Helen and Teacher Joseph P. Lash, 1997 Helen Keller worked for AFB from 1924 until her death in 1968. Her responsibilities included advocating for more and better services, fighting discrimination and negative attitudes, and fundraising. Helen Keller's and Anne Sullivan Macy's photos and unpublished papers today form the Helen Keller Archives at AFB. For information about access to the Helen Keller Archives or permission to use photos and writings from the collection, contact Permissions, M.C. Migel Memorial Library, in writing, at AFB headquarters in New York City. The intimate story of two women whose lives were bound together in a unique relationship marked by genius, dependence, and love. Lash traces Anne Sullivan's early years in a Massachusetts poorhouse, describes her meeting with Helen Keller in Alabama, and goes on to recount the joint events of their lives: Helen's childhood experiences, education at Radcliffe, and work in vaudeville, politics, and for the blind.

The Global Smartphone Daniel Miller, Laila Abed Rabho, Patrick Awondo, Maya de Vries, Marília Duque, Pauline Garvey, Laura Haapio-Kirk, Charlotte Hawkins, Alfonso Otaegui, Shireen Walton, Xinyuan Wang, 2021-05-06 The smartphone is often literally right in front of our nose, so you would think we would know what it is. But do we? To find out, 11 anthropologists each spent 16 months living in communities in Africa, Asia, Europe and South America, focusing on the take up of smartphones by older people. Their research reveals that smartphones are technology for everyone, not just for the young. The Global Smartphone presents a series of original perspectives deriving from this global and comparative research project. Smartphones have become as much a place within which we live as a device we use to provide 'perpetual opportunism', as they are always with us. The authors show how the smartphone is more than an 'app device' and explore differences between what people say about smartphones and how they use them. The smartphone is unprecedented in the degree to which we can transform it. As a result, it quickly assimilates personal values. In order to comprehend it, we must take into consideration a range of national and cultural nuances, such as visual communication in China and Japan, mobile

money in Cameroon and Uganda, and access to health information in Chile and Ireland - all alongside diverse trajectories of ageing in Al Quds, Brazil and Italy. Only then can we know what a smartphone is and understand its consequences for people's lives around the world.

Female Pelvic Medicine and Reconstructive Pelvic Surgery Harold P. Drutz, Sender Herschorn, Nicholas E.

Diamant, 2007-12-31 This text includes sections on anatomy, normal and abnormal physiology, investigation techniques, inflammatory conditions and treatment options. The international panel of contributors is at the forefront of research in the field; the editors have assembled these contributors and topics that span the entire range of pelvic floor disorders in women. Throughout, the emphasis is on an evidence-based approach to the treatment of pelvic floor problems. Indispensable for gynecologists and urologists.

The Generation of Postmemory Marianne Hirsch, 2012 Can we remember other people's memories? *The Generation of Postmemory* argues we can: that memories of traumatic events live on to mark the lives of those who were not there to experience them. Children of survivors and their contemporaries inherit catastrophic histories not through direct recollection but through haunting postmemories--multiply mediated images, objects, stories, behaviors, and affects passed down within the family and the culture at large. In these new and revised critical readings of the literary and visual legacies of the Holocaust and other, related sites of memory, Marianne Hirsch builds on her influential concept of postmemory. The book's chapters, two of which were written collaboratively with the historian Leo Spitzer, engage the work of postgeneration artists and writers such as Art Spiegelman, W.G. Sebald, Eva Hoffman, Tatana Kellner, Muriel Hasbun, Anne Karpff, Lily Brett, Lorie Novak, David Levinthal, Nancy Spero and Susan Meiselas. Grappling with the ethics of empathy and identification, these artists attempt to forge a creative postmemorial aesthetic that reanimates the past without appropriating it. In her analyses of their fractured texts, Hirsch locates the roots of the familial and affiliative practices of postmemory in feminism and other movements for social change. Using feminist critical strategies to connect past and present, words and images, and memory and gender, she brings the entangled strands of disparate traumatic histories into more intimate contact. With more than fifty illustrations, her text enables a multifaceted encounter with foundational and cutting edge theories in memory, trauma, gender, and visual culture, eliciting a new understanding of history and our place in it.

Primary Care and Public Health Institute of Medicine, Board on Population Health and Public Health Practice, Committee on Integrating Primary Care and Public Health, 2012-07-19 Ensuring that members of society are healthy and reaching their full potential requires the prevention of disease and injury; the promotion of health and well-being; the assurance of conditions in which people can be healthy; and the provision of timely, effective, and coordinated health care. Achieving substantial and lasting improvements in population health will require a concerted effort from all these entities, aligned with

a common goal. The Health Resources and Services Administration (HRSA) and the Centers for Disease Control and Prevention (CDC) requested that the Institute of Medicine (IOM) examine the integration of primary care and public health. Primary Care and Public Health identifies the best examples of effective public health and primary care integration and the factors that promote and sustain these efforts, examines ways by which HRSA and CDC can use provisions of the Patient Protection and Affordable Care Act to promote the integration of primary care and public health, and discusses how HRSA-supported primary care systems and state and local public health departments can effectively integrate and coordinate to improve efforts directed at disease prevention. This report is essential for all health care centers and providers, state and local policy makers, educators, government agencies, and the public for learning how to integrate and improve population health.

A Man Without Words Susan Schaller, 2014-05-15 For more than a quarter of a century, Ildefonso, a Mexican Indian, lived in total isolation, set apart from the rest of the world. He wasn't a political prisoner or a social recluse, he was simply born deaf and had never been taught even the most basic language. Susan Schaller, then a twenty-four-year-old graduate student, encountered him in a class for the deaf where she had been sent as an interpreter and where he sat isolated, since he knew no sign language. She found him obviously intelligent and sharply observant but unable to communicate, and she felt compelled to bring him to a comprehension of words. The book vividly conveys the challenge, the frustrations, and the exhilaration of opening the mind of a congenitally deaf person to the concept of language. This second edition includes a new chapter and afterword.

Maternal Breast-feeding and Its Substitutes in Nineteenth-century French Art Gal Ventura, 2018 Gal Ventura explores the ideological sources promoting maternal breast-feeding in modern Western society, through a survey of hundreds of artworks produced in France from the French Revolution to the beginning of the twentieth century.

The Policing of Families Jacques Donzelot, 1997 Ride the hill dotted prairie with three independent women. Emma Delaney is doing fine on her own until her daughter decides to play matchmaker. Hannah Williams relishes her freedom until a local rancher tries to solve all her problems for her. Lilly Clark is content with her choices until siding with an immigrant against prejudice puts her at odds with the whole town. Will each woman surrender when faith and love call to them?

Include Me Out Farley Granger, Robert Calhoun, 2007-03-06 The star of Hitchcock's *Rope* and *Strangers on a Train* "recalls life onstage and in film in an engaging, colorful memoir" (Kirkus Reviews, starred review). Synonymous with the golden age of Broadway, the dazzling lights of Hollywood, and the rise of television arts, Farley Granger's charm and talent captivated the acting community and audiences alike. Working with creative visionaries like Alfred Hitchcock, Luchino Visconti, and Nick Ray, Granger was a celebrated figure in films like *Strangers on a Train*, *Rope*, *Senso*, and *They Live by*

Night, bringing to the big screen a stunningly memorable presence. But behind his characters, he was an intensely complex man. In his richly told memoir, Granger details his life with disarming candor. Rich in personal insight, he describes his relationships with both men and women and reminisces about legends he knew with private familiarity—from Shelley Winters and Joan Crawford to Leonard Bernstein and Tyrone Power. Recreating not only his personal struggles but his legendary struggle to free himself of his contract with Sam Goldwyn, Granger reveals none so elegantly as he does himself. *Include Me Out* is as much a story of classic Hollywood glamour as it is a collection of iconic theatrical portraits, all from the man who knew them all. “This polished and perceptive memoir etches a scintillating portrait of life inside Tinseltown soundstages where ‘nothing was real except anxiety, insecurity and fear’ . . . The book has a huge celebrity cast, from Mike Todd, Rita Hayworth and Cornelia Otis Skinner to Leonard Bernstein and Peggy Guggenheim. Granger and Calhoun write with a stylish and iridescent flair.” —Publishers Weekly

Symbol Formation H. Werner,B. Kaplan,2014-01-14 First published in 1984. The authors’ basic aim in this volume has been to set forth a certain perspective on psychological phenomena and to show how this perspective enables one to order and integrate data on symbolization and language behavior—data obtained by a variety of methods and garnered from domains that are too often treated in isolation from each other.

Health Communication Renata Schiavo,2011-01-11 *Health Communication: From Theory to Practice* is a much needed resource for the fast-growing field of health communication. It combines a comprehensive introduction to current issues, theories, and special topics in health communication with a hands-on guide to program development and implementation. While the book is designed for students, professionals and organizations with no significant field experience, it also includes advanced topics for health communication practitioners, public health experts, researchers, and health care providers with an interest in this field.

Playful Identities Michiel de Lange,Valerie Frissen,Joost Raessens,Sybille Lammes,2015 In this publication, eighteen scholars examine the increasing role of digital media technologies in identity construction through play. This interdisciplinary collection argues that present-day play and games are not only appropriate metaphors for capturing postmodern human identities, but are in fact the means by which people create their identity.
