The armies of the Black Lily and the vampire Crown have amassed and are on the brink of war. No romantic entanglements, no family. Mikhail Romanov, Captain of the Bloodguard, took a vow when he joined the Bloodguard. But he never planned for the gut-punching attraction he would feel for the untouchable princess. He must keep his focus, though. In order to avenge his family, it's essential he help Mina claim her crown and keep his damn hands off of her. But Mina sets her heart on the elusive captain, and keeping his focus on the great battle ahead becomes harder and harder. Hermeneutics and Science Márta Fehér,O. Kiss,L. Ropolyi,2013-04-17 Hermeneutics was elaborated as a specific art of understanding in humanities. The discovered paradigmatic, historical characteristics of scientific knowledge, and the role of rhetoric, interpretation and contextuality enabled us to use similar arguments in natural sciences too. In this way a new research field, the hermeneutics of science emerged based upon the works of Husserl, Merleau-Ponty, Heidegger and Gadamer. A dialogue between philosophers and scientists begins in this volume on hermeneutic approaches to physics, biology, ethology, mathematics and cognitive science. Scientific principles, methodologies, discourse, language, and metaphors are analyzed, as well as the role of the lay public and the legitimation of science. Different hermeneutical-phenomenological approaches to perception, experiments, methods, discovery and justification and the genesis of science are presented. Hermeneutics shed a new light on the incommensurability of paradigms, the possibility of translation and the

historical understanding of science.

The Black Lily Juliette Cross,2017-03-27 Every day, the threat of the Varis family grows stronger—especially to the humans they rule over. And with every minute that Arabelle spends doing chores for vain, entitled aristocrats, her resolve to overthrow the vampire monarchy increases. She is the leader of the underground resistance, The Black Lily. And she's waited long enough. Now is the perfect time to ignite the rebellion. The plan? Attend the vampire prince's blood ball. And kill him. Dagger in hand, Arabelle is caught off guard by the immediate spark she shares with Prince Marius. It doesn't help that he's listening to her and seems so kind and understanding. Arabelle is sworn to kill Marius at all costs, but what if Prince Charming is more than he appears to be? Because now he knows the truth...and she'll have to do whatever she can to save her people. The Red Lily Juliette Cross,2017-06-19 "There's no sophomore slump in this dark fairy tale adventure series! [...] Fans of Kelley Armstrong will find a similar blend of horror and legend, with a bonus romance." ~RT Book Reviews, Top Pick The Black Lily resistance needs a larger army if they are to defeat the vampire monarchy. In order to do so, former lieutenant and traitor to the vampire Crown, Nikolai must seek help from the red-hooded temptress he needs to avoid at all costs. The secret he carries could prove dangerous for her if she gets too close...even though keeping her close—very close—is the only thing on his mind. Sienna will do anything for the Black Lily, and when Nikolai asks for her assistance to gain the trust of the commonwealth, it's the last thing she wants to do. The thought of leaving her woods and her wolves behind is terrifying...not to mention the danger being with Nikolai poses. Glossolalia Deceased Andrei Bely, 2003 Andrei Bely was one of the most prolific poets, novelists, and theoreticians among the Russian Symbolists. Engaged throughout his life with the essence of language, his thoughts and findings emerge repeatedly in his essays and novels. None of his writings on the subject, however, are as remarkable and multi-faceted as this Poem about Sound. Glossolalia is a complex examination of philology, philosophy, esoterica, and poetry, all in search of the relationship between sound and sense. It reverberates with sound associations and transcends all boundaries of language, discipline, and tradition. It is simultaneously a treatise on the origins of language and the world's creation through the movements of sounds. Bely reenacts, through the mouth, the cosmology of Rudolf Steiner. Bely's work, in its bold attempt to invoke the living word, remains one of the most far-reaching poetic experiments of the twentieth Century, and this edition offers his fascinating text for the first time in both an English and a German translation, along with the original Russian version and an in-depth commentary by Thomas R. Beyer. Illustrated.

Intro to Alien Invasion Owen King, Mark Jude Poirier, 2015-09-15 In this wildly entertaining collaboration, novelists Owen King and Mark Jude Poirier team up with illustrator Nancy Ahn to present a wickedly funny graphic novel about an alien invasion on a college campus. Stacey, a brilliant, overachieving astrobiology major at Fenton College, had planned on just another lonely Spring Break on campus. But when a hurricane batters the small college town, downing power lines and knocking out cell phone reception, Stacey and her friends are stranded with no way to communicate with the outside world at the worst possible moment: in the midst of an alien invasion. As space insects begin to burrow into students and staff—transforming them into slobbering, babbling monsters—a conglomeration of misfits must band together to prevent the infestation from spreading. Meanwhile, Stacey's long-stifled romantic feelings for her friend Charlotte begin to surface, while the professor she had admired and respected becomes the students' worst enemy. Illustrated with enormous wit and dynamism—mixing classic tropes from science fiction, indie comics, B-movies, and campus culture—this graphic novel is something different, a large-scale action/adventure story as seen from the point-of-view of a contemporary, realistic heroine. The result is a funny and singular work unlike anything else you've ever read.

Cultural Techniques Jörg Dünne, Kathrin Fehringer, Kristina Kuhn, Wolfgang Struck, 2020-08-24 This volume presents the preliminary results of the work carried out by the interdisciplinary cultural techniques research lab at the University of

Erfurt. Taking up an impulse from media studies, its contributions examine —from a variety of disciplinary perspectives—the interplay between the formative processes of knowledge and action outlined within the conceptual framework of cultural techniques. Case studies in the fields of history, literary (and media) studies, and the history of science reconstruct seemingly fundamental demarcations such as nature and culture, the human and the nonhuman, and materiality and the symbolical order as the result of concrete practices and operations. These studies reveal that particularly basic operations of spatialization form the very conditions that determine emergence within any cultural order. Ranging from manual and philological paper work to practices of opening up and closing off spaces and collective techniques of assembly, these case studies replace the grand narratives of cultural history focusing on micrological examinations of specific constellations between human and nonhuman actors.
