Lliçons de dret romà José María Espinosa Isach, Enrique Gómez Royo, 2011-11-28 Selecció didàctica que recull els temes més rellevants de la disciplina enquadrats en el seu context històric i cultural. Des dels 'arcana iuris', els orígens més foscos del Dret, els 'mores maiorum' i en el context d'una societat essencialment agrària es genera un interessant itinerari de caràcter dinàmic, que s'exposa al llarg de les successives lliçons, en les quals la tècnica de combinar la història política amb l'econòmica i la jurídica possibilita fer un seguiment de l'evolució de les institucions jurídiques degudament contextualitzades i acoblades al progrés de la història de Roma. Les fonts emprades han estat preses de les traduccions que els romanistes espanyols han realitzat de les obres clàssiques, del Digest, de les Novel·les, de les Institucions de Gai i de les antologies de fonts romanes.

*Materials se Dret Constitucional; Principis constitucionals basics i organs constitucionals* Mercè Barceló i Serramalera, Fernando (coordinadors) Domínguez García, 2007 Materials de Dret Constitucional. Principis constitucionals bàsics i òrgans constitucionals és el primer volum d'una sèrie de publicacions que serveixen per preparar el programa de Dret Constitucional com a assignatura que s'imparteix a diverses llicenciatures i diplomatures i que és present en els temaris d'oposicions de les administracions públiques. Cadascun dels dotze temes en què es divideix aquest primer volum s'estructura en set apartats. Els quatre primers ofereixen els fonaments teòrics de la lliçó corresponent: l'«Esquema» assenyala quina és l'estructura bàsica i quins són els aspectes més importants que cal conèixer. Les «Eines jurídiques» aporten informació sobre les fonts bibliogràfiques de cada tema i, si escau, sobre la normativa, la jurisprudència i els recursos electrònics de suport. S'indiquen, en tercer lloc, els «Objectius didàctics», i en les «Paraules clau» es defineixen els conceptes teòrics bàsics. Els tres darrers apartats proposen al lector una participació activa en la preparació del temari: els «Temes de debat» pretenen conduir a una reflexió més enllà dels objectius didàctics propis del tema, les «Preguntes d'elecció múltiple» constitueixen una eina per a l'autoavaluació, i els «Materials complementaris» són lectures de consolidació i ampliació dels coneixements adquirits. *Contemporary Majority Nationalism* Alain Gagnon, Geneviève Nootens, André Lecours, 2011 For many years nationalism has been associated with political demands by minority nations that challenge the rights of the central state. However, over the last two decades many works have challenged this perspective, arguing that nationalism - as a political phenomenon - is likely to emerge among both majority and minority nations. In light of a renewed interest in the study of national Contemporary Majority Nationalism brings together a group of major scholars committed to making sense of this widespread phenomenon. To better illustrate the reality of majority nationalism and the way it has been expressed, authors combine analytical and comparative perspectives. In the first section, contributors highlight the paradox of majority nationalism and the ways in which collective identities become national identities. The second section offers in-depth case study analyses of France, the United Kingdom, Spain, Canada, and the United States. This book is an international project led by three members of the Research Group on Plurinational Societies based at Université du Québec à Montréal.

**Catalan Nationalism** Montserrat Guibernau, 2004-07-31 Catalan Nationalism offers a fresh socio-political analysis of Catalan nationalism during the Franco regime (1939-1975) and the Spanish transition to democracy.

*Disremembering the Dictatorship*, 2021-08-04 Most accounts of the Spanish transition to democracy have been celebratory exercises at the service of a stabilizing rather than a critical project of far-reaching reform. As one of the essays in this volume puts it, the "pact of oblivion," which characterized the Spanish transition to democracy, curtailed any serious attempt to address the legacies of authoritarianism that the new democracy inherited from the Franco era. As a result, those legacies pervaded public discourse even in newly created organs of opinion. As another contributor argues, the Transition was based on the erasure of memory and the invention of a new political tradition. On the other hand, memory and its etiolation have been an object of reflection for a number of film directors and fiction writers, who have probed the return of the repressed under spectral conditions. Above all, this book strives to present memory as a performative exercise of democratic agents and an open field for encounters with different, possibly divergent, and necessarily fragmented

recollections. The pact of the Transition could not entirely disguise the naturalization of a society made of winners and losers, nor could it ensure the consolidation of amnesia by political agents and by the tools that create hegemony by shaping opinion. Spanish society is haunted by the specters of a past it has tried to surmount by denying it. It seems unlikely that it can rid itself of its ghosts without in the process undermining the democracy it sought to legitimate through the erasure of memories and the drowning of witnesses' voices in the cacaphony of triumphant modernization.

Lliçons sobre història i dret a Kant Salvio Turró,1997 Aquest treball té origen en un curs impartit a la Facultat de Filosofia de la Universitat de Barcelona l'any 1994-95 en ocasió del bicentenari de La pau perpètua. El fet de conservar-ne la forma de lliçons obeeix a la versatilitat d'aquest gènere literari, que permet combinar els resultats de la recerca amb els suggeriments de l'assaig sense renunciar a un cert caràcter de compendi.

La Constitución chilena Jaime Bassa Mercado,Juan Carlos Ferrada Bórquez,Christian Viera Álvarez, La práctica política que ha caracterizado a la institucionalidad chilena en las últimas décadas da cuenta de que el déficit de legitimidad democrática que aqueja a la Constitución va mucho más allá de su génesis, llegando a afectar la legitimidad de las propias instituciones políticas. En razón de lo anterior, el presente libro pretende ser una contribución al proceso de discusión constitucional, por cuanto entrega una revisión crítica al funcionamiento de las principales instituciones constitucionales. Esta revisión se formula desde el texto fundamental vigente, pero haciendo especial referencia a la práctica política que se observa en la realidad. Desde esa perspectiva, la obra supone un aporte interesante a la vez que novedoso, por cuanto socializa un análisis técnico, realizado por especialistas, en un lenguaje llano y accesible.

L'esperit en la història, és un individu, de natura universal, però un individu determinat, es a dir, un poble en general; i l'esperit amb què hem de tenir tracte és l'esperit del poble. (G.W.F. Asimetría federal y estado plurinacional Enric Fossas, Ferran Requejo Coll, 1999 Este libro ofrece una panorámica de la discusión actual sobre la organización política federal en tres sociedades democráticas de carácter plurinacional: Canadá, Bélgica y España. El eje de la obra lo constituye la 'asimetría federal', un concepto que en nuestro país ha sido objeto de un renovado interés político y académico en los últimos años. Las contribuciones de los diversos autores acercan al lector en lengua española al debate sobre el federalismo plurinacional desde una perspectiva comparada y pluridisciplinar. Se trata de un debate que, en última instancia, plantea las grandes cuestiones de la revisión conceptual y práctica de las democracias liberales de este final de siglo: la igualdad política y la ciudadanía; la neutralidad cultural del estado; los nacionalismos en la época de la globalización; la representación democrática en sociedades no homogéneas; el constitucionalismo en la era de la diversidad; la inevitable dimensión colectiva de algunos derechos individuales; y, por supuesto, la adaptación del federalismo a un mundo mucho más complejo que el de su origen.

**The Logic of Legal Requirements** Jordi Ferrer Beltrán, Giovanni Battista Ratti, 2012-09-13 Does the law contain implicit exceptions to its own rules? If so, what consequence does that have for understanding the relationship between law and morality? This collection gathers leading legal philosophers to analyse the logical structure of legal norms, advancing the understanding of the general philosophy of law.

*Debating Civil-Military Relations in Latin America* David R Mares, Rafael Martinez, 2013-09-01 The study of civil-military relations in Latin America produced a rich debate and research agenda prior to 2000. But this agenda was largely abandoned during the past decade as the spectre of military dictatorship has virtually disappeared, with the political role of the military in many countries dramatically diminished. Indeed, in no country that has initiated a process of holding the military accountable to civilian control has the military openly rebelled. Yet, the institutions and public attitudes that guarantee democratic civilian control of the military exist in a general context of political polarisation, citizen insecurity and in many countries a sense of developing ungovernability. The military coup in Honduras (2009), the military response to the police rebellion in Ecuador (2010), and the speculation concerning the Venezuelan military's behaviour in the event that Hugo Chavez is incapacitated or dies (2013), demonstrates the relevance and importance of the civil-military relationship today. In this volume leading scholars from Latin America, the U.S. and Spain debate the ability of contemporary Latin American civil-military relationships to weather these challenges. The authors examine new types of regimes (the rise of participatory democracy), new political orientations (the renaissance of the Left in Latin America), and new missions for the military. Debate centres on the indicators to evaluate the level of consolidation of civilian control, the manner in which these

indicators are measured, and the empirical ambiguities that arise. These challenges must be confronted in order to effectively address the question of how much progress has been made in the region in subordinating the military to civilian control, which countries are lagging behind, and why. Published in association with CILAS, University of California, San Diego.

*Soldiers, Politicians, and Civilians* David Pion-Berlin, Rafael Martínez, 2017-07-31 Are interactions between soldiers, politicians, and civilians improving? Every nation has to come to grips with achieving a more enduring harmony between government, the armed forces, and society if it aspires to strengthen its democracy. While there is an abundance of studies on civil-military affairs, few examine all three of these actors, let alone establish any standards with which to assess whether progress is being made. This ambitious book devises a novel framework equipped with six dimensions, each of which opens a unique window into civil-military affairs, and which form a more integrated view of the subject. Those dimensions are accompanied by a set of benchmarks and metrics that assess progress and compare one country against another. The framework is applied to case studies of Argentina, Brazil, Chile, and Uruguay, with the conviction that insights could be gleaned that may be relevant elsewhere. Ultimately, by unpacking the civil-military relation into its various dimensions, this study has shed light on what it takes to transform what was once a politically-minded military into an organization dedicated to serving a democratic state and society.
