Hannibal Theodore Ayrault Dodge, 1891

Hannibal Theodore Ayrault Dodge, 1986

Hannibal Theodore Ayrault Dodge, 2012-08-04 Hannibal was one of the greatest military commanders in history. During the Second Punic War between Rome and Carthage, he led a ragtag army out of Iberia, on an epic march over the Pyrenees and Alps, and down into northern Italy. There he won three dramatic victories - at Trebia, Trasimene, and Cannae - and utterly humiliated the young Roman Republic. For the next fifteen years he continued to occupy parts of Italy, and inflicted many more stinging defeats on Roman armies, despite a chronic lack of supplies and support from Carthage. Theodore Ayrault Dodge's classic history of Hannibal was first published in 1891, as part of his "Great Captains" series. The author, an experienced military officer and historian, follows the great march of Hannibal's army, reconstructs all of his battles based on personal observation of the battlefields, and explains his lasting impact on the art of war. "Hannibal" remains unequalled as the most comprehensive and readable study of one of history's great generals. This ebook edition includes an active table of contents, reflowable text, and over 200 campaign maps, battle diagrams, and illustrations.

Cæsar; a History of the Art of War Among the Romans Down to the End of the Roman Empire ... Theodore Ayrauld Dodge,1892

History for Ready Reference Josephus Nelson Larned,1895

History for Ready Reference: Tunnage-Zyp and Supplement Josephus Nelson Larned,1895 This work has two aims : to represent and exhibit the better Literature of History in the English language, and to give it an organized body--a system--adapted to the greatest convenience in any use, whether for reference, or for reading, for teacher, student, or casual inquirer.--V. 1, Preface.

War Elephants John M. Kistler,2007-10-01 Elephants have fought in human armies for more than three thousand years. This is the largely forgotten tale of the credit they deserve and the sacrifices they endured.

The Ghosts of Cannae Robert L. O'Connell,2010-07-13 NATIONAL BESTSELLER For millennia, Carthage's triumph over Rome at Cannae in 216 B.C. has inspired reverence and awe. No general since has matched Hannibal's most unexpected, innovative, and brutal military victory. Now Robert L. O'Connell, one of the most admired names in military history, tells the whole story of Cannae for the first time, giving us a stirring account of this apocalyptic battle, its causes and consequences. O'Connell brilliantly conveys how Rome amassed a giant army to punish Carthage's masterful commander, how Hannibal outwitted enemies that outnumbered him, and how this disastrous pivot point in Rome's history ultimately led to the republic's resurgence and the creation of its empire. Piecing together decayed shreds of ancient reportage, the author paints powerful portraits of the leading players, from Hannibal—resolutely sane and uncannily strategic—to Scipio Africanus,

the self-promoting Roman military tribune. Finally, O'Connell reveals how Cannae's legend has inspired and haunted military leaders ever since, and the lessons it teaches for our own wars.

Roman Military Disasters Paul Chrystal, 2015-11-30 Over some 1200 years, the Romans proved adept at learning from military disaster and this was key to their eventual success and hegemony. *Roman Military Disasters* covers the most pivotal and decisive defeats, from the Celtic invasion of 390 BC to Alaric's sack of Rome in AD 410. Paul Chrystal details the politics and strategies leading to each conflict, how and why the Romans were defeated, the tactics employed, the generals and the casualties. However, the unique and crucial element of the book is its focus on the aftermath and consequences of defeat and how the lessons learnt enabled the Romans, usually, to bounce back and win.

Soldiers' Lives through History - The Ancient World Richard A. Gabriel, 2006-11-30 Once warfare became established in ancient civilizations, it's hard to find any other social institution that developed as quickly. In less than a thousand years, humans brought forth the sword, sling, dagger, mace, bronze and copper weapons, and fortified towns. The next thousand years saw the emergence of iron weapons, the chariot, the standing professional army, military academies, general staffs, military training, permanent arms industries, written texts on tactics, military procurement, logistics systems, conscription, and military pay. By 2,000 B.C.E., war was an important institution in almost all major cultures of the world. This book shows readers how soldiers were recruited, outfitted, how they fought, and how they were cared for when injured or when they died. It covers soldiers in major civilizations from about 4000 B.C.E. to about 450 C.E. Topics are discussed cross-culturally, drawing examples from several of the cultures, armies, and time periods within each chapter in order to provide the reader with as comprehensive an understanding as possible and to avoid the usual Western-centric perspective too common in analyses of ancient warfare.

Good Strategy/Bad Strategy Richard Rumelt, 2011-06-09 When Richard Rumelt's *Good Strategy/Bad Strategy* was published in 2011, it immediately struck a chord, calling out as bad strategy the mish-mash of pop culture, motivational slogans and business buzz speak so often and misleadingly masquerading as the real thing. Since then, his original and pragmatic ideas have won fans around the world and continue to help readers to recognise and avoid the elements of bad strategy and adopt good, action-oriented strategies that honestly acknowledge the challenges being faced and offer straightforward approaches to overcoming them. Strategy should not be equated with ambition, leadership, vision or planning; rather, it is coherent action backed by an argument. For Rumelt, the heart of good strategy is insight into the hidden power in any situation, and into an appropriate response - whether launching a new product, fighting a war or putting a man on the moon. Drawing on examples of the good and the bad from across all sectors and all ages, he shows how this

insight can be cultivated with a wide variety of tools that lead to better thinking and better strategy, strategy that cuts through the hype and gets results.

Hannibal Clifford Mills,2013 Hannibal Barca was an extraordinary military leader and political reformer in the ancient world. His Carthaginian army's march with elephants over the Alps to attack rival Rome in 218;BCE;is one of the most daring exploit.

Great Captains of Antiquity Richard A. Gabriel,2000-11-30 Gabriel expands upon the groundbreaking work of B. H. Lidell-Hart's *Great Captains* by offering detailed portraits of six great captains of the ancient world who met the challenges of their age and shaped the future of their societies, and civilization itself, through their actions. He analyzes the lives of Thutmose III of Egypt, Sargon II of Assyria, Philip II of Macedon, Hannibal of Carthage, Scipio Africanus of Republican Rome, and Caesar Augustus of Imperial Rome for the lessons contemporary leaders, particularly military leaders, can learn. While all were great military men, with the exception of Caesar Augustus, they were also great political leaders who, in this capacity more often than through their feats of arms, shaped their societies. All were educated men, and all possessed the quality of imaginative reasoning. A provocative analysis for scholars, students, and general readers of military history and the ancient world. Military personnel will find the parallels to current military organization and thinking particularly valuable.
