**Beyond the Blackboard** Stacey Bess,2011-04-04 The book that may influence the direction of thought, action, and education necessary to meet the needs of today's complex society.

Nobody Don't Love Nobody Stacey Bess,1994 The children whose stories are told in Nobody Don't Love Nobody share one thing in common: they all live with their families in a homeless shelter's family dormitory, where they can stay for up to three months. And most of them attend classes at the School With No Name, a public school classroom at the shelter, where Stacey Bess is their teacher. Their stories do much to humanize the face of homelessness today and emphasize that the homeless are not simply a population of aimless or alcoholic, single men. But mostly these stories show how love and respect can change and empower a life. When the children are befriended by their teacher, their peers, an NBA all-star, and other members of the community who take the time to reach out, the children respond in kind with remarkable offerings of their own.

*Tales from Beyond the Brain* Jeff Szpirglas,2019-09-03 Imagine walking home from school one day and seeing a brain on the side of the road, a brain that, it turns out, is looking for a new home. Or instead of paying attention to the teacher, you shoot a paper airplane across the room and accidentally rip a hole in the fabric of the universe. And what would you do if you discovered that your class reading group was actually recruiting kids with telekinetic powers? Tales from Beyond the Brain is a collection of thirteen spooky stories that are as outrageous as they are terrifying. It's a throwback to the weird tales of yesteryear, in the vein of Tales from the Crypt and The Twilight Zone, but with contemporary characters and settings. Getting an education has never been more dangerous.

*Iqbal* Francesco D'Adamo,2010-05-11 When young Iqbal is sold into slavery at a carpet factory, his arrival changes everything for the other overworked and abused children there. It is Iqbal who explains to them that despite their master's promises, he plans on keeping them as his slaves indefinitely. But it is also Iqbal who inspires the other children to look to a future free from toil...and is brave enough to show them how to get there. This moving fictionalized account of the real Iqbal Masih is told through the voice of Fatima, a young Pakistani girl whose life is changed by Iqbal's courage.

*The Lincoln Highway* Amor Towles,2021-10-05 #1 NEW YORK TIMES BESTSELLER More than ONE MILLION copies sold A TODAY Show Read with Jenna Book Club Pick A New York Times Notable Book, and Chosen by Oprah Daily, Time,

NPR, The Washington Post, Bill Gates and Barack Obama as a Best Book of the Year “Wise and wildly entertaining . . . permeated with light, wit, youth.” —The New York Times Book Review “A classic that we will read for years to come.” —Jenna Bush Hager, Read with Jenna book club “Fantastic. Set in 1954, Towles uses the story of two brothers to show that our personal journeys are never as linear or predictable as we might hope.” —Bill Gates “A real joyride . . . elegantly constructed and compulsively readable.” —NPR The bestselling author of *A Gentleman in Moscow* and *Rules of Civility* and master of absorbing, sophisticated fiction returns with a stylish and propulsive novel set in 1950s America. In June, 1954, eighteen-year-old Emmett Watson is driven home to Nebraska by the warden of the juvenile work farm where he has just served fifteen months for involuntary manslaughter. His mother long gone, his father recently deceased, and the family farm foreclosed upon by the bank, Emmett's intention is to pick up his eight-year-old brother, Billy, and head to California where they can start their lives anew. But when the warden drives away, Emmett discovers that two friends from the work farm have hidden themselves in the trunk of the warden's car. Together, they have hatched an altogether different plan for Emmett's future, one that will take them all on a fateful journey in the opposite direction—to the City of New York. Spanning just ten days and told from multiple points of view, Towles's third novel will satisfy fans of his multi-layered literary styling while providing them an array of new and richly imagined settings, characters, and themes. “Once again, I was wowed by Towles’s writing—especially because *The Lincoln Highway* is so different from *A Gentleman in Moscow* in terms of setting, plot, and themes. Towles is not a one-trick pony. Like all the best storytellers, he has range. He takes inspiration from famous hero’s journeys, including *The Iliad*, *The Odyssey*, *Hamlet*, *Huckleberry Finn*, and *Of Mice and Men*. He seems to be saying that our personal journeys are never as linear or predictable as an interstate highway. But, he suggests, when something (or someone) tries to steer us off course, it is possible to take the wheel.” - Bill Gates

**Glow Kids** Nicholas Kardaras, 2016-08-09 We’ve all seen them: kids hypnotically staring at glowing screens in restaurants, in playgrounds and in friends' houses—and the numbers are growing. Like a virtual scourge, the illuminated glowing faces—the Glow Kids—are multiplying. But at what cost? Is this just a harmless indulgence or fad like some sort of digital hula-hoop? Some say that glowing screens might even be good for kids—a form of interactive educational tool. Don’t believe it. In *Glow Kids*, Dr. Nicholas Kardaras will examine how technology—more specifically, age-inappropriate screen tech, with all of its glowing ubiquity—has profoundly affected the brains of an entire generation. Brain imaging research is showing that stimulating glowing screens are as dopaminergic (dopamine activating) to the brain’s pleasure center as sex. And a growing mountain of clinical research correlates screen tech with disorders like ADHD, addiction, anxiety, depression, increased aggression, and even psychosis. Most shocking of all, recent brain imaging studies conclusively show that excessive screen exposure can neurologically damage a young person’s developing brain in the same way that cocaine addiction can. Kardaras will dive into the sociological, psychological, cultural, and economic factors involved in the global

tech epidemic with one major goal: to explore the effect all of our wonderful shiny new technology is having on kids. *Glow Kids* also includes an opt-out letter and a quiz for parents in the back of the book.

*The Blackboard Jungle* Evan Hunter, 2004-09-28 Written in 1954, this controversial story cracked down on the public school system and dramatized student violence as no other novel of its time. It also spawned the classic 1955 film that introduced the world to Sidney Poitier and rock-and-roll music. Now reissued for its 50th anniversary.

**Rock on Film** Fred Goodman, 2022-07-26 For rock music and film buffs alike, this is the ultimate guide exploring the electrifying, entertaining, and often daring marriage of rock & roll and cinema. When the use of Bill Haley's "Rock Around the Clock" turned 1955's *Blackboard Jungle* into a teen sensation and a box-office smash, it proved the opening shot in a cinematic and cultural revolution. Starting with Elvis Presley and the teenploitation films of the '50s and '60s, in *Rock on Film* award-winning author and former *Rolling Stone* editor Fred Goodman takes readers on a wide-ranging journey through film and pop history. Along the way, he measures the transformative impact of the mid-'60s landmarks *A Hard Day's Night* and *Dont Look Back* and how they seeded an almost unbelievably broad genre of films made by increasingly ambitious musicians and filmmakers across the past seven decades. From the carefree to the complex, the mindless to the mind-bending, rock films have staked out their own turf by simultaneously celebrating innocence and challenging artistic and social conventions. With an insightful round-up of fifty must-see rock films spanning crowd-pleasers, art-house favorites, underground gems, and undisputed classics, *Rock on Film* surveys the nearly seventy-year canon of a genre like no other. A series of original interviews with Cameron Crowe, Jim Jarmusch, Penelope Spheeris, Taylor Hackford, and John Waters illuminates how rock has influenced the work of some of the most divergent and thoughtful directors in movie history. Illustrated throughout by more than 150 full-color and black-and-white images, *Rock on Film* brings the history of music in the movies to vivid life.

**Shoeless Joe** W. P. Kinsella, 2014-01-09 The novel that inspired *Field of Dreams*: "A lyrical, seductive, and altogether winning concoction." —The New York Times Book Review One of *Sports Illustrated's* 100 Greatest Sports Books "If you build it, he will come." When Ray Kinsella hears these mysterious words spoken in the voice of an Iowa baseball announcer, he is inspired to carve a baseball diamond in his cornfield. It is a tribute to his hero, the legendary Shoeless Joe Jackson, whose reputation was forever tarnished by the scandalous 1919 World Series. What follows is a timeless story that is "not so much about baseball as it is about dreams, magic, life, and what is quintessentially American" (*The Philadelphia Inquirer*). "A triumph of hope." —The Boston Globe "A moonlit novel about baseball, dreams, family, the land, and literature." —*Sports Illustrated*

*A Mathematician's Lament* Paul Lockhart, 2009-04-01 "One of the best critiques of current mathematics education I have ever seen." —Keith Devlin, math columnist on NPR's Morning Edition A brilliant research mathematician who has devoted his

career to teaching kids reveals math to be creative and beautiful and rejects standard anxiety-producing teaching methods. Witty and accessible, Paul Lockhart's controversial approach will provoke spirited debate among educators and parents alike and it will alter the way we think about math forever. Paul Lockhart, has taught mathematics at Brown University and UC Santa Cruz. Since 2000, he has dedicated himself to K-12 level students at St. Ann's School in Brooklyn, New York.

*Sophie's World* Jostein Gaarder,2010-07-15 The international bestseller about life, the universe and everything. 'A simply wonderful, irresistible book' DAILY TELEGRAPH 'A terrifically entertaining and imaginative story wrapped round its tough, thought-provoking philosophical heart' DAILY MAIL 'Remarkable ... an extraordinary achievement' SUNDAY TIMES When 14-year-old Sophie encounters a mysterious mentor who introduces her to philosophy, mysteries deepen in her own life. Why does she keep getting postcards addressed to another girl? Who is the other girl? And who, for that matter, is Sophie herself? To solve the riddle, she uses her new knowledge of philosophy, but the truth is far stranger than she could have imagined. A phenomenal worldwide bestseller, SOPHIE'S WORLD sets out to draw teenagers into the world of Socrates, Descartes, Spinoza, Hegel and all the great philosophers. A brilliantly original and fascinating story with many twists and turns, it raises profound questions about the meaning of life and the origin of the universe.

**Dirt** David R. Montgomery,2007-05-14 Dirt, soil, call it what you want—it's everywhere we go. It is the root of our existence, supporting our feet, our farms, our cities. This fascinating yet disquieting book finds, however, that we are running out of dirt, and it's no laughing matter. An engaging natural and cultural history of soil that sweeps from ancient civilizations to modern times, *Dirt: The Erosion of Civilizations* explores the compelling idea that we are—and have long been—using up Earth's soil. Once bare of protective vegetation and exposed to wind and rain, cultivated soils erode bit by bit, slowly enough to be ignored in a single lifetime but fast enough over centuries to limit the lifespan of civilizations. A rich mix of history, archaeology and geology, *Dirt* traces the role of soil use and abuse in the history of Mesopotamia, Ancient Greece, the Roman Empire, China, European colonialism, Central America, and the American push westward. We see how soil has shaped us and we have shaped soil—as society after society has risen, prospered, and plowed through a natural endowment of fertile dirt. David R. Montgomery sees in the recent rise of organic and no-till farming the hope for a new agricultural revolution that might help us avoid the fate of previous civilizations.

*The Help* Kathryn Stockett,2009-07-23 \*\*\*The phenomenal international bestseller that inspired the Oscar-nominated film\*\*\* Enter a vanished and unjust world: Jackson, Mississippi, 1962. Where black maids raise white children, but aren't trusted not to steal the silver . . . There's Aibileen, raising her seventeenth white child and nursing the hurt caused by her own son's tragic death; Minny, whose cooking is nearly as sassy as her tongue; and white Miss Skeeter, home from College, who wants to know why her beloved maid has disappeared. Skeeter, Aibileen and Minny. No one would believe they'd be friends; fewer still would tolerate it. But as each woman finds the courage to cross boundaries, they come to depend and rely

upon one another. Each is in a search of a truth. And together they have an extraordinary story to tell... 'The other side of Gone with the Wind - and just as unputdownable' The Sunday Times 'A big, warm girlfriend of a book' The Times 'Harper Lee's classic novel To Kill a Mockingbird has changed lives. Its direct descendent The Help has the same potential . . . an astonishing feat of accomplishment' Daily Express

**Of Mice and Men** John Steinbeck,2018-11 Of Mice and Men es una novela escrita por el autor John Steinbeck. Publicado en 1937, cuenta la historia de George Milton y Lennie Small, dos trabajadores desplazados del rancho migratorio, que se mudan de un lugar a otro en California en busca de nuevas oportunidades de trabajo durante la Gran Depresión en los Estados Unidos.

*Drive* Daniel H. Pink,2011-04-05 The New York Times bestseller that gives readers a paradigm-shattering new way to think about motivation from the author of When: The Scientific Secrets of Perfect Timing Most people believe that the best way to motivate is with rewards like money—the carrot-and-stick approach. That's a mistake, says Daniel H. Pink (author of To Sell Is Human: The Surprising Truth About Motivating Others). In this provocative and persuasive new book, he asserts that the secret to high performance and satisfaction—at work, at school, and at home—is the deeply human need to direct our own lives, to learn and create new things, and to do better by ourselves and our world. Drawing on four decades of scientific research on human motivation, Pink exposes the mismatch between what science knows and what business does—and how that affects every aspect of life. He examines the three elements of true motivation—autonomy, mastery, and purpose—and offers smart and surprising techniques for putting these into action in a unique book that will change how we think and transform how we live.

Teaching History with Film Alan S. Marcus,Scott Alan Metzger,Richard J. Paxton,Jeremy D. Stoddard,2010-02-25 Offers a fresh overview of teaching with film to effectively enhance social studies instruction.

**The Experience Economy** B. Joseph Pine,James H. Gilmore,1999 This text seeks to raise the curtain on competitive pricing strategies and asserts that businesses often miss their best opportunity for providing consumers with what they want - an experience. It presents a strategy for companies to script and stage the experiences provided by their products.

**The Water Is Wide** Pat Conroy,2022-12-20 “A powerfully moving book . . . You will laugh, you will weep, you will be proud and you will rail.” —Charleston News and Courier Yamacraw Island was haunting, nearly deserted, and beautiful. Separated from the mainland of South Carolina by a wide tidal river, it was accessible only by boat. But for the handful of families that lived on Yamacraw, America was a world away. For years these families lived proudly from the sea until waste from industry destroyed the oyster beds essential to their very existence. Already poor, they knew they would have to face an uncertain future unless, somehow, they learned a new life. But they needed someone to teach them, and their rundown schoolhouse had no teacher. The Water Is Wide is Pat Conroy’s extraordinary memoir based on his experience as one of two

teachers in a two-room schoolhouse, working with children the world had pretty much forgotten. It was a year that changed his life, and one that introduced a group of poor Black children to a world they did not know existed. “A hell of a good story.” —The New York Times “[Pat] Conroy cuts through his experiences with a sharp edge of irony. . . . He brings emotion, writing talent and anger to his story.” —Baltimore Sun

*Reaching for the Stars* José M. Hernández, 2012-09-04 The book that inspired the new film *A Million Miles Away*. Born into a family of migrant workers, toiling in the fields by the age of six, Jose M. Hernández dreamed of traveling through the night skies on a rocket ship. *Reaching for the Stars* is the inspiring story of how he realized that dream, becoming the first Mexican-American astronaut. Hernández didn't speak English till he was 12, and his peers often joined gangs, or skipped school. And yet, by his twenties he was part of an elite team helping develop technology for the early detection of breast cancer. He was turned down by NASA eleven times on his long journey to donning that famous orange space suit. Hernández message of hard work, education, perseverance, of reaching for the stars, makes this a classic American autobiography.
