*Maybe...* Chris Haughton,2024-09-03 A trio of misbehaving, mango-loving monkeys have a close call as the creator of Don't Worry, Little Crab gives readers a taste of vicarious mischief. Three little monkeys and their big monkey are sitting high on a branch in the forest canopy. OK, monkeys! I'm off, says the big monkey. Remember . . . Whatever you do, do NOT go down to the mango tree. There are tigers down there. Mmm . . . mangoes! think the little monkeys. They LOVE mangoes. Hmm . . . Maybe . . . maybe they could just look at the mangoes. That would be OK, right? With vivid colors, bold shapes, and his trademark visual humor, Chris Haughton is back with a deliciously suspenseful cautionary tale about pushing boundaries-and indulging your more impish side (when nobody is looking).

**Rabinal Achi** Alain Breton,2007 The Rabinal Achi, one of the most remarkable works of Mayan literature, dates back to the 1400s. In 2005, UNESCO declared Rabinal Achi to be a Masterpiece of the Oral and Intangible Heritage of Humanity. This drama is still performed with a ritual dance in the village of Rabinal (Baja Verapaz). The drama is set in the Guatemalan highlands in the second half of the fifteenth century. In an exemplary trial that takes place in Kajyub, the capital of the Rabinaleb at that time, a captured enemy warrior (Quiché Achi) appears before the royal court. A series of combative dialogues pits the offending warrior against the local warrior (Rabinal Achi) and the king (Job Toj), reconstructing the deeds of those involved and retracing the antagonistic history of these two Mayan groups, the Quiché and the Rabinaleb. Alain Breton approaches the text from an anthropological and ethnographical perspective, demonstrating that this indigenous text reenacts pre-Columbian historic paradigms. Breton's work is based on the Pérez Manuscript (1913), a facsimile of which is included in its entirety. Breton translated into French an entirely new transcription of the original text, and Teresa Lavender Fagan and Robert Schneider translated the text into English. Both the transcription and the translation are accompanied by detailed commentary and a glossary.

**Female Well-Being** Carolyn Fluehr-Lobban,Janet Mancini Billson,2013-07-04 This global survey starts from the assumption that the significant transformations in women's lives deserve to be fully documented and interpreted. Janet Mancini Billson and Carolyn Fluehr-Lobban tackle the complexities of social change by using data from countries in every world region to illustrate the most critical challenges that women faced during the last century - challenges that are also likely to shape the 21st century. Global knowledge and feminism dovetailed in the 20th century, fed by international air travel, telecommunications, the internet, and a growing awareness that solving female oppression would improve the lot of all humankind. The authors therefore adopt a strong international, comparative, cross-cultural, and feminist framework that uncovers the fundamental processes that promote, sustain, or degrade the female condition. At the heart of Female Well-Being are case studies written by country teams of scholars, educators, and policy analysts, in Canada, The United States, Colombia, Iceland, the United Kingdom, Croatia, Japan, Bangladesh, Thailand, South Africa, and Sudan. Female well-being is measured by analysing trends in infant mortality, maternal mortality, literacy, life expectancy, education, work, income, family structure, and political power. These trends are contextualised in the light of the century's major events, legislative initiatives, social policies, and leadership, to illustrate the processes that enhance, sustain, or detract from the female condition. This book will be a critical resource for academics, development experts and policy analysts.

**A Glass Eye** Miren Agur Meabe,2018-07-13 'But what if we are all fictioneers? What if we all continually make up the stories of our lives? (...) Our life-stories are ours to construct as we wish, within or even against the constraints imposed by the real world...' J.M. COETZEE A writer in her late thirties retreats to Landes in France for a while, fleeing from her own

suffering after the break-up of a relationship. Little by little, she finds solace in writing about the losses in her life, about her person, and about indifference and freedom, and in sharing the doubts that arise in her creative process with a 'you' whom she imagines to be on the other side of the paper. The glass eye, a self-referential element of the authorprotagonist and metaphor for pain and transcendence, also represents the literary concept of the work, a private notebook where fiction imitates and replaces a fragmented reality.

**The Psychological Meaning of Chaos** Frank Masterpasqua, Phyllis A. Perna, 2009 The Psychological Meaning of Chaos: Translating Theory Into Practice introduces practicing psychologists to the concepts, implications, and applications of the chaos theories that have revolutionized scientists' concept of the physical world over the past 30 yrs. This new way of seeing--variously called chaos, nonlinear dynamical systems theory, deterministic chaos, and the broader sciences of complexity--stands in sharp contrast to the linear, reductionistic models that have dominated most psychological thinking. In this new model, unpredictability and instability are accepted as intrinsic to complex systems and essential in any transformative process. Chaos is seen as a healthy and essential part of the creation process, without which new order is impossible. The implications of this new model of systems dynamics for understanding the human change process are enormous. (PsycINFO Database Record (c) 2004 APA, all rights reserved).

**Misty Circus** Victoria Frances, 2013 Young Sasha Poupon joins the circus as a clown in order to escape the sorrow of the loss of his parents.

*Measuring Time* Julia Vogel, 2012-08 Explains how to keep track of the parts of the day with a clock; describes the development of the sundial, the hourglass, and the clock; and discusses minutes and seconds, telling time, analog and digital timepieces, and ways to express the time.

*Cultures of Copyright* Danielle Nicole DeVoss, Martine Courant Rife, 2015 The symbols, signs, and traces of copyright and related intellectual property laws that appear on everyday texts, objects, and artifacts have multiplied exponentially over the past 15 years. Digital spaces have revolutionized access to content and transformed the ways in which content is porous and malleable. In this volume, contributors focus on copyright as it relates to culture. The editors argue that what «counts» as property must be understood as shifting terrain deeply influenced by historical, economic, cultural, religious, and digital perspectives. Key themes addressed include issues of how: - Culture is framed, defined, and/or identified in conversations about intellectual property; - The humanities and other related disciplines are implicated in intellectual property issues; - The humanities will continue to rub up against copyright (e.g., issues of authorship, authorial agency, ownership of texts); - Different cultures and bodies of literature approach intellectual property, and how competing dynasties and marginalized voices exist beyond the dominant U.S. copyright paradigm. Offering a transnational and interdisciplinary perspective,

Cultures of Copyright offers readers - scholars, researchers, practitioners, theorists, and others - key considerations to contemplate in terms of how we understand copyright's past and how we chart its futures.
