The Seeds of Life Edward Dolnick,2017-06-06 Why cracking the code of human conception took centuries of wild theories, misogynist blunders, and ludicrous mistakes Throughout most of human history, babies were surprises. People knew the basics: men and women had sex, and sometimes babies followed. But beyond that the origins of life were a colossal mystery. The Seeds of Life is the remarkable and rollicking story of how a series of blundering geniuses and brilliant amateurs struggled for two centuries to discover where, exactly, babies come from. Taking a page from investigative thrillers, acclaimed science writer Edward Dolnick looks to these early scientists as if they were detectives hot on the trail of a bedeviling and urgent mystery. These strange searchers included an Italian surgeon using shark teeth to prove that female reproductive organs were not 'failed' male genitalia, and a Catholic priest who designed ingenious miniature pants to prove that frogs required semen to fertilize their eggs. A witty and rousing history of science, The Seeds of Life presents our greatest scientists struggling-against their perceptions, their religious beliefs, and their deep-seated prejudices-to uncover how and where we come from.

Where Do I Live? Neil Chesanow,1995 Part of being a child is wondering. This charming book uses easy words and color illustrations to explain to children exactly where they live. From there, children trace their way home again.

Where Did I Come From? Where Am I Going? How Do I Get There? Charles E. Rice,Theresa Farnan,2017-06-30 *Where Did I Come From? Where Am I Going? How Do I Get There?* is a complete course on Catholicism, featuring concise, reader-friendly, relevant prose. Straight answers are tailored for today's generation. Topics addressed include: Can I know anything? Can I know what God is like? How am I really in the image and likeness of God? What about my conscience? Am I a gift to others? What about my freedom? Is any sexual activity OK before marriage? Do we have to keep Grandma on a feeding

tube forever? This book adapts a wildly successful high-school curriculum developed by Charles E. Rice, who taught for years at an Indiana high school in addition to his storied career at Notre Dame Law School. This classroom-tested curriculum has had life-changing effects. Rice's students, who took the course in the late 1970s and early 1980s, credit this course for keeping them Catholic, while their peers turned to Zen, politics, or drugs in their search for ultimate meaning. Rice, with the valuable assistance of co-author and philosopher Theresa Farnan, updates this curriculum by incorporating the Catechism and the personalist philosophy of John Paul II into the timeless wisdom of the Church. Today's young Catholics admire the faith more than ever, but need clear answers about what it is and who they are. The straight answers found in this book are a sure antidote to the confusion of the culture of death. Book jacket.
