When Novels Were Books Jordan Alexander Stein, 2020-01-07 A literary scholar explains how eighteenth-century novels were manufactured, sold, bought, owned, collected, and read alongside Protestant religious texts. As the novel developed into a mature genre, it had to distinguish itself from these similar-looking books and become what we now call "literature." Literary scholars have explained the rise of the Anglophone novel using a range of tools, from Ian Watt's theories to James Watt's inventions. Contrary to established narratives, *When Novels Were Books* reveals that the genre beloved of so many

readers today was not born secular, national, middle-class, or female. For the first three centuries of their history, novels came into readers' hands primarily as printed sheets ordered into a codex bound along one edge between boards or paper wrappers. Consequently, they shared some formal features of other codices, such as almanacs and Protestant religious books produced by the same printers. Novels are often mistakenly credited for developing a formal feature ("character") that was in fact incubated in religious books. The novel did not emerge all at once: it had to differentiate itself from the goods with which it was in competition. Though it was written for sequential reading, the early novel's main technology for dissemination was the codex, a platform designed for random access. This peculiar circumstance led to the genre's insistence on continuous, cover-to-cover reading even as the "media platform" it used encouraged readers to dip in and out at will and read discontinuously. Jordan Alexander Stein traces this tangled history, showing how the physical format of the book shaped the stories that were fit to print.

The Thirteen Hallows Michael Scott, Colette Freedman, 2011-12-06 From New York Times bestselling author Michael Scott and award-winning playwright Colette Freedman, *The Thirteen Hallows* is the beginning of a spellbinding new saga, a thrilling tale of ancient magic and modern times. The Hallows. Ancient artifacts imbued with a primal and deadly power. But are they protectors of this world, or the keys to its destruction? A gruesome murder in London reveals a sinister plot to uncover a two-thousand-year-old secret. For decades, the Keepers guarded these Hallows, keeping them safe and hidden and apart from each other. But now the Keepers are being brutally murdered, their prizes stolen, the ancient objects bathed in their blood. Now, only a few remain. With her dying breath, one of the Keepers convinces Sarah Miller, a practical stranger, to deliver her Hallow—a broken sword with devastating powers—to her American nephew, Owen. The duo quickly become suspects in a series of murders as they are chased by both the police and the sadistic Dark Man and his nubile mistress. As Sarah and Owen search for the surviving Keepers, they unravel the deadly secret the Keepers were charged to protect. The mystery leads Sarah and Owen on a cat-and-mouse chase through England and Wales, and history itself, as they discover that the sword may be the only thing standing between the world... and a horror beyond imagining. Enchantée Gita Trelease, 2019-02-07 A compellingly beautiful tale of magic, intrigue and deception, set against the backdrop of eighteenth-century Paris on the cusp of revolution. Paris in 1789 is a labyrinth of twisted streets, filled with beggars, thieves, revolutionaries – and magicians . . . When seventeen-year-old Camille is left orphaned, she has to provide for her frail sister and her volatile brother. In desperation, she survives by using the petty magic she learnt from her mother. But when her brother disappears Camille decides to pursue a richer, more dangerous mark: the glittering court of Louis XVI and Marie Antoinette. Using dark magic Camille transforms herself into the ‘Baroness de la Fontaine’ and presents herself at the court of Versailles, where she soon finds herself swept up in a dizzying life of riches, finery and suitors. But Camille’s resentment of the rich is at odds with the allure of their glamour and excess, and she soon discovers that she’s not the only one leading a double life . . . *Enchantée* is a compelling historical fantasy and is Gita Trelease's debut novel.

The Case for Trump Victor Davis Hanson, 2024-08-06 A New York Times bestseller and “a brilliant and bracing analysis” (Mark R. Levin) of Donald Trump, his presidency, and his vision of America’s future—now updated for 2024 In *The Case for Trump*, award-winning historian and political commentator Victor Davis Hanson explains how a celebrity businessman with no political or military experience triumphed over sixteen well-qualified Republican rivals, a Democrat with a quarter-billion-dollar war chest, and a hostile media and Washington establishment to become an extremely successful president. Trump alone saw a political opportunity in defending the working people of America’s interior whom the coastal elite of both parties had come to scorn, Hanson argues. And Trump alone had the instincts and energy to pursue this opening

to victory, dismantle a corrupt old order, and bring long-overdue policy changes at home and abroad. After decades of drift, America needed the outsider Trump to do what normal politicians would not and could not do. Now updated for the 2024 election with a comprehensive new introduction, this is the essential book on what Donald Trump means for America.

Mothers and Others Sarah Blaffer Hrdy,2011-04-15 Sarah Hrdy argues that if human babies were to survive in a world of scarce resources, they would need to be cared for, not only by their mothers but also by siblings, aunts, fathers, friends—and, with any luck, grandmothers. Out of this complicated and contingent form of childrearing, says Hrdy, came the human capacity for understanding others.

Maybe the Moon Armistead Maupin,2009-10-13 *Maybe the Moon*, Armistead Maupin's first novel since ending his bestselling *Tales of the City* series, is the audaciously original chronicle of Cadence Roth -- Hollywood actress, singer, iconoclast and former Guinness Book record holder as the world's shortest woman. All of 31 inches tall, Cady is a true survivor in a town where -- as she says -- you can die of encouragement. Her early starring role as a lovable elf in an immensely popular American film proved a major disappointment, since moviegoers never saw the face behind the stifling rubber suit she was required to wear. Now, after a decade of hollow promises from the Industry, she is reduced to performing at birthday parties and bat mitzvahs as she waits for the miracle that will finally make her a star. In a series of mordantly funny journal entries, Maupin tracks his spunky heroine across the saffron-hazed wasteland of Los Angeles -- from her all-too-infrequent meetings with agents and studio moguls to her regular harrowing encounters with small children, large dogs and human ignorance. Then one day a lanky piano player saunters into Cady's life, unleashing heady new emotions, and she finds herself going for broke, shooting the moon with a scheme so harebrained and daring that it just might succeed. Her accomplice in the venture is her best friend, Jeff, a gay waiter who sees Cady's struggle for visibility as a natural extension of his own war against the Hollywood Closet. As clear-eyed as it is charming, *Maybe the Moon* is a modern parable about the mythology of the movies and the toll it exacts from its participants on both sides of the screen. It is a work that speaks to the resilience of the human spirit from a perspective rarely found in literature.
