What They Don't Teach You at Harvard Business School Mark H. McCormack, 2016-02-17 This business classic features straight-talking advice you'll never hear in school. Featuring a new foreword by Ariel Emanuel and Patrick Whitesell Mark H. McCormack, one of the most successful entrepreneurs in American business, is widely credited as the founder of the modern-day sports marketing industry. On a handshake with Arnold Palmer and less than a thousand dollars, he started International Management Group and, over a four-decade period, built the company into a multimillion-dollar enterprise with offices in more than forty countries. **Ikigai** Héctor García, Francesc Miralles, 2017-08-29 INTERNATIONAL BESTSELLER • 2 MILLION+ COPIES SOLD WORLDWIDE "Workers looking for more fulfilling positions should start by identifying their ikigai." —Business Insider "One of the unintended—yet positive—consequences of the [pandemic] is that it is forcing people to reevaluate their jobs, careers,

and lives. Use this time wisely, find your personal ikigai, and live your best life.” —Forbes Find your ikigai (pronounced ee-key-guy) to live longer and bring more meaning and joy to all your days. “Only staying active will make you want to live a hundred years.” —Japanese proverb According to the Japanese, everyone has an ikigai—a reason for living. And according to the residents of the Japanese village with the world’s longest-living people, finding it is the key to a happier and longer life. Having a strong sense of ikigai—where what you love, what you’re good at, what you can get paid for, and what the world needs all overlap—means that each day is infused with meaning. It’s the reason we get up in the morning. It’s also the reason many Japanese never really retire (in fact there’s no word in Japanese that means retire in the sense it does in English): They remain active and work at what they enjoy, because they’ve found a real purpose in life—the happiness of always being busy. In researching this book, the authors interviewed the residents of the Japanese village with the highest percentage of 100-year-olds—one of the world’s Blue Zones. Ikigai reveals the secrets to their longevity and happiness: how they eat, how they move, how they work, how they foster collaboration and community, and—their best-kept secret—how they find the ikigai that brings satisfaction to their lives. And it provides practical tools to help you discover your own ikigai. Because who doesn’t want to find happiness in every day? What’s your ikigai?

*The Roman Army* Pat Southern, 2007-10-01 Written by a leading authority on Roman military history, this fascinating volume spans over a thousand years as it offers a memorable picture of one of the world's most noted fighting forces, paying special attention to the life of the common soldier. Southern here illuminates the Roman army's history, culture, and organization, providing fascinating details on topics such as military music, holidays, strategy, the construction of Roman fortresses and forts, the most common battle formations, and the many tools of war, from spears, bows and arrows, swords, and slingshots, to the large catapulta (which fired giant arrows and bolts) and the ballista (which hurled huge stones). Perhaps most interesting are the details Southern provides about everyday life in the Roman army, everything from the soldiers pay (they were paid three times per year, but money was deducted for such items as food, clothing, weapons, the burial club, the pension scheme, and so on) to their often brutal life--if whole units turned and ran, about one-tenth of the men concerned were chosen by lot and clubbed to death and the rest were put on barley rations instead of wheat. Moreover, soldiers who lost weapons or their shields would fight savagely to get them back or would die in the process, rather than suffer the shame that attached to throwing weapons away or running from the battle. Attractively illustrated, this book offers a fascinating look at the life of the Roman soldier, drawing on everything from Rome's rich historical and archaeological record to soldier's personal correspondence to depictions of military subjects in literature and art.

**Private Yokoi's War and Life on Guam, 1944-1972** Omi Hatashin, 2009-03-19 In 1972, when discovered by local hunters on Guam, former tailor Yokoi was widely reported as a 'no surrender man' who survived, living up to the old Japanese military code of honour. This book is about the reality of such a man (and the ingenuity he applied to ensure his survival), which is very different from the stereotype. This book sheds a different light on the reality of the war in the Pacific while addressing some key issues concerning the nature of Japanese culture in modern times.

*The Achievement Habit* Bernard Roth, 2015-07-07 The cofounder of the Stanford d.school introduces the power of design thinking to help you achieve goals you never thought possible. Achievement can be learned. It's a muscle, and once you learn how to flex it, you'll be able to meet life's challenges and fulfill your goals, Bernard Roth, Academic Director at the Stanford d.school contends. In *The Achievement Habit*, Roth applies the remarkable insights that stem from design thinking—previously used to solve large scale projects—to help us realize the power for positive change we all have within us. Roth leads us through a series of discussions, stories, recommendations, and exercises designed to help us create a different experience in our lives. He shares invaluable insights we can use to gain confidence to do what we've always wanted and overcome obstacles that hamper us from reaching our potential, including: Don't try—DO; Excuses are self-defeating; Believe you are a doer and achiever and you'll become one; Build resiliency by reinforcing what you do rather than what you accomplish; Learn to ignore distractions that prevent you from achieving your goals; Become open to learning from your own experience and from those around you; And more. The brain is complex and is always working with our egos to sabotage our best intentions. But we can be mindful; we can create habits that make our lives better. Thoughtful and powerful *The Achievement Habit* shows you how. "The Achievement Habit is a masterpiece in describing how to think creatively and fulfill your life's ambitions." —Paul Hait, entrepreneur and Olympic gold medalist

***Ikigai Journey*** Hector Garcia,Francesc Miralles,2020-06-23 In The Ikigai Journey, authors Hector Garcia and Francesc Miralles take their international bestseller Ikigai: the Japanese Secret to a Long and Happy Life a step further by showing you how to find your own ikigai through practical exercises, such as employing new habits and stepping outside your comfort

zone. Ikigai is the place where our passion (what we love), mission (what we hope to contribute), vocation (the gifts we have to offer the world) and profession (how our passions and talents can become a livelihood) converge, giving us a personal sense of meaning. This book helps you bring together all of these elements so that you can enjoy a balanced life. Our ikigai is very similar to change: it is a constant that transforms depending on which phase of life we are in. Our reason for being is not the same at 15 as it is at 70. Through three sections, this book helps you to accept and embrace that--acting as a tool to revolutionize your future by helping you to understand the past, so you can enjoy your present. Section 1: Journey Through the Future: Tokyo (a symbol of modernity and innovation) Section 2: Journey Through the Past: Kyoto (an ancient capital moored in tradition) Section 3: Journey Through the Present: Ise (an ancient shrine that is destroyed and rebuilt every twenty years) Japan has one of the longest life spans in the world, and the greatest number of centenarians--many of whom cite their strong sense of ikigai as the basis for their happiness and longevity. Unlike many self-care practices, which require setting aside time in an increasingly busy world, the ikigai method helps you find peace and fulfillment in your busy life.

**Out of Our Minds** Ken Robinson, 2017-09-20 Creativity is critical. Out of Our Minds explores creativity: its value in business, its ubiquity in children, its perceived absence in many adults and the phenomenon through which it disappears — and offers a groundbreaking approach for getting it back. Author Sir Ken Robinson is an internationally recognised authority on creativity, and his TED talk on the subject is the most watched video in TED’s history. In this book, Sir Ken argues that organisations everywhere are struggling to fix a problem that originates in schools and universities. Organisations everywhere are competing in a world that changes in the blink of an eye - they need people who are flexible enough to adapt, and creative enough to find novel solutions to problems old and new. Out of Our Minds describes how schools, businesses and communities can work together to bring creativity out of the closet and realise its inherent value at every stage of life. This new third edition has been updated to reflect changing technologies and demographics, with updated case studies and coverage of recent changes to education. While education and training are the keys to the future, the key can also be turned the other way; locking people away from their own creativity. Only by actively fostering creativity can businesses unlock those doors and achieve their true potential. This book will help you to: Understand the importance of actively promoting creativity and innovation. Discover why creativity stagnates somewhere between childhood and adulthood. Learn how to re-awaken dormant creativity to help your business achieve more. Explore ways in which we can work together to keep creativity alive for everyone. Modern business absolutely demands creativity of thought and action. We're all creative as children — so where does it go? When do we lose it? Out of Our Minds has the answers, and clear solutions for getting it back.
