Building with Straw Bales Barbara Jones,2009 Straw bale building is a radically different approach to the process of building. Like all innovative ideas, it has been pioneered by the passionate, and used experimentally by those with the vision to see its potential. It is firmly based in that sustainable, 'green building' culture that has brought to the construction industry many new and useful ideas about energy efficiency and responsibility towards the environment. As a building material, straw excels in the areas of cost-effectiveness and energy efficiency. This practical guide has been written by the most experienced straw bale builder in the UK. It gives details of all the main construction methods, and includes: * bale specifications * plans * walls and foundations * doors and windows * plastering * building regulations and planning permission * frequently asked questions * construction drawings. This fully revised and updated edition includes new construction drawings, standard details for best practice design, examples of off-the-peg drawings for small buildings such as summer-houses and studios, and designs for affordable houses. These designs meet Building Regulations Code 6 for sustainable homes, and have a carbon rating of less than zero.

The Doctrine of Awakening Julius Evola,2018-07-13 In a probing analysis of the oldest Buddhist texts, Julius Evola places the doctrine of liberation in its original context. The early teachings, he suggests, offer the foremost example of an active spirituality that is opposed to the more passive, modern forms of theistic religions. This sophisticated, highly readable analysis of the theory and practice of Buddhist asceticism, first published in Italian in 1943 , elucidates the central truths of the eightfold path and clears away the later accretions of Buddhist doctrine. Evola describes the techniques for conscious

liberation from the world of maya and for achieving the state of transcendence beyond dualistic thinking. Most surprisingly, he argues that the widespread belief in reincarnation is not an original Buddhist tenet. Evola presents actual practices of concentration and visualization, and places them in the larger metaphysical context of the Buddhist model of mind and universe. The Doctrine of the Awakening is a provocative study of the teachings of the Buddha by one of Europe's most stimulating thinkers.

The Philosophy Of Natural Magic Henry Cornelius Agrippa,2023-01-31 Mr. Henry Morley, an eminent English scholar, in his Life of Cornelius Agrippa, makes these tributary statements: He secured the best honors attainable in art and arms; was acquainted with eight languages, being the master of six. His natural bent had been from early youth to a consideration of Divine Mysteries. To learn these and teach them to others had been at all times his chief ambition. He is distinguished among the learned for his cultivation of Occult Philosophy, upon which he has written a complete work...

Roots of the Human Condition Frithjof Schuon,2002 Applies the principle of universal and perennial metaphysics to spiritual and moral life.

Traditional Forms and Cosmic Cycles René Guénon,2003 René Guénon (1886-1951) is undoubtedly one of the luminaries of the twentieth century, whose critique of the modern world has stood fast against the shifting sands of recent philosophies. His oeuvre of 26 volumes is providential for the modern seeker: pointing ceaselessly to the perennial wisdom found in past cultures ranging from the Shamanistic to the Indian and Chinese, the Hellenic and Judaic, the Christian and Islamic, and including also Alchemy, Hermeticism, and other esoteric currents, at the same time it directs the reader to the deepest level of religious praxis, emphasizing the need for affiliation with a revealed tradition even while acknowledging the final identity of all spiritual paths as they approach the summit of spiritual realization. Traditional Forms and Cosmic Cycles is a wide-ranging collection of articles that could just as well have been called Fragments of an Unknown History. Although they must remain fragments, as Guénon did not return to many of these themes again, it would have been regrettable to leave such fascinating articles buried in old journals, and so this posthumous collection is now offered to Anglophone readers for the first time. The book opens with the key article 'The Doctrine of Cosmic Cycles', followed by two pieces on Atlantis and Hyperborea. Two sections follow, concerned respectively with the Hebrew Tradition and the Egyptian Tradition. The former comprises five articles concerned primarily with the Kabbalah and the Science of Numbers, and the latter includes three articles on Hermes and the Hermetic Tradition. Book reviews are inserted at relevant points. To lend the collection coherence, no other spiritual Traditions are here represented. A list of the Collected Writings of René Guénon has been

provided for those who wish to investigate Guénon's metaphysical expositions on such topics as Christianity, Islam, the Greco-Latin Traditions, Celtism, etc.

A Discovrse of Fire and Salt Blaise de Vigenère,2019-12-03 Blaise de Vigenère's 'A Discovrse of Fire and Salt' is a captivating exploration of the elements of fire and salt as symbolic representations within early modern literature. Through a series of eloquently written essays, Vigenère delves into the symbolic meanings and cultural significance of fire and salt, drawing on literary works from the Renaissance period to shed light on their complex associations. His writing style is rich in imagery and metaphor, reminiscent of the allegorical tradition popular during his time. This book provides valuable insights into the way these elements were used by writers as powerful symbols to convey deeper truths about humanity and the world. Vigenère's meticulous analysis and scholarly approach make 'A Discovrse of Fire and Salt' a must-read for those interested in literary symbolism and early modern literature. Drawing on his own experiences and knowledge of the literary trends of his time, Vigenère brings a unique perspective to the study of fire and salt in literature, making this book a valuable contribution to the field.

The Bow and the Club Julius Evola,2018-02-19 'The Bow and the Club' stands in many ways as the culmination of an exceptional life of deep study, meditation, and experience. This volume, first published in 1968, includes Evola's final and most concentrated statements on some of the great themes of his career.

Logic and Transcendence Frithjof Schuon,2009 Frithjof Schuon (1907-1998), the author of more than 25 books on religion and spirituality, is the foremost representative of the Perennialist or Traditionalist school of comparative religious thought. This new edition of *Logic and Transcendence*, his most important philosophical work, is a fully revised translation from the French original and contains: an extensive new appendix of previously unpublished selections from Schuon's letters and other private writings; comprehensive editor's notes by James S. Cutsinger; a new glossary of foreign terms and phrases, and an index. Book jacket.

The Yellow Emperor's Classic of Internal Medicine ,2015-12-15 The Yellow Emperor's Classic of Internal Medicine has become a landmark in the history of Chinese civilization. Written in the form of a dialogue in which the emperor seeks information from his minister Ch'I-Po on questions of health and the art of healing, it is the oldest known document in Chinese medicine. Ilza Veith's extensive introduction and monumental translation, first published in 1949, make available the historical and philosophical foundations of traditional practices that have seen a dynamic revival in China and throughout the West. A new foreword by Linda L. Barnes places the translation in its historic contexts, underlining its significance to the Western world's understanding of Chinese medical practice.

The Transfiguration of Man Frithjof Schuon,1995 Schuon proposes a view of man contradictory to the image of modern psychology; he views human nature in relationship to God.

Cultivating Ch'i Kaibara Ekiken, 2013-04-09 Discover a different side of Japanese swordsmanship through this fascinating treatise by a samurai doctor on how to maintain a healthy mind, body, and spiritual life. Samurai are best known for taking life—but here is a samurai doctor's prescription for how to preserve life, and to make yours a long and healthy one. Unlike other samurai of his time, the samurai Kaibara Ekiken (1630–1714) was concerned less with swordsmanship than with how to maintain and nurture the healthy mind and body upon which martial techniques and philosophy depended. While serving as the chief medical doctor and healer to the Kuroda clan, he came to a holistic view of how the physical, mental, and spiritual lives of his patients were connected. Drawing from his medical practice, the principles of traditional Chinese medicine, and his life experience, Ekiken created this text as a guide to sustaining health and stamina from youth to old age. Ekiken's advice regarding moderation, food and drink, sleep, sexual activity, bathing, and therapeutic practices is still amazingly intuitive and appropriate nearly three hundred years after this book was written.

The Religion of the Samurai Kaiten Nukariya, 2022-11-13 The Religion of the Samurai is a study of Zen philosophy in China and Japan. Exploring the relationship between Zen Buddhism and Samurais and the whole Bushido philosophy the author builds up the difference between Himayanism and Mahayanism, with the different approaches they have as a whole. The book highlights the parallels between a Zen Monk and a Samurai warrior revealing the different understanding of Buddhism in China and Japan.
