María de las Carreras, Jan-Christopher Horak

Operetta Robert Ignatius Letellier, 2015-10-05 Operetta developed in the second half of the 19th century from the French opéra-comique and the more lighthearted German Singspiel. As the century progressed, the serious concerns of mainstream opera were sustained and intensified, leaving a gap between opéra-comique and vaudeville that necessitated a new type of stage work. Jacques Offenbach, son of a Cologne synagogue cantor, established himself in Paris with his series of opéras-bouffes. The popular success of this individual new form of entertainment light, humorous, satirical and also sentimental led to the emergence of operetta as a separate genre, an art form with its own special flavour and concerns, and no longer simply a little opera. Attempts to emulate Offenbach's success in France and abroad generated other national schools of operetta and helped to establish the genre internationally, in Spain, in England, and especially in Austria Hungary. Here it inspired works by Franz von Suppé and Johann Strauss II (the Golden Age), and later Franz Lehár and Emmerich Kálmán (the Silver Age). Viennese operetta flourished conterminously with the Habsburg Empire and the mystique of Vienna, but, after the First World War, an artistically vibrant Berlin assumed this leading position (with Paul Lincke, Leon Jessel and Edouard Künnecke). As popular musical tastes diverged more and more during the interwar years, with the advent of new influences—like those of cabaret, the revue, jazz, modern dance music and the cinema, as well as changing social mores—the operetta genre took on new guises. This was especially manifested in the musical comedy of London's West End and New York's Broadway, with their imitators generating a success that opened a new golden age for the reinvented genre, especially after the Second World War. This source book presents an overview of the operetta genre in all its forms. The first volume provides an introduction, a representative chronology of the genre from 1840 to 2013, and a survey of the national schools of France and Austria-Hungary. The principal composers are considered in chronological sequence, with biographical material and a list of stage works, selected synopses and some commentary.

Hollywood Goes Latin María de las Carreras,Jan-Christopher Horak,2019-05-01 In the 1920s, Los Angeles enjoyed a buoyant homegrown Spanish-language culture comprised of local and itinerant stock companies that produced zarzuelas, stage plays, and variety acts. After the introduction of sound films, Spanish-language cinema thrived in the city's downtown theatres, screening throughout the 1930s, 1940s, and 1950s in venues such as the Teatro Eléctrico, the California, the Roosevelt, the Mason, the Azteca, the Million Dollar, and the Mayan Theater, among others. With the emergence and growth of Mexican and Argentine sound cinema in the early to mid-1930s, downtown Los Angeles quickly became the undisputed capital of Latin American cinema culture in the United States. Meanwhile, the advent of talkies resulted in the Hollywood studios hiring local and international talent from Latin America and Spain for the production of films in Spanish. Parallel with these productions, a series of Spanish-language films were financed by independent producers. As a result, Los Angeles can be viewed as the most important hub in the United States for the production, distribution, and exhibition of films made in Spanish for Latin American audiences. In April 2017, the International Federation of Film Archives organized a symposium, Hollywood Goes Latin: Spanish-Language Cinema in Los Angeles, which brought together scholars and film archivists from all of Latin America, Spain, and the United States to discuss the many issues surrounding the creation of Hollywood's Cine Hispano. The papers presented in this two-day symposium are collected and revised here. This is a joint publication of FIAF and UCLA Film & Television Archive.

Sins of the Fathers Hilaire Kallendorf,2013-12-06 Sins of the Fathers considers sins as nodes of cultural anxiety and explores the tensions between competing organizational categories for moral thought and behaviours, namely the Seven Deadly Sins and the Ten Commandments. Hilaire Kallendorf explores the decline and rise of these organizational categories

against critical transformations of the early modern period, such as the accession of Spain to a position of world dominance and the arrival of a new courtly culture to replace an old warrior ethos. This ground-breaking study is the first to consider Spanish Golden Age comedias as an archive of moral knowledge. Kallendorf has examined over 800 of these plays to illustrate how they provide insight into aspects of early modern experience such as food, sex, work, and money. Finally, Kallendorf engages the theoretical terminology of Marxist literary criticism to demonstrate the inherent ambiguity of cultural change.
