Art of Fire - Beginning Glassblowing James McKelvey,2006-01-01 From the Back Cover: Studio time is expensive.

Unfortunately, most glassblowing students still learn through a combination of apprenticeship and observation-a slow and inefficient method. The Art of Fire teaches you quickly how to manipulate the glass through a series of structured lessons and exercises, including: Safety exercises to prevent burns; Over 500 photographs and illustrations; Step-by-step instruction for all basic techniques; Fixes for more than 50 common problems.

Resilience of Luxury Companies in Times of Change Gabriella Lojacono,Laura Ru Yun Pan,2021-08-23 Why do some luxury companies remain resilient through times of change, while others do not? The reason is that these companies have unique skills to diversify their revenue generation by being ambidextrous. Luxury companies today cannot depend on their reputation or their creativity alone to remain resilient, rather they require the ability to be ambidextrous - to explore new trajectories for future growth and exploiting their iconic values. In past decades, the industry has shifted from product to customer centric and forced companies to adopt new strategies and approaches to succeed. This includes the adoption of digital platforms such as ecommerce, social media and mobile enabled tools to continually elevate customer experience. In addition, new business models have emerged to address growing pains, particularly in inventory issues, over manufacturing and sustainability. Brands today are forced to adopt evolution through innovation that is anchored by new values without compromising their DNA. Based on in-depth research and interviews with CEOs from leading luxury companies, Lojacono

and Pan show how companies can hedge their risks and remain resilient in times of change.

Making It Third Edition Chris Lefteri,2025-04-03 A product can be manufactured in many ways, but most designers know a handful of techniques only. With specifically commissioned diagrams, case studies and photographs of the manufacturing process. Making IT uses contemporary design as a vehicle to describe over 120 production processes. Each process is also evaluated in terms of sustainability and its effects on the environment. Making It appeals to product, interior, furniture and graphic designers who need access to a range of production methods, as well as to all students of designs. The expanded edition includes six new processes and a new section on joining.

Glass of the Sultans Stefano Carboni,David Whitehouse,2001 This catalogue accompanies an exhibition that brings together more than 150 glass objects representing twelve centuries of Islamic glassmaking. Included are the principal types of pre-industrial glass from Egypt, the Middle East, and India in a comprehensive array of shapes, colors, and techniques such as glassblowing, the use of molds, the manipulation of molten glass with tools, and the application of molten glass to complete or decorate an object. -- Metropolitan Museum of Art website.

Conservation of Furniture Shayne Rivers,Nick Umney,2007-06-07 This book is a comprehensive resource covering the principles and practice of the conservation and restoration of furniture, and other decorative art objects made wholly or partly of wood. It integrates theory with practice to show the principles which govern interaction between wooden objects,

the environmental and conservation treatments and the factors which need to be taken into account to arrive at acceptable solutions to conservation problems. The practical knowledge and experience of a team of conservators active in the field are brought together with theoretical and reference material from diverse sources and unified within a systematic framework. Specialist conservators from related disciplines cover diverse materials often incorporated into furniture.
