**Gregg Braden**

**The Utopia of Rules** David Graeber,2015-02-24 From the author of the international bestseller *Debt: The First 5,000 Years* comes a revelatory account of the way bureaucracy rules our lives Where does the desire for endless rules, regulations, and bureaucracy come from? How did we come to spend so much of our time filling out forms? And is it really a cipher for state violence? To answer these questions, the anthropologist David Graeber—one of our most important and provocative thinkers—traces the peculiar and unexpected ways we relate to bureaucracy today, and reveals how it shapes our lives in ways we may not even notice...though he also suggests that there may be something perversely appealing—even romantic—about bureaucracy. Leaping from the ascendance of right-wing economics to the hidden meanings behind Sherlock Holmes and Batman, *The Utopia of Rules* is at once a powerful work of social theory in the tradition of Foucault and Marx, and an entertaining reckoning with popular culture that calls to mind Slavoj Zizek at his most accessible. An essential book for our times, *The Utopia of Rules* is sure to start a million conversations about the institutions that rule over us—and the better, freer world we should, perhaps, begin to imagine for ourselves.

*Lost Christianities* Bart D. Ehrman,2005 The early Christian Church was a chaos of contending beliefs. In *Lost Christianities*, Bart D. Ehrman offers a fascinating look at these early forms of Christianity and shows how they came to be suppressed, reformed, or forgotten. All of these groups insisted that they upheld the teachings of Jesus and his apostles, and they all possessed writings that bore out their claims, books reputedly produced by Jesus' own followers. Scrupulously researched and lucidly written, *Lost Christianities* is an eye-opening account of politics, power, and the clash of ideas among Christians in the decades before one group came to see its views prevail.

**The Forbidden Religion** Jose M. Herrou Aragon,2012-07-03 Gnosis means knowledge. But we are not referring to just any knowledge. Gnosis is knowledge which produces a great transformation in those who receive it. Knowledge capable of nothing less than waking up man and helping him to escape from the prison in which he finds himself. That is why Gnosis has been so persecuted throughout the course of history, because it is knowledge considered dangerous for the religious and political authorities who govern mankind from the shadows. Every time this religion, absolutely different from the rest,

appears before man, the other religions unite to try to destroy or hide it again. Primordial Gnosis is the original Gnosis, true Gnosis, eternal Gnosis, Gnostic knowledge in its pure form. Due to multiple persecutions, Primordial Gnosis has been fragmented, distorted and hidden.

**The Princess and the Captain** Anne-Laure Bondoux,2011-05-04 Malva is the princess of Galnicia, destined to marry the Prince of Andemark. Or so her parents think. On the eve of her wedding, she escapes at dead of night from under her parents' noses, little realising that she is letting herself in for a life of peril and adventure, including being shipwrecked in a huge storm and captured as part of a harem. Hugely visual, the book tells of the wonder of frozen steppes and oriental palaces, of sailing ships and treasure islands. This is a book of drama, magic and excitement, where challenges have to be overcome, friendships cemented and hearts broken.

Daimonic Reality Patrick Harpur,2003 Daimonic Reality is a sweeping look at strange, otherworldly events in the world around us -- UFOs, fairies, phantom animals, visions of the Virgin Mary, alien abductions, and mysterious lights in the sky. But rather than simply listing the events, Patrick Harpur shows how they can all be tied together using his concept of Daimonic Reality. Starting with a look at the events themselves, Harpur shows how they are connected by using ideas proposed by Carl Jung and the Romantic poets, William Butler Yeats and William Blake. Harpur connects the old-fashioned fairies to the modern occupants of UFOs. He highlights the similarities in sightings of the older Black Dogs, more recent mysterious cats, and Yetis, Yowies, and Bigfoot. Lights in the sky have existed throughout history; once they were seen as witches, now they are UFOs. The ephemeral materializations of Spiritualism's seances have been replaced by tangible crop circles. And all of them are manifestations of Daimonic Reality.

**The God Code** Gregg Braden,2005-01-01 “One of our great visionaries.” —Dr. Wayne W. Dyer “A rare blend of scientist, visionary, and scholar.” —Deepak Chopra A scholar and New York Times–bestselling author shares his shocking theory of an ancient language—found in the decoded elements of our DNA—that shines new light on the mysteries of existence. What would it mean to discover an ancient language—a literal message—hidden within the DNA of life itself? What we once believed of our past is about to change. A coded message has been found within the molecules of life, deep within the DNA in each cell of our bodies. Through a remarkable discovery linking Biblical alphabets to our genetic code, the “language of life” may now be read as the ancient letters of a timeless message. Regardless of race, religion, heritage, or lifestyle, the message is the same in each cell of every woman, child, and man, past and present. Sharing all-new, fascinating research, Gregg Braden discusses the life-changing discovery that led him from a successful career in the aerospace and defense industries to an extensive 12-year study of the most sacred and honored traditions of humankind.

*The Lost Book of Enki* Zecharia Sitchin,2004-08-16 The companion volume to The Earth Chronicles series that reveals the identity of mankind’s ancient gods • Explains why these “gods” from Nibiru, the Anunnaki, genetically engineered Homo

sapiens, gave Earthlings civilization, and promised to return • 30,000 sold in hardcover Zecharia Sitchin's bestselling series The Earth Chronicles provided humanity's side of the story concerning our origins at the hands of the Anunnaki, "those who from heaven to earth came." In The Lost Book of Enki we now view this saga from the perspective of Lord Enki, an Anunnaki leader revered in antiquity as a god, who tells the story of these extraterrestrials' arrival on Earth from the planet Nibiru. In his previous works Sitchin compiled the complete story of the Anunnaki's impact on human civilization from fragments scattered throughout Sumerian, Akkadian, Babylonian, Assyrian, Hittite, Egyptian, Canaanite, and Hebrew sources. Missing from these accounts, however, was the perspective of the Anunnaki themselves. What was life like on their own planet? What motives propelled them to settle on Earth--and what drove them from their new home? Convinced of the existence of a lost book that held the answers to these questions, the author began his search for evidence. Through exhaustive research of primary sources, he has here re-created tales as the memoirs of Enki, the leader of these first "astronauts." What takes shape is the story of a world of mounting tensions, deep rivalries, and sophisticated scientific knowledge that is only today being confirmed. An epic tale of gods and men unfolds, challenging every assumption we hold about our past and our future.

**The Verne Code** Jesus Cediél, 2017-07-09 It happened more than 450,000 years ago. Beings from outer space came to planet Earth in search of resources: fuel for a distant planet. It all began in Sumer, in ancient Mesopotamia. You may think this is an outlandish story by someone who has not slept for some days, but everything you will read is well documented in the most ancient writings known to mankind: the Enuma Elish, Atrahasis, the Epic of Gilgamesh, and many more. These writings, made in cuneiform on clay, have served as a source of inspiration for books of such importance as Genesis and Exodus in the Bible... although over time, the true knowledge has been mutated or mutilated for ideological or religious reasons. Over many years of research, Cediél has been able to verify that the facts are clear and undeniable...it just happens that they are so difficult to believe that science prefers not to accept them, because they do not conform to the historical paradigm. Finally, after years of research, and motivated by a shamanic experience, he has decided to committed his ideas to print: The Verne Code is the result. The Verne Code speaks of penicillin before Fleming, air travel before the first modern plane, of ancient maps of great precision charting places only discovered in the 20th century, of the human genome before Craig Venter, of cloning before Dolly the sheep, of nuclear explosions before Hiroshima and Nagasaki, about the quest for immortality before Geron Corporation; a treasure trove of ancient secrets waiting to be discovered. In The Verne Code, Cediél shows evidence of the extraterrestrial origin of humankind, and argues that the writings of the most ancient civilizations are reliable sources of evidence to allow us to draw objective conclusions. The Verne Code is an exciting journey from the knowledge that existed in the most remote antiquity, to the frontiers of current scientific knowledge. The result is an anthropogenesis, a cosmogenesis, a theory of aging and a breakthrough theory on Atlantis. Cediél also explains the importance of the Sun and anticipates the intellectual and spiritual paradigm that will rule in the next astrological age of

Aquarius-Leo. Cediel denounces the state of hypnotic sleep in which mankind finds itself. He affirms the need for humanity to wake up from its dreams so you can be truly free, and master of your destiny. The author claims that we today are witness to a huge manipulation of history, just at the time in history when there is apparently the greatest freedom for the individual. Everything you know is wrong. People must believe that they are free and not manipulated in order to be able to handle them efficiently. This is the motto of those whose objective is to reduce the vibration of the human race. Only those who realize this will be in a position to stop being manipulated, as only those who realize that they are asleep can wake up. A psycho-neural code has been implanted in our brains so that we believe we are free; we believe we belong to the tribe, the philosophical system, or the movement that will allow us to be free once and for all...but the reality is very different: the intelligence that is fed and powered by the dream of humans has infiltrated the forums and places where humans go to stop being manipulated...evil...yes...but true.....WELCOME TO THE UNIVERSE MATRIX.

*Human Race Get Off Your Knees* David Icke,2010 David Icke marks his 20th year of uncovering astounding secrets and suppressed information with the publication of his most amazing book yet: *Human Race Get off Your Knees : The Lion Sleeps No More*. He takes the manipulation of the human race and the nature of reality to still new levels of understanding and he calls for humanity to rise from its knees and take back the world from the sinister network of families and non-human entities that covertly control us from cradle to grave. His most staggering revelation is that the Earth and the collective human mind is manipulated from the Moon, which, he says, is not a 'heavenly body, but an artificial construct - a gigantic 'spacecraft' (probably a hollowed-out 'planetoid') - which is home to the extraterrestrial group that has been manipulating humanity for aeons. Humanity is at a fork in the road and it is time to make a choice. Are we going to awaken to our true genius and potential as Infinite Consciousness? Or are we going to remain entrapped in body/mind and the manufactured illusions of the Moon Matrix? It is time to shake off the shackles, stop being Pavlov's dogs and grab reality by the balls and wake up to who we are truly meant to be.

**Chariots of Ladies** Nuria Silleras-Fernandez,2015-07-28 In *Chariots of Ladies*, Núria Silleras-Fernández traces the development of devotion and female piety among the Iberian aristocracy from the late Middle Ages into the Golden Age, and from Catalonia to the rest of Iberia and Europe via the rise of the Franciscan Observant movement. A program of piety and morality devised by Francesc Eiximenis, a Franciscan theologian, royal counselor, and writer in Catalonia in the 1390s, came to characterize the feminine ideal in the highest circles of the Iberian aristocracy in the era of the Empire. As Eiximenis's work was adapted and translated into Castilian over the century and a half that followed, it became a model of devotion and conduct for queens and princesses, including Isabel the Catholic and her descendants, who ruled over Portugal and the Spanish Empire of the Hapsburgs. Silleras-Fernández uses archival documentation, letters, manuscripts, incunabula, and a wide range of published material to clarify how Eiximenis's ideas on gender and devotion were read by Countess Sanxa

Ximenes d'Arenós and Queen Maria de Luna of Aragon and how they were then changed by his adaptors and translators in Castile for new readers (including Isabel the Catholic and Juana the Mad), and in sixteenth-century Portugal for new patronesses (Juana's daughter, Catalina of Habsburg, and Catalina's daughter, Maria Manuela, first wife of Philip II). *Chariots of Ladies* casts light on a neglected dimension of encounter and exchange in Iberia from the late fourteenth to the mid-sixteenth centuries.

**The Smoky God; Or, A Voyage to the Inner World** Willis George Emerson, 2022-08-10 'The Smoky God, or A Voyage Journey to the Inner Earth' is a book presented as a true account written by Willis George Emerson in 1908, which describes the adventures of Olaf Jansen, a Norwegian sailor who sailed with his father through an entrance to the Earth's interior at the North Pole. For two years Jansen lived with the inhabitants of an underground network of colonies who, Emerson writes, were 12 feet tall and whose world was lit by a smoky central sun. Their capital city was said to be the original Garden of Eden.

**The Master of the Prado** Javier Sierra, 2015-11-17 Author Javier Sierra embarks on a grand tour of the Prado museum in this historical novel that illuminates the fascinating mysteries behind some of the greatest paintings in the world--complete with gorgeous, full-color inserts of artwork by Raphael, Boticelli, and other masters--

*With All, and for the Good of All* Gerald E. Poyo, 1989-03-28 Cuban-Americans are beginning to understand their long-standing roots and traditions in the United States that reach back over a century prior to 1959. This is the first book-length confirmation of those beginnings, and it places the Cuban hero and revolutionary thinker José Martí within the political and socioeconomic realities of the Cuban communities in the United States of that era. By clarifying Martí's relationship with those communities, Gerald E. Poyo provides a detailed portrait of the exile centers and their role in the growth and consolidation of nineteenth-century Cuban nationalism. Poyo differentiates between the development of nationalist sentiment among liberal elites and popular groups and reveals how these distinct strains influenced the thought and conduct of Martí and the successful Cuban revolution of the 1890s.

*Ancient Greece* Sarah B. Pomeroy, 2012 A Political, Social, and Cultural History is a comprehensive and balanced history, covering the political, military, social, cultural, and economic history of ancient Greece from the Bronze Age to the Hellenistic Era.

*The Ultimate Canon of Knowledge* A. Boyd Kuhn,

**The Temptation of the Impossible** Mario Vargas Llosa, 2007-04-23 It was one of the most popular novels of the nineteenth century and Tolstoy called it the greatest of all novels. Yet today Victor Hugo's *Les Misérables* is neglected by readers and undervalued by critics. In *The Temptation of the Impossible*, one of the world's great novelists, Mario Vargas Llosa, helps us to appreciate the incredible ambition, power, and beauty of Hugo's masterpiece and, in the process, presents

a humane vision of fiction as an alternative reality that can help us imagine a different and better world. Hugo, Vargas Llosa says, had at least two goals in *Les Misérables*--to create a complete fictional world and, through it, to change the real world. Despite the impossibility of these aims, Hugo makes them infectious, sweeping up the reader with his energy and linguistic and narrative skill. *Les Misérables*, Vargas Llosa argues, embodies a utopian vision of literature--the idea that literature can not only give us a supreme experience of beauty, but also make us more virtuous citizens, and even grant us a glimpse of the afterlife, the immortal soul, God. If Hugo's aspiration to transform individual and social life through literature now seems innocent, Vargas Llosa says, it is still a powerful ideal that great novels like *Les Misérables* can persuade us is true.

*Sensei of Shambala. Book IV* Anastasia Novykh, 2022-01-29 This world tempts but God saves. The one who doesn't know the essence, can't resist the temptation. The one who knows the Truth, will find the essence even where it is tried to be hidden. The one who seeks the Truth will see its Light even through the thick darkness, even if all the darkness will resist this Light. Since the time came to reveal what was hidden in ages. Since the time came to tell the secret! This book was written based on the personal diary of a former high school senior girl reflecting events of summer, 1991.

The Small Voice of History Ranajit Guha, 2009 Ranajit Guha's writings have had a formative impact on several disciplines: postcolonial studies, literature, anthropology, history cultural studies, art history. Guha first became known as the practitioner of a critical Marxism that ran parallel to the work of British and French Marxist historians of the 1960s and 1970s but which, instead of recreating a 'history from below, sought active political engagement by deploying insights drawn from Gramsci and Mao. More recently, Cuba's work has drawn attention to the phenomenological and the everyday, and been noticed for its critique of the disciplinary practices of history-writing. Guha's reputation rests most famously on his role as the founder and guiding spirit of Subaltern Studies, which has critiqued colonialist and nationalist historiographies. In spawning new ways of thinking about history, this has created an intellectual ferment richer than anything else emerging out of modern South Asia. Guha's historical and political writings, tucked away in obscure journals and collections, have been virtually inaccessible; they are brought together for the first time in the present volume by Partha Chatterjee, whose long association with Guha as a founder-member of the Subaltern Studies editorial board is complemented by his own international stature as a historian, political theorist, and public intellectual. Every serious student of South Asian history, politics, and anthropology will be enriched by the astonishing diversity of insights and scholarship within this book.

**Spiritual Intelligence** Danah Zohar, 2012-04-12 At the beginning of the twentieth century psychologists discovered ways and means to measure intelligence that developed into an obsession with IQ. In the mid 1990's, Daniel Goleman popularised research into emotional intelligence, EQ, pointing out that EQ is a basic requirement for the appropriate use of IQ. In this century, there is enough collective evidence from psychology, neurology, anthropology and cognitive science to show us that there is a third 'Q', 'SQ' or Spiritual Intelligence. SQ is uniquely human and, the authors argue, the most

fundamental intelligence. SQ is what we use to develop our longing and capacity for meaning, vision and value. It allows us to dream and to strive. It underlies the things we believe in, and the role our beliefs and values play in the actions that we take and the way we shape our lives.
