**On Military Memoirs** L.H.E. (Esmeralda) Kleinreesink, 2016-10-11  
Winner of the Caforio prize for the best book in armed forces and civil-military relations published between 2015 and 2016  
In *On Military Memoirs* Esmeralda Kleinreesink offers insight into military books: who were their writers and publishers, what were their plots, and what motives did their authors have for writing them. Every Afghanistan war autobiography published in the US, the UK, Germany, Canada, and the Netherlands between 2001 and 2010 is compared quantitatively and qualitatively. *On Military Memoirs* shows that soldier-authors are a special breed; that self-published books still cater to different markets than traditionally published ones; that cultural differences are clearly visible between warrior nations and non-warrior nations; that not every contemporary memoir is a disillusionment story; and that writing is serious business for soldiers wanting to change the world. The book provides an innovative example of how to use interdisciplinary, mixed-method, cross-cultural research to analyse egodocuments.

*The Puppet Show Of Memory* Maurice Baring, 2014-09-29

Myth and Mentality Anna-Leena Siikala,2002-05-15 The recent fascination in Finnish folklore studies with popular thought and the values and emotions encoded in oral tradition began with the realisation that the vast collections of the Finnish folklore archives still have much to offer the modern-day researcher. These archive materials were not only collected by scholars, but also by the ordinary rural populace interested in their own traditions, by performers and their audiences. With its myriad voices, this body of source material thus provides new avenues for the researcher seeking to penetrate popular thought. What does oral tradition tell us about the way its performers think and feel? What sorts of beliefs and ideas are transmitted in traditional songs and narratives? Perspectives from the study of mentalities and cultural cognition research provide a framework for investigating these issues. This collection of articles works from the premise that the cultural models which shape mentalities give rise to manifest expressions of culture, including folklore. These models also become embedded in the representations appearing in folklore, and are handed down from one generation to the next. The topics of the book cover age-old myths and world views, concepts of witchcraft and the Devil stretching back to the Middle Ages, and the values and collective emotions of Finnish and Hungarian agrarian communities.

Many of them have never before been published in English. **The Time Traveler's Wife** Audrey Niffenegger,2014-10-02 This extraordinary, magical first novel is the story of Clare, a beautiful art student, and Henry, a librarian, who have known each other since Clare was six and Henry was thirty-six, and were married when Clare was twenty-two and Henry thirty. Impossible but true, because Henry is one of the first people diagnosed with Chrono-Displacement Disorder: periodically his genetic clock resets and he finds himself misplaced in time, pulled to moments of emotional gravity in his life, past and future. His disappearances are spontaneous, his experiences unpredictable, alternately harrowing and amusing. *The Time Traveler's Wife* depicts the effects of time travel on Henry and Clare's marriage and their passionate love for each other as the story unfolds from both points of view. Clare and Henry attempt to live normal lives, pursuing familiar goals - steady jobs, good friends, children of their own. All of this is threatened by something they can neither prevent nor control, making their story intensely moving and entirely unforgettable.
