**Lingjun Ying**

**Alexandria and Alexandrianism** J. Paul Getty Museum,1996-09-26 One of the great seats of learning and repositories of knowledge in the ancient world, Alexandria, and the great school of thought to which it gave its name, made a vital contribution to the development of intellectual and cultural heritage in the Occidental world. This book brings together twenty papers delivered at a symposium held at the J. Paul Getty Museum on the subject of Alexandria and Alexandrianism. Subjects range from “The Library of Alexandria and Ancient Egyptian Learning” and “Alexander’s Alexandria” to “Alexandria and the Origins of Baroque Architecture.” With nearly two hundred illustrations, this handsome volume presents some of the world’s leading scholars on the continuing influence and fascination of this great city. The distinguished contributors include Peter Green, R. R. R. Smith, and the late Bernard Bothmer.

**Greek Words and Hebrew Meanings** David Hill,1967

*Leviticus 23-27* Jacob Milgrom,2001 Leviticus was to early Israel what the Constitution was to the fledgeling United States. In *Leviticus 23-27* world-class Bible scholar and rabbi Jacob Milgrom shows us what the law means and how it defines those who adhere to it.

*The Unity of Plato's Sophist* Noburu Notomi,1999-04-15 Plato's later dialogue, the *Sophist*, is deemed one of the greatest works in the history of philosophy, but scholars have been shy of confronting the central problem of the dialogue. For Plato, defining the sophist is the basic philosophical problem: any inquirer must face the 'sophist within us' in order to secure the very possibility of dialogue, and of philosophy, against sophistic counterattack. Examining the connection between the large and difficult philosophical issues discussed in the *Sophist* (appearance, image, falsehood, and 'what is not') in relation to the basic problem of defining the sophist, Dr Notomi shows how Plato struggles with and solves all these problems in a single line of inquiry. His interpretation of the whole dialogue finally reveals how the philosopher should differ from the sophist.

**Theology and Church** Walter Kasper,1989 This new collection of essays by West Germany's most distinguished Roman Catholic theologian covers the two broad areas indicated in the title.The first half discusses the Christian understanding of God; the place of Christianity in the modern world; the modern sense of freedom and history and the theological definition of human rights; christology and anthropology; and the possibilities of a new spiritual christology in a trinitarian setting.The second half discusses various aspects of the church: as universal sacrament of salvation; as the place of truth and as

communion. Two final studies examine the continuing challenge of the Second Vatican Council and the fundamental form and meaning of the eucharist. An extended introduction considers systematic theology today and the tasks which confront it.

Divine Epiphany in Greek Literature and Culture Georgia Petridou, 2016-01-28 In ancient Greece, epiphanies were embedded in cultural production, and employed by the socio-political elite in both perpetuating pre-existing power-structures and constructing new ones. This volume is the first comprehensive survey of the history of divine epiphany as presented in the literary and epigraphic narratives of the Greek-speaking world. It demonstrates that divine epiphanies not only reveal what the Greeks thought about their gods; they tell us just as much about the preoccupations, the preconceptions, and the assumptions of ancient Greek religion and culture. In doing so, it explores the deities who were prone to epiphany and the contexts in which they manifested themselves, as well as the functions (narratives and situational) they served, addressing the cultural specificity of divine morphology and mortal-immortal interaction. *Divine Epiphany in Greek Literature and Culture* re-establishes epiphany as a crucial mode in Greek religious thought and practice, underlines its centrality in Greek cultural production, and foregrounds its impact on both the political and the societal organization of the ancient Greeks.

*Umm Al-Biyara* Piotr Bienkowski, 2011 Umm al-Biyara, the highest mountain in Petra, southern Jordan, was the first Iron Age Edomite site to be extensively excavated. It was a domestic, unwallled site of stone-built longhouses dating to the 7th-6th centuries BCE. The stratigraphy, pottery, small finds and inscribed material, including the important bulla of Qos-Gabr, King of Edom are described, supplemented by chapters on the use of space and a landscape study of mountain-top sites in the Petra region. The later Nabataean remains on the edge of the summit indicate a major Nabataean complex of buildings, possibly a palace, which would make this the first Nabataean palace in Petra to be explicitly identified.

**Spiegel Historiael** Jacob (Van Maerlant),

**The Races of the Old Testament** Archibald Henry Sayce, 1891 *The Races of the Old Testament* by Archibald Henry Sayce, first published in 1891, is a rare manuscript, the original residing in one of the great libraries of the world. This book is a reproduction of that original, which has been scanned and cleaned by state-of-the-art publishing tools for better readability and enhanced appreciation. Restoration Editors' mission is to bring long out of print manuscripts back to life. Some smudges, annotations or unclear text may still exist, due to permanent damage to the original work. We believe the literary significance of the text justifies offering this reproduction, allowing a new generation to appreciate it.

**A Papyrus of the Late Middle Kingdom in the Brooklyn Museum, (Papyrus Brooklyn 35.1446)** William Christopher Hayes, 1972

**The Parthenon** Jenifer Neils, 2005-09-05 Provides an overview of a classical monument interjected with the discoveries of modern scholarship.

**Artificial Africas** Ruth Mayer, 2002 A groundbreaking investigation of Western conceptions of Africa.

Bernardino Telesio and the Natural Sciences in the Renaissance ,2019-07-08 This volume is devoted to the natural philosopher Bernardino Telesio (1509-1588) and his place in the scientific debates of the Renaissance. Telesio's thought is emblematic of Renaissance culture in its aspiration towards universality; the volume deals with the roots and reception of his vistas from an interdisciplinary perspective ranging from the history of philosophy to that of physics, astronomy, meteorology, medicine, and psychology. The editor, Pietro Daniel Omodeo and leading specialists of intellectual history introduce Telesio's conceptions to English-speaking historians of science through a series of studies, which aim to foster our understanding of a crucial early modern author, his world, achievement, networks, and influence. Contributors are Roberto Bondi, Arianna Borrelli, Rodolfo Garau, Giulia Giannini, Miguel Ángel Granada, Hiro Hirai, Martin Mulsow, Elio Nenci, Pietro Daniel Omodeo, Nuccio Ordine, Alessandro Ottaviani, Jürgen Renn, Riccarda Suitner, and Oreste Trabucco.
