Claude sits next to him, and he wears all the right clothes, says all the right things, and garners all the praise from his teacher and classmates. Six Thinking Hats Edward De Bono,2009-11-05 The classic work about meetings and decision-making. Meetings are a crucial part of all our lives, but too often they go nowhere and waste valuable time. In Six Thinking Hats, Edward de Bono shows how meetings can be transformed to produce quick, decisive results every time. The Six Hats method is a devastatingly simple technique based on the brain's different modes of thinking. The intelligence, experience and information of everyone is harnessed to reach the right conclusions quickly. These principles have been adopted by businesses and governments around the world, ending conflict and confusion in favour of harmony and productivity. The Six Hats strategy will fundamentally change the way you work and interact. 'An inspiring man with brilliant ideas. De Bono never ceases to amaze with his clarity of thought.' Sir Richard Branson

Citizen Participation in Global Environmental Governance Richard Worthington,Mikko Rask,Lammi Minna,2013-11-12 On one day in 2009, in thirty-eight countries around the world, 4,000 ordinary citizens gathered to discuss the future of climate policy. This project, 'WWViews', was the first-ever global democratic deliberation - an attempt to enable ordinary people to reach informed decisions on and impact the global policy process. This book - which analyzes the experiences and lessons

from this ground-breaking event - marks the beginning of a new kind of democratic politics, providing practical lessons on how to increase the impact of global deliberation projects within the media and on official policy processes. The authors explore important themes for participatory approaches from the local to the global: the role of deliberation within global governance methodology and practice participant selection; policy impacts engaging the media how policy culture affects deliberation uptake capacity building and knowledge transfer process evaluation content and argumentation analysis gender, race and class aspects. The global aims of the 'WWViews project', along with the opportunity to evaluate the same process in different national and cultural contexts, makes this a hugely valuable and informative study for all those interested in democratic deliberation and environmental governance from the small to the international scale.
