What's Eating You? Cynthia J. Miller,A. Bowdoin Van Riper,2017-02-23 Divided into four thematic sections, *What's Eating You?* explores the deeper significance of food on screen-the ways in which they reflect (or challenge) our deepest fears about consuming and being consumed. Among the questions it asks are: How do these films mock our taboos and unsettle our notions about the human condition? How do they critique our increasing focus on consumption? In what ways do they hold a mirror to our taken-for-granted about food and humanity, asking if what we eat truly matters? Horror narratives routinely grasp those questions and spin them into nightmares. Monstrous “others” dine on forbidden fare; the tables of consumption are turned, and the consumer becomes the consumed. Overindulgence, as *Le Grande Bouffe* (1973) and *Street Trash* (1987) warn, can kill us, and occasionally, as films like *The Stuff* (1985) and *Poultrygeist* (2006) illustrate, our food fights back. From *Blood Feast* (1963) to *Sweeney Todd* (2007), motion pictures have reminded us that it is an “eat or be eaten” world.

Reading the Vegetarian Vampire Sophie Dungan,2022-11-30 This Pivot traces the rise of the so-called “vegetarian” vampire in popular culture and contemporary vampire fiction, while also exploring how the shift in the diet of (some) vampires, from human to animal or synthetic blood, responds to a growing ecological awareness that is rapidly reshaping our understanding of relations with others species. The book introduces the trope of the vegetarian vampire, as well as important critical contexts for its discussion: the Anthropocene, food studies, and the modern practice, politics and ideologies of vegetarianism. Drawing on references to recent historical contexts and developments in the genre more broadly, the book investigates the vegetarian vampire’s relationship to other more violent and monstrous forms of the vampire in popular twenty-first century horror cinema and television. Texts discussed include *Interview with the Vampire*, *Buffy the Vampire Slayer*, *Twilight*, *The Vampire Diaries* and *True Blood*. *Reading the Vegetarian Vampire* examines a new aspect of contemporary interest in considering vampire fiction.

Man-Eating Monsters Dina Khapaeva,2019-11-11 What role do man-eating monsters - vampires, zombies, werewolves and cannibals - play in contemporary culture? This book explores the question of whether recent representations of humans as food in popular culture characterizes a unique moment in Western cultural history and suggests a new set of attitudes toward people, monsters, and death.

The Medical Carnavalesque Lisa Gabbert,2024-08-06 The practice of medicine is immersed in issues of life, death, and suffering in relation to the mortal body. Because of this, the medical profession is a fertile arena for folklore that serves to address these topics among physicians. In *The Medical Carnavalesque*, Lisa Gabbert argues that this extraordinarily difficult work context has led to the development of an occupational corpus of folklore, backstage talk, and humor that she calls the medical carnivalesque. Gabbert argues that suffering is not only something experienced by patients, but that the organization, practice, and ethos of medicine can induce suffering in physicians themselves. Featuring topics such as the institutionalized nature of physician suffering, death-related humor and talk, stories about patient bodies, and parodies of medical specialties, *The Medical Carnavalesque* shows us how the culture of contemporary medicine uses travesty, humor, and inversion to address the sometimes painful and often transgressive aspects of doctoring. *The Medical Carnavalesque* connects patient and physician suffering to laughter; acknowledges suffering as an essential component of life; and constitutes a way in which some physicians address the core philosophical and existential issues with which they regularly engage as they go about their daily work.

Horrific Humor and the Moment of Droll Grimness in Cinema John A. Dowell,Cynthia J. Miller,2017-12-06 When evil clowns menace the screen, do we scream or laugh? When zombies converge to tear a victim limb from limb, do we cringe and hide our eyes, or shriek “What?!! Play that again!!”? What about those instances when these seemingly opposite reactions happen at once? This is the phenomenon known as sLaughter. *Horrific Humor and the Moment of Droll Grimness in Cinema: Sidesplitting sLaughter* presents the first focused look at the moment in audience reception where screams and laughter collide. John A. Dowell and Cynthia J. Miller bring together twelve essays from an international collection of authors across the disciplines. The volume begins with an examination of the aesthetics and mechanics of the sLaughter moment, then moves closer to look at the impact of its awkward frisson of humor and horror on the individual viewer, and finally, broadens its lens to explore sLaughter’s implications for the human condition more generally. The chapters discuss such box office hits such as *A Clockwork Orange* (1971), *Fargo* (1996), *The Dark Knight* (2008), and *The Cabin in the Woods* (2012), as well as cult classics such as *The Toxic Avenger* (1984) and *Dead Snow* (2009). Engaging and thought provoking, *Horrific Humor and the Moment of Droll Grimness in Cinema* will be of great interest to scholars of both humor and horror, as well as to those working in reception studies and fans of cult cinema.

Cruel Children in Popular Texts and Cultures Monica Flegel,Christopher Parkes,2018-04-19 This book explores how alarmist social discourses about 'cruel' young people fail to recognize the complexity of cruelty and the role it plays in child agency. Examining representations of cruel young people in popular texts and popular culture, the collected essays demonstrate how gender, race, and class influence who gets labeled 'cruel' and which actions are viewed as negative, aggressive, and disruptive. It shows how representations of cruel young people negotiate the violence that shadows polite

society, and how narratives of cruelty and aggression are used to affirm, or to deny, young people's agency.

Urban Noir James J. Ward, Cynthia J. Miller, 2017-09-06 Film noir has always been associated with urban landscapes, and no two cities have been represented more prominently in these films than New York and Los Angeles. In noir and neo-noir films since the 1940s, both cities are ominous locales where ruthless ambition, destructive impulses, and dashed hopes are played out against backdrops indifferent to human dramas. In *Urban Noir: New York and Los Angeles in Shadow and Light*, James J. Ward and Cynthia J. Miller have brought together essays by an international group of scholars that examine the dark appeal of these two cities. The essays in this volume explore aspects of the noir and neo-noir cityscape that have been relatively unexamined, including the role of sound and movement through space, the distinctive character of certain neighborhoods and locales, and the importance of individual moments in time. Among the films discussed in this book are classic noirs *Double Indemnity* (1944), *He Walked by Night* (1948), and *Criss Cross* (1949), as well as neo-noirs such as *Cotton Comes to Harlem* (1970), *Klute* (1971), *Taxi Driver* (1976), *Eyes of Laura Mars* (1978), *Cruising* (1980), *Alphabet City* (1984), *Devil in a Blue Dress* (1995), *Drive* (2011), *Rampart* (2011), and *Nightcrawler* (2014). Uniting these essays is a thematic orientation toward darkness, whether interpreted in atmospheric and architectural terms, in social and psychological terms, or in terms of disruptive change, economic dislocation, and real or perceived existential threats. Offering multiple new perspectives on a wide range of films, *Urban Noir* will be of interest to scholars of film, media, politics, sociology, history, and popular culture.

Race in American Film Daniel Bernardi, Michael Green, 2017-07-07 This expansive three-volume set investigates racial representation in film, providing an authoritative cross-section of the most racially significant films, actors, directors, and movements in American cinematic history. Hollywood has always reflected current American cultural norms and ideas. As such, film provides a window into attitudes about race and ethnicity over the last century. This comprehensive set provides information on hundreds of films chosen based on scholarly consensus of their importance regarding the subject, examining aspects of race and ethnicity in American film through the historical context, themes, and people involved. This three-volume set highlights the most important films and artists of the era, identifying films, actors, or characterizations that were considered racist, were tremendously popular or hugely influential, attempted to be progressive, or some combination thereof. Readers will not only learn basic information about each subject but also be able to contextualize it culturally, historically, and in terms of its reception to understand what average moviegoers thought about the subject at the time of its popularity—and grasp how the subject is perceived now through the lens of history.

The Kelvin Timeline of Star Trek Matthew Wilhelm Kapell, Ace G. Pilkington, 2019-03-14 In an era of reboots, restarts and retreads, J.J. Abrams' *Star Trek* trilogy—featuring new, prequel adventures of Kirk, Spock and the rest of the original series characters, aboard the *USS Enterprise*--has brought the franchise to a new generation and perfected a process that is

increasingly central to entertainment media: reinvigorating the beloved classic. This collection of new essays offers the first in-depth analysis of the new trilogy and the vision of the next generation of Star Trek film-makers. Issues of gender, race, politics, economics, technology and morality--always key themes of the franchise--are explored in the 21st century context of The Kelvin Timeline.

The Art of Artertainment: Nobrow, American Style Peter Swirski, Tero Eljas Vanhanen, 2019-03-31 Artertainment is more than a novel aesthetic term reflecting the fact that art and entertainment have cross-pollinated each other throughout history. It is a creative strategy that purposely intertwines highbrow and lowbrow aesthetics in the name of reaching the connoisseurs and the masses. The Art of Artertainment sets out to unravel the jumble of aesthetic faultlines and prejudices found wherever we find artistic crossovers—which is to say, everywhere. Revisionist, iconoclastic, and artertaining in its own right, it provides a new framework for the analysis of American nobrow culture from the Colonial times to the digitally turbocharged present.

Catholic Horror on Television Ralph Beliveau, Laura Bolf-Beliveau, Ruth DeFoster, Erika Engstrom, 2024-06-25 Catholic Horror on Television: Haunting Faith explores the significant intersection of horror media and the Catholic Church. Religious themes enjoy a long history in film and television, with narratives featuring the supernatural, science fiction, and horror making use of Roman Catholicism in particular. The horror genre frequently tells fantastic stories about the mysteries that we seek to understand, helping to come to terms with the destructive and the monstrous. This book analyzes the genre of Catholic horror in the current television and streaming media environment, exploring its treatment of physical mortality, the metaphysics of meaning, and morality. Catholic Horror on Television: Haunting Faith offers a fresh take on how television and streaming horror series critique, expand, and interrogate Catholicism and its place in the modern world. In doing so, this book contributes to conversations in several disciplines including media, cultural, television, and religious studies.

Serial Killing on Screen Sarah E. Fanning, Claire O'Callaghan, 2022-11-30 This book explores the representation of real-life serial murders as adapted for the screen and popular culture. Bringing together a selection of essays from international scholars, *Serial Killing on Screen: Adaptation, True Crime and Popular Culture* examines the ways in which the screen has become a crucial site through which the most troubling of real-life crimes are represented, (re)constructed and made accessible to the public. Situated at the nexus of film and screen studies, theatre studies, cultural studies, criminology and sociology, this interdisciplinary collection raises questions about, and implications for, thinking about the adaptation and representation of true crime in popular culture, and the ideologies at stake in such narratives. It discusses the ways in which the adaptation of real-life serial murder intersects with other markers of cultural identity (gender, race, class, disability), as well as aspects of criminology (offenders, victims, policing, and profiling) and psychology (psychopathy, sociopathy, and paraphilia). This collection is unique in its combined focus on the adaptation of crimes committed by real-life criminal figures

who have gained international notoriety for their plural offences, including, for example, Ted Bundy, Ian Brady and Myra Hindley, Aileen Wuornos, Jack the Ripper, and the Zodiac, and for situating the tales of these crimes and their victims' stories within the field of adaptation studies.

Fantastic Cities Stefan Rabitsch, Michael Fuchs, Stefan L. Brandt, 2022-02-04 Contributions by Carl Abbott, Jacob Babb, Marleen S. Barr, Michael Fuchs, John Glover, Stephen Joyce, Sarah Lahm, James McAdams, Cynthia J. Miller, Fernando Gabriel Pagnoni Berns, Chris Pak, María Isabel Pérez Ramos, Stefan Rabitsch, J. Jesse Ramírez, A. Bowdoin Van Riper, Andrew Wasserman, Jeffrey Andrew Weinstock, and Robert Yeates Metropolis, Gotham City, Mega-City One, Panem's Capitol, the Sprawl, Caprica City—American (and Americanized) urban environments have always been a part of the fantastic imagination. *Fantastic Cities: American Urban Spaces in Science Fiction, Fantasy, and Horror* focuses on the American city as a fantastic geography constrained neither by media nor rigid genre boundaries. *Fantastic Cities* builds on a mix of theoretical and methodological tools that are drawn from criticism of the fantastic, media studies, cultural studies, American studies, and urban studies. Contributors explore cultural media across many platforms such as Christopher Nolan's *Dark Knight* Trilogy, the *Arkham Asylum* video games, the 1935 movie serial *The Phantom Empire*, Kim Stanley Robinson's fiction, Colson Whitehead's novel *Zone One*, the vampire films *Only Lovers Left Alive* and *A Girl Walks Home Alone at Night*, Paolo Bacigalupi's novel *The Water Knife*, some of Kenny Scharf's videos, and Samuel Delany's classic *Dhalgren*. Together, the contributions in *Fantastic Cities* demonstrate that the fantastic is able to “real-ize” that which is normally confined to the abstract, metaphorical, and/or subjective. Consequently, both utopian aspirations for and dystopian anxieties about the American city become literalized in the fantastic city.

Dining with Madmen Thomas Fahy, 2019-02-13 In *Dining with Madmen: Fat, Food, and the Environment in 1980s Horror*, author Thomas Fahy explores America's preoccupation with body weight, processed foods, and pollution through the lens of horror. Conspicuous consumption may have communicated success in the eighties, but only if it did not become visible on the body. American society had come to view fatness as a horrifying transformation—it exposed the potential harm of junk food, gave life to the promises of workout and diet culture, and represented the country's worst consumer impulses, inviting questions about the personal and environmental consequences of excess. While changing into a vampire or a zombie often represented widespread fears about addiction and overeating, it also played into concerns about pollution. Ozone depletion, acid rain, and toxic waste already demonstrated the irrevocable harm being done to the planet. The horror genre—from *A Nightmare on Elm Street* to *American Psycho*—responded by presenting this damage as an urgent problem, and, through the sudden violence of killers, vampires, and zombies, it depicted the consequences of inaction as terrifying. Whether through Hannibal Lecter's cannibalism, a vampire's thirst for blood in *The Queen of the Damned* and *The Lost Boys*, or an overwhelming number of zombies in George Romero's *Day of the Dead*, 1980s horror uses out-of-control hunger to capture

deep-seated concerns about the physical and material consequences of unchecked consumption. Its presentation of American appetites resonated powerfully for audiences preoccupied with body size, food choices, and pollution. And its use of bodily change, alongside the bloodlust of killers and the desolate landscapes of apocalyptic fiction, demanded a recognition of the potentially horrifying impact of consumerism on nature, society, and the self.

Critical Approaches to Horror Comic Books John Darowski, Fernando Gabriel Pagnoni Berns, 2022-08-16 This volume explores how horror comic books have negotiated with the social and cultural anxieties framing a specific era and geographical space. Paying attention to academic gaps in comics' scholarship, these chapters engage with the study of comics from varying interdisciplinary perspectives, such as Marxism; posthumanism; and theories of adaptation, sociology, existentialism, and psychology. Without neglecting the classical era, the book presents case studies ranging from the mainstream comics to the independents, simultaneously offering new critical insights on zones of vacancy within the study of horror comic books while examining a global selection of horror comics from countries such as India (City of Sorrows), France (Zombillénium), Spain (Creepy), Italy (Dylan Dog), and Japan (Tanabe Gou's Manga Adaptations of H.P. Lovecraft), as well as the United States. One of the first books centered exclusively on close readings of an under-studied field, this collection will have an appeal to scholars and students of horror comics studies, visual rhetoric, philosophy, sociology, media studies, pop culture, and film studies. It will also appeal to anyone interested in comic books in general and to those interested in investigating intricacies of the horror genre.

Horror Comes Home Cynthia J. Miller, A. Bowdoin Van Riper, 2019-07-04 Home, we are taught from childhood, is safe. Home is a refuge that keeps the monsters out--until it isn't. This collection of new essays focuses on genre horror movies in which the home is central to the narrative, whether as refuge, prison, menace or supernatural battleground. The contributors explore the shifting role of the home as both a source and a mitigator of the terrors of this world, and the next. Well known films are covered--including Psycho, Get Out, Insidious: The Last Key and Winchester House--along with films produced outside the U.S. by directors such as Alejandro Amenabar (The Others), Hideo Nakata (Ringu) and Guillermo Del Toro (The Orphanage), and often overlooked classics like Alfred Hitchcock's The Lodger.

Hannibal for Dinner Kyle A. Moody, Nicholas A. Yanes, 2021-02-26 NBC's Hannibal only lasted for three seasons but became a critical darling and quickly inspired a ravenous fanbase. Bryan Fuller's adaptation of Hannibal Lecter's adventures created a new set of fans and a cult audience through its stunning visuals, playful characters, and mythical tableaux of violence that doubled as works of art. The show became a nexus point for viewers that explored consumption, queerness, beauty, crime, and the meaning of love through a lens of blood and gore. Much like the show, this collection is a love letter to America's favorite cannibal, celebrating the multiple ways that Hannibal expanded the mythology, food culture, fandom, artistic achievements, and religious symbolism of the work of Thomas Harris. Primarily focusing on Hannibal, this book

combines interviews and academic essays that examine the franchise, its evolution, creatively bold risks, and the art of creating a TV show that consumed the hearts and minds of its audience.

[North American Monsters](#) David J. Puglia, 2022-03-15 Mining a mountain of folklore publications, *North American Monsters* unearths decades of notable monster research. Nineteen folkloristic case studies from the last half-century examine legendary monsters in their native habitats, focusing on ostensibly living creatures bound to specific geographic locales. A diverse cast of scholars contemplate these alluring creatures, feared and beloved by the communities that host them—the Jersey Devil gliding over the Pine Barrens, Lieby wriggling through Lake Lieberman, Char-Man stalking the Ojai Valley, and many, many more. Embracing local stories, beliefs, and traditions while neither promoting nor debunking, *North American Monsters* aspires to revive scholarly interest in local legendary monsters and creatures and to encourage folkloristic monster legend sleuthing.
