Greek Medical Papyri Nicola Reggiani, 2019-09-23 The volume collects papers presented at the International Conference Greek Medical Papyri - Text, Context, Hypertext held at the University of Parma on November 2-4, 2016, as the final event of the ERC project DIGMEDTEXT, aimed primarily at creating an online textual database of the Greek papyri dealing with medicine. The contributions, authored by outstanding papyrologists and historians of the ancient medicine, deal with a variety of topics focused on the papyrological evidence of ancient medical texts and contexts. The first part, devoted to medical texts, contains some new reflections on important sources such as the Anonymus Londinensis and the Hippocratic corpus, as well as on specific themes like the pharmacological vocabulary, the official medical reports, the medical care in the Roman army. The second part collects papers about the doctors' context, providing highlights from broader viewpoints like the analysis of the writing supports, the study of the ostraka from the Eastern Desert, the evidence of inscriptions and philosophical texts. The third part is entirely focused on the DIGMEDTEXT project itself: the team members present some relevant key issues raised by the digitisation of the medical papyri.

*The Politics of Migration in Italy* Pietro Castelli Gattinara, 2016-04-14 Migration represents one of the key issues in both Italian and European politics, and it has triggered EU-wide debates and negotiations, alongside alarmist and often sensationalist news reporting on the activities of government, party and social movement actors. The Politics of Migration in Italy explores what happens when previously undiscussed issues become central to political agendas and are publicly debated in the mass media. Examining how political actors engage with the issue of migration in electoral campaigning, this book highlights how complex policy issues are addressed selectively by political entrepreneurs and how the responses of

political actors are influenced by strategic incentives and ongoing events. This book studies the dynamics of the politicization of the immigration issue across three local contexts in Italy - Prato, Milan and Rome - which differ systematically with respect to crucial economic, cultural and security dimensions of immigration. Offering an innovative exploration of party competition and migration in Italy, as well as providing the conceptual and analytical tools to understand how these dynamics play out beyond the Italian case, this book is essential reading for students, scholars and policymakers working in the areas of migration studies, agenda-setting and European politics more generally.

**Dialogues on architecture** Emilio Faroldi, Maria Pilar Vettori, 2022-01-20 The dialogue, as “the talking of the soul with itself” that constitutes the act of thinking (Plato), has been selected as the ideal form through which to vividly and accurately convey the thinking of a number of protagonists of Italian modern architecture. Knowledge remains a latent legacy of the soul until a given stimulus reawakens its memory: architecture, more than sophia (wisdom), becomes philo-sophia, i.e. love of knowledge. A reading of the architectural phenomenon aimed at faithfully bringing out its complexity cannot help but involve the stories directly told by the protagonists, and the micro-stories of individual episodes, in order to explore the relationship that exists between the poetic and the technical-scientific spheres, underlining their complementary and conflictual nature. The disciplinary tools of exegesis of design and its materialization stimulate a form of critique of criticism driven by the rejection of an angle of interpretation of architecture oriented exclusively towards its results. Method and result constitute the inseparable terms: the direct testimony of certain protagonists of Italian architecture makes it possible to reconnect the interrupted threads of a narrative that has often been rendered syncopated and unilateral by excessively superficial explanation. The Dialogues on Architecture explore the interaction between idea, design and construction, revealing different operative and conceptual modes through which to achieve the finished work. Franco Albini, Lodovico B. Belgiojoso, Guido Canella, Aurelio Cortesi, Roberto Gabetti & Aimaro Isola, Ignazio Gardella, Vittorio Gregotti, Vico Magistretti, Enrico Mantero, Paolo Portoghesi, Aldo Rossi, Giuseppe Terragni, Vittoriano Viganò are the authors of this narrative.

**THE POEM OF HASHISH** Charles Baudelaire, Aleister Crowley, 2017-12-06 The Poem of Hashish (1821) by Charles Pierre Baudelaire was first published in 1850. This is the Aleister Crowley translation of 1895. Charles Baudelaire was an early precursor to the French symbolist movement of the late nineteenth century. The literary movement was a reaction to realism and placed a lot of emphasis on the power of dreams and the imagination as tools for communicating ideals through symbols. Synaesthesia was one of the great tools of the symbolists and Baudelaire wrote of hashish: By gradations, external objects assume unique appearances in the endless combining and transfiguring of forms. Ideas are distorted; perceptions are confused. Sounds are clothed in colors and colors in music. Baudelaire utilised the dream as the symbolic ground of the drug

experience. Charles Baudelaire (1821 - 1867) was a French poet who produced notable work as an essayist, art critic, and pioneering translator of Edgar Allan Poe. His most famous work, *Les Fleurs du mal* (The Flowers of Evil), expresses the changing nature of beauty in modern, industrializing Paris during the 19th century. Baudelaire's highly original style of prose-poetry influenced a whole generation of poets including Paul Verlaine, Arthur Rimbaud and Stéphane Mallarmé among many others. He is credited with coining the term modernity to designate the fleeting, ephemeral experience of life in an urban metropolis, and the responsibility art has to capture that experience.

*Cuttlefish Bones* Eugenio Montale, 1994 Eugenio Montale's epoch-making first book, *Cuttlefish Bones* (1925), has been hailed as one of the truly important works of poetry in the twentieth century. At once an earned poetic manifesto and spiritual autobiography, its dialogue between self and others, hope and despair, is sustained with absolute musical mastery and that simplicity-in-complexity that marks only the greatest poetry. -- W.W. Norton & Company.

*The Italian Renaissance State* Andrea Gamberini, Isabella Lazzarini, 2014-11-06 This magisterial study proposes a revised and innovative view of the political history of Renaissance Italy. Drawing on comparative examples from across the peninsula and the kingdoms of Sicily, Sardinia and Corsica, an international team of leading scholars highlights the complexity and variety of the Italian world from the fourteenth to early sixteenth centuries, surveying the mosaic of kingdoms, principalities, signorie and republics against a backdrop of wider political themes common to all types of state in the period. The authors address the contentious problem of the apparent weakness of the Italian Renaissance political system. By repositioning the Renaissance as a political, rather than simply an artistic and cultural phenomenon, they identify the period as a pivotal moment in the history of the state, in which political languages, practices and tools, together with political and governmental institutions, became vital to the evolution of a modern European political identity.

*The Greeks* Paul Cartledge, 1993 Who were the Classical Greeks? This book provides an original and challenging answer by exploring how Greeks (adult, male, citizen) defined themselves in opposition to a whole series of others (non-Greeks, women, slaves, non-citizens, and gods) as presented by supposedly objective historians of the time such as Herodotus, Thucydides, and Xenophon. Cartledge looks at the achievements and legacy of the Greeks - history, democracy, philosophy

and theatre - and the mental and material contexts of these inventions which are often deeply alien to our own way of thinking and acting. This new edition contains an updated bibliography, a new chapter entitled Entr'acte: Others in Images and Images of Others, and a new afterword.
