Exploring a range of philosophical and religious thought from Greco-Roman philia to Judaism, Christianity, and Islam, from Hinduism in India to Buddhism and the religions of China and Japan, the authors find that altruism becomes problematic when applied to religious studies because it is, in fact, a concept absent from religion. Chapters on Judaism, Christianity, and Islam reveal that followers of these religions cannot genuinely perform self-sacrificing acts because God has promised to reward every good deed. Moreover, the separation between the self and the other that self-sacrifice necessarily implies, runs counter to Buddhist thought, which makes no such distinction. By challenging our assumptions about the act of self-sacrifice as it relates to religious teachings, the authors have shown altruism to be more of a secular than religious notion. At the same time, their findings highlight how charitable acts operate with the values and structures of the religions studied.

Women and Asian Religions Zayn R. Kassam, 2017-06-22 Covering eclectic topics ranging from South Asian religion to motherhood to world dance to ethnomusicology, this book focuses on contemporary selected experiences of women and how their lives interface with religion. Religion has often been perceived as the source of constriction for women's roles in society. This volume explores how modern women across Asia are mobilizing their faith traditions to address existential issues encountered in both the public and private realms, relating to economics, public participation, politics, and culture. As such, it is revealed that religion can be a powerful force for social change and ameliorating women's lives, despite use of religious doctrine in the past to limit women. Editor Zayn R. Kassam, PhD, and the contributors cover not only the commonly considered Asian traditions of Hinduism, Islam, and Buddhism but also Christianity, Judaism, Bahai, and indigenous traditions. The book reveals that the challenges and opportunities Asian women face arise both from within and outside, whether in terms of developments within their countries or in relation to international political and economic regimes. The chapters explore how the issues Asian women face have as much to do with cultural and religious codes as they do with politics, economics, education, and the law; consider the varying ways in which family and motherhood are affected by the state's construction of the gendered citizen, by social constructs of motherhood, and by policies regarding women and children's access to health care; and identify the roles played by religion and spirituality in these circumstances.

Islam in China James Frankel, 2021-06-17 In China there are up to 25 million Muslims living in the country, representing over 1200 years of Chinese-Islamic relations. However, little is known about the historical and contemporary geopolitical relations between China and the Muslim world, or the situation for the diverse groups of Muslims living in China today. In this book, James Frankel studies the rich and dynamic history of Muslims in China from the Tang dynasty (618-907) to the present day. He shows that Muslims in China remain an internally diverse population separated geographically, ethnically, linguistically, economically, educationally, and along sectarian and kinship lines. But despite having its own local flavours and accents, Islam in China is recognisable as the same religious tradition practiced by approximately 1.8 billion Muslims worldwide and Muslims in China are inextricably part of society, living alongside other minorities and amongst the great Han Chinese majority. Tracing 1200 years of history, this book shows that Muslim communities in China have undergone tremendous change, touched by the forces of Chinese history, the development of Islamic traditions outside China, and geopolitics. In highlighting the paradoxical situation in which Chinese Muslims have found themselves - living as both insiders and outsiders to Chinese society and state - the book examines why after so many centuries of habitation and

naturalisation, Muslims in China are still stigmatized by their perceived alien origins. The book follows the 'yin and yang' of compatibility and difference and the connections and ruptures between two great civilisations.

Savior on the Silver Screen Richard C. Stern, Clayton N. Jefford, Guerric DeBona, 1999 Savior on the Silver Screen examines nine movies about the life of Jesus - ranging from the traditional to the provocative and explores how the image of Jesus in each reflects the time and culture in which the film was produced. The selections encompass silent, foreign, epic, and musical films. Both entertaining and insightful, Savior on the Silver Screen is structured for easy use in classroom, small group, and individual settings and includes rental information and practical tips for using the book. For each film there is an introduction, pre-viewing and post-viewing questions, and a discussion of its major features. -- Provided by publisher.

Gender, Nation and Religion in European Pilgrimage Dr Catrien Notermans, Professor Willy Jansen, 2012-11-01 Despite the forces of secularization in Europe, old pilgrimage routes are attracting huge numbers of people and given new meanings in the process. In pilgrimage, religious or spiritual meanings are interwoven with social, cultural and politico-strategic concerns. This book explores three such concerns under intense debate in Europe: gender and sexual emancipation, (trans)national identities in the context of migration, and European unification and religious identifications in a changing religious landscape. The interdisciplinary contributions to this book explore a range of such controversies and issues including: Africans renewing family ties at Lourdes, Swedish women at midlife or young English men testing their strength on the Camino to Santiago de Compostela, New Age pilgrims and sexuality, Saints' festivals in Spain and Brittany, conservative Catholics challenging Europe's liberal policies on abortion, Polish migrants and French Algerians reconfiguring their transnational identity by transporting their familiar Madonna to their new home, new sacred spaces created such as the shrine of Our Lady of Santa Cruz, traditional Christian saints such as Mary Magdalene given new meanings as new age goddess, and foundation legends of shrines revived by new visionaries. Pilgrimage sites function as nodes in intersecting networks of religious discourses, geographical routes and political preoccupations, which become stages for playing out the boundaries between home and abroad, Muslims and Christians, pilgrimage and tourism, Europe and the world. This book shows how the old routes of Europe are offering inspirational opportunities for making new journeys.

Christianity Encountering World Religions (Encountering Mission) Terry C. Muck, Frances S. Adeney, 2009-04-01 The current religious climate poses unique challenges to those engaged in mission. Thus the authors of this book propose a new, yet very biblical, model for interacting with people of other faiths. They term this model giftive mission, as it is based on the metaphor of free gift. We bear the greatest gift possible--the gospel message. Adopting this perspective not only has the potential for greater missionary success but also enables us to more closely imitate God's gracious activity in the world. The core of the book explores eleven practices that characterize giftive mission. Each practice is illustrated through the story of a figure from mission history who embodied that practice. Further discussion shows how to incorporate these practices in

specific mission settings.

God's Other Children Bradley Malkovsky,2013-05-07 "A classic for our time, a testimony matching our best efforts to keep the faith and celebrate the diversity around us." —Francis X. Clooney, SJ, Parkman Professor of Divinity and Director of the Center for the Study of World Religions, Harvard University God's Other Children by Bradley Malkovsky is a charming spiritual travelogue that tells the tale of a Catholic religious scholar who goes to India to study Hinduism and winds up falling in love with and marrying a Muslim. Malkovsky, who holds a degree in Catholic theology, shares how his spiritual journey grew his faith, while raising questions about it that he had never considered, and how it changed his life in ways he could never have imagined. Inspiring and profound, God's Other Children: Personal Encounters with Faith, Love, and Holiness in Sacred India offers a fascinating perspective on how people of all faiths encounter God. Winner of the Huston Smith Publishing Prize from HarperOne. "The most interesting and inspiring book that I have read in a very long time." —Huston Smith, author of The World's Religions "A candid memoir about [an] unusual spiritual journey and a plea for ecumenical tolerance." —Kirkus Reviews "A spiritual adventure story that illustrates the freedom and fulfillment that can be discovered in encounters with other religions and their practices." —Spirituality and Practice "An important work that I hope will have wide reception among scholars and ordinary readers alike." —Seyyed Nasr, University Professor of Islamic Studies at George Washington University, author of Islam in the Modern World "Malkovsky's sensitive, personal and gripping account raises important questions and offers thought-provoking insights to Christians in general and Catholics in particular." —Swami Tyagananda, Hindu Chaplain, Harvard University and co-author of Interpreting Ramakrishna: Kali's Child Revisited

Islam Michael Ashkar,2017 In the sixth century of the common era, the Prophet Muhammad appeared in the Arabian Peninsula, proclaiming the message that there was only one god, called Allah, and that all people should obey Allah's

requirements for their lives. Today, Islam is the second-largest religion in the world, with more than 1.6 billion Muslims adhering to this faith. However, although all Muslims do revere Islam's sacred scripture, the Quran, there are many differences in the way that the faith is practiced throughout the world. This book will discuss the origins of Islam, the major sects that follow the faith, important religious centers such as Mecca and Medina, and the elemental religious practices that unite all members of the umma, or Islamic community. The MAJOR WORLD RELIGIONS series provides information about six of the most important religious faiths practiced around the world. More than 75 percent of the world's population over 5.2 billion people observes the tenets of one of these six religions. Each book in the series describes the important beliefs of a particular religion, along with information about its history, practices, and rituals. Religion in Contemporary Nigeria Y. A. Quadri, Rotimi Williams Omotoye, R. I. Adebayo, 2016 The dynamism of religion all over the world presupposes that discourse on it generally is a continuous exercise. As religion influences the environment of its operation so also is the influence of the environment on the practice of religion. Nigeria, a multi-religious nation has experienced and is still experiencing the positive as well as the negative aspects of religious practices in her socio-political, economic and cultural spheres. There is no doubt that religion is manipulated by some people, which portray it in bad light and makes it vulnerable to criticisms despite the unanimity about its potential to be a force for good in the society. Recent developments in Nigeria indicate that religion has a role in the survival or otherwise of the country. Such include the re-introduction of Shariah penal code in some states in the northern part of the country, the emergence of Islamic banks, proliferation of private faith-based tertiary institutions, emergence of different factions and sects in religions and the challenge of insurgency using religion as camouflage in the name of the Boko Haram. This book addresses contemporary issues in the use of religion in Nigeria. Its uniqueness lies in the calibre of notable scholars who contributed to it from various ethno-religious and geographical backgrounds. It contains the views of eminent scholars from Islam and Christianity and is jointly edited by experienced professors in the two faiths. The overall aim is to enhance better understanding of religion and to promote peaceful co-existence between and among adherents of the two religions.

World Religions Today John L. Esposito, Darrell J. Fasching, Todd Thornton Lewis, 2002 The twenty-first century is witnessing a resurgence and globalization of religion. Around the world, religion has become an increasingly more important

and pervasive force in personal and public life, and faith and politics now play a powerful role in international affairs. Revealing the significance of religion in contemporary life, *World Religions Today* explores major religious traditions--Christianity, Judaism, Islam, Hinduism, Buddhism, and East Asian religions--as dynamic, ongoing forces in the lives of individuals and in the collective experience of modern societies. Moving beyond the almost exclusively historical perspective of many books in the field, this text takes a fresh approach, using solid historical coverage of the various religious traditions as a framework to help students understand how faiths have evolved to the present day. It connects today's religions to their classical beliefs and practices but also shows how these religions have responded to and been transformed by the modern world. To help students grasp what might be new about the emerging era of religious life in the 21st century, the authors open each discussion with a contemporary scenario of religious experience that illustrates the tensions between pre-modern views and modernity. *World Religions Today* includes a general introduction that provides essential background information for students and features many pedagogical aids including timelines, maps, numerous illustrations, questions for discussion, and a glossary of key terms. Ideal for undergraduate courses in world religions and comparative religion, *World Religions Today* emphasizes the interconnectedness of faith, culture, politics, and society, providing a peerless examination of the diverse ways in which contemporary human beings are religious.

World Religions and Philosophy Mark Webb, 2021-01-13 In a globalization, digitally-interconnected world, everyone needs to understand what people from different cultures believe, and how they approach questions of universal importance. This book takes a sympathetic view of six of the world's religions and discusses difficult philosophical issues connected with them.

Hinduism Nalini Rangan, 2017-04 Hinduism is one of the world's oldest religions. It originated in the beliefs and practices of various civilizations and cultures that lived in the Indus River Valley more than 3,000 years ago. Hinduism is also one of the world's most complex and diverse religions, and its followers, known as Hindus, have a great variety of core beliefs and revere millions of different deities. Today, around 1 billion people follow Hinduism, making it the world's third-largest religion. Most Hindus live in India and Nepal. This book examines the origins and history of Hinduism, and explores its sacred texts--the Vedas, Upanishads, and other writings that include stories, hymns, poems, and rituals on which Hindus base their beliefs. The book also explores how beliefs differ among Hindu sects, and how the faith is practiced today. The MAJOR WORLD RELIGIONS series provides information about six of the most important religious faiths practiced around the world. More than 75 percent of the world's population--over 5.2 billion people--observes the tenets of one of these six religions. Inventing and Reinventing the Goddess Sree Padma, 2014 The volume investigates two related processes: First, it underscores the manner in which the religious cultures of goddesses are reflexes of larger social processes occurring historically in local contexts. Second, it illustrates transformations in how these same goddesses are understood when they migrate from indigenous social and cultural contexts to destinations with their devotees.
