Improving Adult Literacy Instruction National Research Council, Division of Behavioral and Social Sciences and Education, Committee on Learning Sciences: Foundations and Applications to Adolescent and Adult Literacy, 2012-04-26 A high level of literacy in both print and digital media is required for negotiating most aspects of 21st-century life, including supporting a family, education, health, civic participation, and competitiveness in the global economy. Yet, more than 90 million U.S. adults lack adequate literacy. Furthermore, only 38 percent of U.S. 12th graders are at or above proficient in reading. *Improving Adult Literacy Instruction* synthesizes the research on literacy and learning to improve literacy instruction in the United States and to recommend a more systemic approach to research, practice, and policy. The book focuses on individuals ages 16 and older who are not in K-12 education. It identifies factors that affect literacy development in adolescence and adulthood in general, and examines their implications for strengthening literacy instruction for this population. It also discusses technologies for learning that can assist with multiple aspects of teaching, assessment, and accommodations for learning. There is inadequate knowledge about effective instructional practices and a need for better assessment and ongoing monitoring of adult students' proficiencies, weaknesses, instructional environments, and progress, which might guide instructional planning. *Improving Adult Literacy Instruction* recommends a program of research and innovation to validate, identify the boundaries of, and extend current knowledge to improve instruction for adults and adolescents outside school. The book is a valuable resource for curriculum developers, federal agencies such as the Department of Education, administrators, educators, and funding agencies.

Learning, Marginalization, and Improving the Quality of Education in Low-income Countries Daniel A. Wagner, Nathan M. Castillo, Suzanne Grant Lewis, 2022-02-21 Improving learning evidence and outcomes for those most in need in developing countries is at the heart of the United Nations' Sustainable Development Goal on Education (SDG4). This timely volume brings together contributions on current empirical research and analysis of emerging trends that focus on improving the quality of education through better policy and practice, particularly for those who need improved 'learning at the bottom of the pyramid' (LBOP). This volume brings together academic research experts, government officials and field-based practitioners. National and global experts present multiple broad thematic papers - ranging from the effects of migration and improving teaching to the potential of educational technologies, and better metrics for understanding and

financing education. In addition, local experts, practitioners and policymakers describe their own work on LBOP issues being undertaken in Kenya, India, Mexico and Ivory Coast. The contributors argue persuasively that learning equity is a moral imperative, but also one that will have educational, economic and social impacts. They further outline how achieving SDG4 will take renewed and persistent effort by stakeholders to use better measurement tools to promote learning achievement among poor and marginalized children. This volume builds on the second international conference on Learning at the Bottom of the Pyramid (LBOP2).* It will be an indispensable resource for policymakers, researchers and government thinktanks, and local experts, as well as any readers interested in the implementation of learning equity across the globe. *The first volume Learning at the Bottom of the Pyramid (LBOP1), may be obtained at:

The Education System in Malawi World Bank,2010-02-25 'The Education System in Malawi', an Education Country Status Report (CSR), is a detailed analysis of the current status of the education sector in Malawi, the results of which have been validated by the government of Malawi. Its main purpose is to enable decision makers to orient national policy on the basis of a factual diagnosis of the overall education sector and to provide relevant analytical information for the dialogue between the government and development partners. The analysis incorporates data and information from multiple sources, such as school administrative surveys by the Ministry of Education, household surveys, and a tracer survey created especially for this study. This CSR, developed by a multi-ministerial national team supported by UNESCO P le de Dakar, the World Bank, and GTZ specialists, updates the previous one drawn up in 2003 and consists of eight chapters, including a chapter on higher education. The analysis provides key monitoring and evaluation inputs for the overall education sector, particularly under the framework of the implementation of the National Education Sector Plan.

Hepato-Pancreato-Biliary and Transplant Surgery Quyen D Chu,2018-01-08 This unique textbook provides a concise and practical approach to clinical dilemmas involving the liver, pancreas, and biliary tree. Six major sections encompass (1) Hepatic, (2) Biliary, (3) Pancreas, (4) Transplantation, (5) Trauma, and (6) Innovative Technology. Each topic is written by recognized experts from an e;experientiale; viewpoint combined with evidence-based medicine. The book contains over 170 chapters and over 350 contributors. It is relevant to Surgical Oncologists, Hepato-Pancreato-Biliary (HPB) Surgeons, Transplant Surgeons, Traumatologists, HPB Interventionalists, General Surgeons, and trainees and students. The title of each chapter is in a form of a clinical scenario and each chapter begins with a Case Scenario and ends with Salient Points. Special debates are included in each section. There are numerous compelling images, detailed illustrations, comprehensive tables, thorough algorithms, and other adjunctive tools that enhance learning. The authors emanate from different corners of the world. The book is a valuable resource for faculty, students, surgical trainees, fellows, and all health care providers in the HPB/Trauma/Transplant/Oncology fields.

Teacher Evaluation Anthony J. Shinkfield, D.L. Stufflebeam, 1995-11-30 *Teacher Evaluation: Guide to Professional Practice* is organized around four dominant, interrelated core issues: professional standards, a guide to applying the Joint Committee's Standards, ten alternative models for the evaluation of teacher performance, and an analysis of these selected models. The book draws heavily on research and development conducted by the Federally funded national Center for Research on Educational Accountability and Teacher Evaluation (CREATE). The reader will come to grasp the essence of sound teacher evaluation and will be able to apply its principles, facts, ideas, processes, and procedures. Finally, the book invites and assists school professionals and other readers to examine the latest developments in teacher evaluation.

Flow Cytometry Protocols Teresa S. Hawley, Robert G. Hawley, 2024-03-25 This fifth edition volume expands on the previous editions by presenting readers with the latest developments and emerging methodologies in cytometry. The chapters in this book cover cytometry basics such as lasers for cytometry, metrics that can be used to evaluate spillover spreading, and the process of panel design and iterative optimization for spectral flow cytometry; novel methodologies such as image-enabled cell sorting, co-staining of fluorochrome-conjugated and oligonucleotide-conjugated antibodies, and screening for cell type selective probes; and a look at the achievements made in the clinical setting for both flow and mass cytometry. Written in the highly successful *Methods in Molecular Biology* series format, chapters include introductions to their respective topics, lists of the necessary materials and reagents, readily reproducible step-by-step laboratory protocols,

and tips on troubleshooting and avoiding known pitfalls. Cutting-edge and comprehensive, *Flow Cytometry Protocols, Fifth Edition* is a valuable resource for researchers and scientists who are interested in continuing or expanding their knowledge of this developing field.

ACS Style Guide Anne M. Coghill, Lorrin R. Garson, 2006 In the time since the second edition of *The ACS Style Guide* was published, the rapid growth of electronic communication has dramatically changed the scientific, technical, and medical (STM) publication world. This dynamic mode of dissemination is enabling scientists, engineers, and medical practitioners all over the world to obtain and transmit information quickly and easily. An essential constant in this changing environment is the requirement that information remain accurate, clear, unambiguous, and ethically sound. This extensive revision of *The ACS Style Guide* thoroughly examines electronic tools now available to assist STM writers in preparing manuscripts and communicating with publishers. Valuable updates include discussions of markup languages, citation of electronic sources, online submission of manuscripts, and preparation of figures, tables, and structures. In keeping current with the changing environment, this edition also contains references to many resources on the internet. With this wealth of new information, *The ACS Style Guide's Third Edition* continues its long tradition of providing invaluable insight on ethics in scientific communication, the editorial process, copyright, conventions in chemistry, grammar, punctuation, spelling, and writing style for any STM author, reviewer, or editor. The Third Edition is the definitive source for all information needed to write, review, submit, and edit scholarly and scientific manuscripts.

Liberia International Monetary Fund. African Dept., 2021-01-08 *The Pro-Poor Agenda for Prosperity and Development 2018 to 2023 (PAPD)* is the second in the series of 5-year National Development Plans (NDP) anticipated under the Liberia Vision 2030 framework. It follows the *Agenda for Transformation 2012-2017 (AfT)*. It is informed as well by lessons learned from the implementation of the *Interim Poverty Reduction Strategy 2007 (iPRS)* and the *Poverty Reduction Strategy (2008-2011)*. The fundamentals underpinning the PAPD are: i) Liberia is rich in human and natural resources; but ii) is deprived of development largely because its human capital lacks the knowledge to transform the natural resources into wealth—whether through farming, mining, fishing, or other productive ventures that require technology or financial investments. Consequently, Liberia is relatively rich in natural capital but relatively poor in relations to its peers in both human and produced capital. Moreover, because of a legacy of entrenched inequality in access to development opportunities, widespread infrastructure deficits and pervasive poverty have become the binding constraints to future growth and prosperity.

Facing Forward Sajitha Bashir, Marlaine Lockheed, Elizabeth Ninan, Jee-Peng Tan, 2018-09-20 *Facing Forward* lays out a range of policy and implementation actions that are needed for countries in Sub-Saharan Africa to meet the challenge of improving learning while expanding access and completion of basic education for all. The book underscores the importance

of aligning the education system to be relentlessly focused on learning outcomes and to ensuring that all children have access to good schools, good learning materials, and good teachers. It is unique in characterizing countries according to the challenges they faced in the 1990s and the educational progress they have made over the past 25 years, allowing countries in the region to learn from each other. The authors review the global literature and add to it by their extensive new analyses of multiple datasets from more than three dozen countries in the region; they integrate findings about what affects children's learning, their access to schooling, and progress through basic education. The book draws lessons from the region and for the region about what works and what is needed to better implement what is known to have worked. The book examines four areas to help countries better align their systems to improve learning: (1) completing the unfinished agenda of reaching universal basic education with quality, (2) ensuring effective management and support of teachers, (3) targeting spending priorities and budget processes on improving quality, and (4) closing the institutional capacity gap. It concludes with an assessment of how future educational progress may be affected by projected fertility rates and economic growth.

Strengthening Inclusive Education Asian Development Bank, 2010-06-01 Inclusive education addresses the diverse learning needs of all kinds of learners. It reaches out to excluded groups and goes beyond providing physical access to learning institutions to encompass academic and instructional access to learning concepts. This report clearly presents the development of inclusive education and provides a rationale for strengthening it. The report identifies the various forms of exclusion from education and stresses the patterns of exclusion by subsector and by subregion in Asia and the Pacific. It serves two main purposes: as a strategic and operational guide for the Asian Development Bank and its education sector staff in strengthening inclusive education projects in developing member countries; and as an informative resource for education ministries, institutions, and other stakeholders of education in the region.

Thermoelectric Energy Conversion Diana Davila Pineda, Alireza Rezaniakolaei, 2017-09-12 The latest volume in the well-established AMN series, this ready reference provides an up-to-date, self-contained summary of recent developments in the technologies and systems for thermoelectricity. Following an initial chapter that introduces the fundamentals and principles of thermoelectricity, subsequent chapters discuss the synthesis and integration of various bulk thermoelectric as well as nanostructured materials. The book then goes on to discuss characterization techniques, including various light and mechanic microscopy techniques, while also summarizing applications for thermoelectric materials, such as micro- and nano-thermoelectric generators, wearable electronics and energy conversion devices. The result is a bridge between industry and scientific researchers seeking to develop thermoelectric generators.

Green Chemistry in the Pharmaceutical Industry Peter J. Dunn, Andrew Wells, Michael T. Williams, 2010-02-02 Edited by three of the world's leading pharmaceutical scientists, this is the first book on this important and hot topic, containing much previously unpublished information. As such, it covers all aspects of green chemistry in the pharmaceutical industry,

from simple molecules to complex proteins, and from drug discovery to the fate of pharmaceuticals in the environment. Furthermore, this ready reference contains several convincing case studies from industry, such as Taxol, Pregabalin and Crestor, illustrating how this multidisciplinary approach has yielded efficient and environmentally-friendly processes. Finally, a section on technology and tools highlights the advantages of green chemistry.

Marijuana and the Cannabinoids Mahmoud A. ElSohly,2010-11-19 Although primarily used today as one of the most prevalent illicit leisure drugs, the use of Cannabis sativa L., commonly referred to as marijuana, for medicinal purposes has been reported for more than 5000 years. Marijuana use has been shown to create numerous health problems, and, consequently, the expanding use beyond medical purposes into recreational use (abuse) resulted in control of the drug through international treaties. Much research has been carried out over the past few decades following the identification of the chemical structure of THC in 1964. The purpose of Marijuana and the Cannabinoids is to present in a single volume the comprehensive knowledge and experience of renowned researchers and scientists. Each chapter is written independently by an expert in his/her field of endeavor, ranging from the botany, the constituents, the chemistry and pharmacokinetics, the effects and consequences of illicit use on the human body, to the therapeutic potential of the cannabinoids.

The MDGs After the Crisis World Bank,2010 This year's Global Monitoring Report, The MDGs after the Crisis, examines the impact of the worst recession since the Great Depression on poverty and human development outcomes in developing countries. Although the recovery is under way, the impact of the crisis will be lasting and immeasurable.
