**Game to the Last** James Hurst, 2005 This is a story about real Western Australian men - sons, brothers, husbands - who became soldiers in a bloody war on foreign soil. Their experiences are documented and retold with admiration and respect, and remind the reader of the human face of war.--Jacket.

Law and the Conditions of Freedom in the Nineteenth-century United States James Willard Hurst, 1956 In these essays J. Willard Hurst shows the correlation between the conception of individual freedom and the application of law in the nineteenth-century United States--how individuals sought to use law to increase both their personal freedom and their opportunities for personal growth. These essays in jurisprudence and legal history are also a contribution to the study of social and intellectual history in the United States, to political science, and to economics as it concerns the role of public policy in our economy. The nonlawyer will find in them demonstration of how technicalities express deep issues of social values.

*Singapore, Singapura* Nicholas Walton, 2019-02-01 Modern Singapore is a miracle. Half a century ago it unwillingly became an independent nation, after it was thrown out of the Malay Federation. It was tiny, poor, almost devoid of resources, and in a hostile neighborhood. Now, this unlikely country is at the top of almost every global national index, from high wealth and low crime to superb education and much-envied stability. But have these achievements bred a dangerous sense of complacency among Singapore's people? Nicholas Walton walked across the entire country in one day, to grasp what it was that made Singapore tick, and to understand the challenges that it now faces. Singapore, Singapura teases out the island's story, from mercantilist Raffles and British colonial rule, through the war years, to independence and the building of the current miracle. There are challenges ahead, from public complacency and the constraints of authoritarian democracy to changing geographic realities and the difficulties of balancing migration in such a tiny state. Singapore's second half-century will be just as exacting as the one since independence--as Walton warns, talk of a Singapore model for our hyper-globalized world must face these realities.

**The Red Star and the Crescent** James Reardon-Anderson, 2018-04-01 The Red Star and the Crescent provides an in-

depth and multi-disciplinary analysis of the evolving relationship between China and the Middle East. Despite its increasing importance, very few studies have examined this dynamic, deepening, and multi-faceted nexus. James Reardon- Anderson has sought to fill this critical gap. The volume examines the big picture of international relations, then zooms in on case studies and probes the underlying domestic factors on each side. Reardon- Anderson tackles topics as diverse as China's security strategy in the Middle East, its military relations with the states of the region, its role in the Iran nuclear negotiations, the Uyghur question, and the significance and consequences of the Silk Road strategy. A comprehensive study of the changing forces driving one of the world's most important strategic, economic and cultural relationships

**Rocks in His Head** Carol Otis Hurst, 2001-05-08 Some people collect stamps. Other people collect coins. Carol Otis Hurst's father collected rocks. Nobody ever thought his obsession would amount to anything. They said, You've got rocks in your head and There's no money in rocks. But year after year he kept on collecting, trading, displaying, and labeling his rocks. The Depression forced the family to sell their gas station and their house, but his interest in rocks never wavered. And in the end the science museum he had visited so often realized that a person with rocks in his head was just what was needed. Anyone who has ever felt a little out of step with the world will identify with this true story of a man who followed his heart and his passion.

*Lake Rescue* Annie Bryant, 2008-11-04 It's the seventh grade outdoor education trip to Lake Rescue! Adventure girl Charlotte's excited; city girls Katani and Isabel are not so sure. Of course, outdoor sports are right up Avery's alley, but bugs, snakes, and bears are so not up Maeve's. But no self-respecting BSG wants to miss out on adventures, and the week at Lake Rescue has more than its share: rock climbing, an unfortunate canoeing incident for a Queen of Mean, a hike that turns dangerous -- and the chance for one classmate to discover strengths she didn't know she had.

*Fannie* Brooke Kroeger, 1999 In the first half of the twentieth century, Fannie Hurst was known as much for the startling particulars of her extraordinary life as for writing stories that penetrated the human heart. Hers is the story of a Jewish girl from the Middle West turned dynamic celebrity author, the kid down the street who spoke her dreams out loud and then managed to fulfill every one of them. Her name was constant newspaper fodder. It appeared in reviews of her twenty-six books; in reports of her travels, her lifestyle (including the marriage she curiously chose to hide from her friends as well as the public), her diet, and her provocative public statements; and in her obituary, which was front-page news, even in *The New York Times*. With stories and novels such as *Humoresque*, *Back Street*, and *Imitation of Life*, Fannie Hurst reigned as the leading sob sister of American fiction in the 1920s and 1930s. Her name on the cover of a magazine was enough to sell out an issue. She wrote of immigrants and shopgirls, love, drama, and trauma, and in no time the title *World's Highest-Paid Short-Story Writer* attached itself to her name. Hollywood fattened her bank account, making her works into films thirty-one times in forty years. Fannie Hurst lent her prominence and pen to the day's significant socialist, liberal, humanitarian, and

feminist causes. She became a forceful supporter for the rights of African Americans, and was an early friend and literary advocate of Zora Neale Hurston and Dorothy West. As a pioneering crusader for women's advancement--she mounted the soapbox years before it was fashionable--she promoted economic self-sufficiency, equal opportunity, and Eleanor Roosevelt, whose frequent guest she was at the White House. Her life seems to have intersected with everyone of significance in her era, in science, the arts, the media, Hollywood, academia, and politics. In examining the life of this great, celebrated, and yet now nearly forgotten woman, Brooke Kroeger also explores the curious backslide in the progress of women in general from the Depression to the mid-1960s. This is a carefully drawn, extensively researched, and entertaining portrait of one of the most successful, glamorous, and forward-thinking women of the twentieth century.

The Necklace and Other Short Stories Maupassant Guy de, 2016-02-10 Opulence is sometimes deceiving "She removed the wraps from her shoulders before the glass, for a final view of herself in her glory. Suddenly she uttered a cry. Her necklace was not around..." - Guy de Maupassant, *The Necklace* Madame Mathilde Loisel is displeased: she cannot go to a fancy party because she doesn't have anything to wear. Her husband tries to help her and gives her money to buy a new dress. She insists she also needs jewels so she borrows a diamond necklace from her friend, Madame Jeanne Forestier. After the party, Mathilde realizes that she lost the stunning necklace. Out of the Mountains David Kilcullen, 2015-05-28 A leading expert on counterinsurgency and counterterrorism offers a comprehensive theory of competitive control that will apply to the future of conflict in a world of explosive population growth, increased urbanization, the movement of population centers to the coasts, and global connective networks.

*Hurst* Robin Crumby, 2016-04 An action-packed, disturbing and thought-provoking story of an all-too-possible dystopian future. - *The Book Reviewers* One of the most original and just flat out interesting and intelligently profound dystopian novels I've ever read. - *Indie Book Reviewers* What would you do to survive during an outbreak? Where would you go? Where would you be safe? At the end of the world, surrounded by the tidal waters of the Solent, the survivors of a pandemic flu virus hide behind the high walls of a Tudor fortress. Scraping a living far away from the smoking ruins of the cities, they wait in hope. *Hurst Castle* stands alone. Its seventy-four occupants united in a struggle for survival against all the odds. The Millennial Virus is the least of their concerns. When the arrival of outsiders threatens to tip the balance of power, the people of *Hurst*

are faced with a desperate choice: set aside their differences and join an alliance that promises new hope or unite against the newcomers and their plans for reconstruction. Who can be trusted? Only time will tell. The battle for Hurst has begun. If you enjoy fast-paced, post-apocalyptic stories such as *The Day of the Triffids*, *The Road*, *Station Eleven*, *The Stand*, and *The Atlantis Plague*, you'll love *The Hurst Chronicles* series.

**It was Never about a Hot Dog and a Coke!** Rodney L. Hurst,2008 On August 27, 1960, more than 200 whites with ax handles and baseball bats attacked members of the Jacksonville Youth Council NAACP in downtown Jacksonville who were sitting in at white lunch counters protesting racism and segregation. Referred to as Ax Handle Saturday, It was never about a hot dog and a Coke chronicles the racial and political climate of Jacksonville, Florida in the late fifties, the events leading up to that infamous day, and the aftermath.

Profit Magic of Stock Transaction Timing J. M. Hurst,2000-03-01

Made in China Jasper Becker,2021-07-01 The coronavirus pandemic started in Wuhan, home to the leading lab studying the SARS virus and bats. Was that pure coincidence? This book explores what we know, and still don't know, about the origins of COVID-19, and how it was handled in China. We may never get all the answers, but much is already clear: China's record as the origin of earlier pandemics, and its struggle to bring contagious diseases under control; its history as both a victim of biological warfare and a developer of deadly bioweapons. When Covid broke out, Wuhan was building science parks

to realise Beijing's ambitions in biotech research. Whoever achieves global leadership of the gene-editing industry stands to harvest great power and wealth. China has already challenged Western technological supremacy with 5G and in other industries. Yet this tiny, invisible virus has cruelly exposed a critical flaw in the Chinese political system: obsessive secrecy. The West wanted to trust the PRC, hoping that, as it prospered, it would become an open society. Made in China reveals how Beijing's leaders have betrayed that trust.

**Saving Lives and Staying Alive** Michael Neuman, Fabrice Weissman, 2016 Much like the large commercial companies, most humanitarian aid organizations now have departments specifically dedicated to protecting the security of their personnel and assets. The management of humanitarian security has gradually become the business of professionals who develop data collection systems, standardized procedures, norms, and training meant to prevent and manage risks. A large majority of aid agencies and security experts see these developments as inevitable - all the more so because of quantitative studies and media reports concluding that the dangers to which aid workers are today exposed are completely unprecedented. Yet, this trend towards professionalization is also raising questions within aid organizations, MSF included. Can insecurity be measured by scientific means and managed through norms and protocols? How does the professionalization of security affect the balance of power between field and headquarters, volunteers and the institution that employs them? What is its impact on the implementation of humanitarian organizations' social mission? Are there alternatives to the prevailing security model(s) derived from the corporate world? Building on MSF's experience and observations of the aid world by academics and practitioners, the authors of this book look at the drivers of the professionalization of humanitarian security and its impact on humanitarian practices, with a specific focus on Syria, CAR and kidnapping in the Caucasus.
