The Moral Distress Syndrome Affecting Physicians Eldo Frezza, MD, MBA, FACS,2020-09-24 The rise of suicide and burnout among physicians has brought a new disease to the healthcare provider, which we previously thought only affected the soldier: moral distress syndrome, second only to moral injury. In this book we introduce the concept of moral distress syndrome, which includes any or all of the following: depression, PTSD, risk of suicide, divorce, emotional detachment, and the inability to build healthy relationships and empathy. While veterans can report to veteran hospitals for treatment, the physician cannot find treatment or support without fear of losing their license, their hospital privileges, and their job. Therefore, they are stuck dealing with the issue themselves, along with their family or their circle of friends. To raise decisive

awareness of the problems related to moral distress, we wrote this book. This book is designed around physicians talking to other physicians about their moral distresses in a safe space. It brings all the aspects of the moral distress syndrome in a format familiar to the physician: grand rounds with a magistral lecture, where the audience asks the question and directly participates on the subject. The reader will feel like part of the audience and may want to ask their own questions as the book progresses. The format of the book is divided into three parts. In the first part, the research, data, and a crude number of problems are given: moral distress syndrome, PTSD, burnout, suicide, divorce rates, emotional detachment, legal distress syndrome, physicians leaving medicine, and the feeling of being a hamster in a wheel. In the second part, we embellish on real life experiences of physicians to highlight the pain and depth of the moral distress they feel. We share stories around the character—their family, love life, divorce, etc.—to show the individual person behind the doctor. In the third part, we focus on society and physician suffering and the birth of moral distress. This part focuses on the physician's empathy as a way to point out his problems, weaknesses, and issues, and find possible solutions for him and other physicians facing the same issues. At the end of the third part, we discuss how it is the responsibility of physicians, patients, and society as a whole to heal in the face of moral injury, as recommended by the American Medical Association. We finish with the search for good friends and safe spaces, the cornerstones for the healing process. Structure of the Chapters. To make it easier to follow the material, at the beginning of each chapter we outline the points discussed, as a speaker outlines the material, summarizing it in the first slide of each topic. We hope that this way the readers can focus on the issues quickly throughout the book. This book is formatted as a business novel and therefore the characters and situations are drawn from liberally. As well as reading like a novel, the reader can read each chapter separately and still understand the points.

The contributors, all internationally recognised in the field, address developmental and acquired literacy difficulties and dyslexia in a range of language contexts including EAL/EFL. The book uses theories and analytical frameworks of a critical nature to reveal prejudicial social practices, and suggests future research directions towards a critical re-consideration of current understandings of dyslexia in multilingual settings, with a view to foregrounding the potential for interdisciplinarity. Teaching Young Adult Literature Today Judith A. Hayn, Jeffrey S. Kaplan, Karina R. Clemmons, 2016-11-02 Teaching Young Adult Literature Today introduces the reader to what is current and relevant in the plethora of good books available for adolescents. More importantly, literary experts illustrate how teachers everywhere can help their students become lifelong readers by simply introducing them to great reads—smart, insightful, and engaging books that are specifically written for adolescents. Hayn, Kaplan, and their contributors address a wide range of topics: how to avoid common obstacles to using YAL; selecting quality YAL for classrooms while balancing these with curriculum requirements; engaging disenfranchised readers; pairing YAL with technology as an innovative way to teach curriculum standards across all content areas. Contributors also discuss more theoretical subjects, such as the absence of lesbian, gay, bisexual, transgender and questioning (LGBTQ) young adult literature in secondary classrooms; and contemporary YAL that responds to the changing expectations of digital generation readers who want to blur the boundaries between page and screen. This book has been updated to reflect the wealth of new YA literature that has been published since the first edition appeared in March 2012, and to reflect new trends in technology that influences how adolescents are reading and responding to literature.

Personal Narratives of Teacher Knowledge Betty C. Eng, 2022-01-01 This book illustrates how the experiential histories of teachers shape and inform the knowledge of teachers as professionals. Situating personal experiences into the context of social, political, and economic events gives clarity to the intercultural dynamics of being Chinese and Western. What can we learn from each other to transform our teaching and learning? The book engages in a cross-cultural perspective that is highly relevant for teachers, teacher education, curriculum making and policy planning for a global community. The book is also an invitation to internationalize the classroom for teaching and learning in a diverse and global world, and to educators and policy makers to expand our understanding of cross-cultural complexities for an increasingly diversified and global community. By viewing the classroom through the multiple lens of different cultures, educators have an opportunity to cross over to see, experience, and understand how others live.
