The Material Renaissance Michelle O'Malley,Evelyn Welch,2007 Despite the recent interests of economic and art historians in the workings of the market, we still know remarkably little about the everyday context for the exchange of objects and the meaning of demand in the lives of individuals in the Renaissance. Nor do we have much sense of the relationship between the creation and purchase of works of art and the production, buying and selling of other types of objects in Italy in the period. The Material Renaissance addresses these issues of economic and social life.

Encyclopedia of Renaissance Philosophy Marco Sgarbi,2022-10-27 Gives accurate and reliable summaries of the current state of research. It includes entries on philosophers, problems, terms, historical periods, subjects and the cultural context of Renaissance Philosophy. Furthermore, it covers Latin, Arabic, Jewish, Byzantine and vernacular philosophy, and includes entries on the cross-fertilization of these philosophical traditions. A unique feature of this encyclopedia is that it does not aim to define what Renaissance philosophy is, rather simply to cover the philosophy of the period between 1300 and 1650.

The Lyon Terence Giulia Torello-Hill,Andrew J. Turner,2020-10-20 In The Lyon Terence Giulia Torello-Hill and Andrew J. Turner take an unprecedented interdisciplinary approach to map out the influence of late-antique and medieval commentary and iconographic traditions over this seminal edition of the plays of Terence, published in Lyon in 1493, and examine its legacy. The work had a profound impact on the way Terence's plays were read and understood throughout the sixteenth century, but its influence has been poorly recognised in modern scholarship. The authors establish the pivotal role that this book, and its editor Badius, played in the revitalisation of the theoretical understanding of classical comedy and in the revival of the plays of Terence that foreshadowed the establishment of early modern theatre in Italy and France.
