An Express of the Future Michel Verne,2016-10-01 Though originally attributed to his father, Jules Verne, due to an error on the part of the publisher, the short tale An Express of the Future was actually penned by Jules Verne's often-estranged son, Michel. The story is remarkable in its prescient description of future technologies, such as pneumatic tubes.

A Brief Eternity Pascal Bruckner,2021-02-03 There is one fundamental thing that has changed in our societies since 1950: life has got longer. Over the last few generations, 20 or 30 years have been added to the duration of our lives. But after the age of 50, human beings experience a kind of suspension: no longer young, not really old, they are, as it were, weightless. It is a reprieve that leaves life open like a swinging door. The increase in life expectancy is a tremendous step forward that upsets everything: relations between generations, patterns of family life, the very meaning of our identity and our destiny. This reprieve is both exciting and frightening. The deadlines are getting shorter, the possibilities are shrinking, but there are still discoveries, surprises and upsetting love affairs. Time has become a paradoxical ally: instead of killing us, it carries us forward. What to do with this ambiguous gift? Is it only a question of living longer or living more intensely? To continue along the same path or to branch out and start again? What about remarriage, a new career? How to avoid the weariness of living,

the melancholy of the twilight years, how to get through great joys and great pains? Nourished by both reflections and statistics, drawing on the sources of literature, the arts and history, this book proposes a philosophy of longevity based not on resignation but on resolution. In short, an art of living this life to the full. Is there not a profound joy in being alive at the age when our ancestors already had one foot in the grave? This book is dedicated to all those who dream of a new spring in the autumn of life, and want to put off winter as long as they can.

Memoirs of a Peasant Boy Xosé Neira Vilas, 2006-01-18 Balbino, a boy from a village, a nobody who writes a notebook about everything that happens to him within the repressed and stifling society of Galicia in the thirties and forties. He tells of the moral and social atmosphere that prevails asking and answering questions and details the most elemental social struggle. There is also however the story of a true but impossible love. This book was first printed in Argentina in 1961 and became one of the most successful Galician books published. It has a lyrical style that immediately evokes sights and sounds of this part of Spain. The author Xos Neira Vilas writes from his experiences of the era and the lifestyle of boys growing up in that society and provides a rich insight to life of the peasant boy Balbino.

Italy and the West S. J. Keay, Nicola Terrenato, 2001 Nineteen papers examining varied responses to Romanization, and how this affects our view of the development of the Roman Empire. The traditional view of Romanization is as the triumph of a superior and more advanced culture over primitive communities, brought about by military expansion and resulting in the creation of a uniform political and cultural entity. It is only in the last twenty years that the variety of responses that Romanization elicited among the various ethnic groups, social classes, genders, spheres, and even within the same person in different conjunctures of his or her life, has begun to be appreciated. The aim of this collection of papers is to further understanding of Romanization at a formative stage; early Roman expansion in Italy. There is much evidence for bi-directional negotiation between Italian communities and Rome. Understanding the motivation of the Italian peoples to become part of a new political entity is crucial to knowing how Roman Italy was kept together for more than half a millennium. Seven papers also examine responses to Romanization in other parts of the Empire.
