John Dee, Joseph H. Peterson

John Dee: Interdisciplinary Studies in English Renaissance Thought Stephen Clucas, 2006-06-18 Intellectual History and the Identity of John Dee In April 1995, at Birkbeck College, University of London, an interdisciplinary colloquium was held so that scholars from diverse fields and areas of expertise could exchange views on the life and work of John Dee. Working in a variety of fields - intellectual history, history of navigation, history of medicine, history of science, history of mathematics, bibliography and manuscript studies - we had all been drawn to Dee by particular aspects of his work, and participating in the colloquium was to confront other narratives about Dee's career: an experience which was both bewildering and instructive. Perhaps more than any other intellectual figure of the English Renaissance Dee has been fragmented and dispersed across numerous disciplines, and the various attempts to re-integrate his multiplied image by reference to a particular world-view or philosophical outlook have failed to bring him into focus. This volume records the diversity of scholarly approaches to John Dee which have emerged since the synthetic accounts of I. R. F. Calder, Frances Yates and Peter French. If these approaches have not succeeded in resolving the problematic multiplicity of Dee's activities, they will at least deepen our understanding of specific and local areas of his intellectual life, and render them more historiographically legible.

John Dee's Five Books of Mystery John Dee, Joseph H. Peterson, 2003-01-01 Discovered in a hidden compartment of an old chest long after his death, the secret writings of John Dee, one of the leading scientists and occultists of Elizabethan England, record in minute detail his research into the occult. Dee concealed his treatises on the nature of humankind's contact with angelic realms and languages throughout his life, and they were nearly lost forever. In his brief biography of John Dee, Joseph Peterson calls him a true Renaissance man? detailing his work in astronomy, mathematics, navigation, the arts, astrology, and the occult sciences. He was even thought to be the model for Shakespeare's Prospero. All this was preparation for Dee's main achievement: five books, revealed and transcribed between March 1582 and May 1583, bringing to light mysteries and truths that scholars and adepts have been struggling to understand and use ever since. These books detail his system for communicating with the angels, and reveal that the angels were interested in and involved with the exploration and colonization of the New World, and in heralding in a new age or new world order. While Dee's influence was certainly felt in his lifetime, his popularity has grown tremendously since. His system was used and adapted by the Hermetic

Order of the Golden Dawn, and subsequently by Aleister Crowley. This new edition of John Dee's Five Books of Mystery is by far the most accessible and complete published to date. Peterson has translated Latin terms and added copious footnotes, putting the instructions and references into context for the modern reader.

The Complete Enochian Dictionary Donald C. Laycock, Edward Kelley, John Dee, 2023-06-05 The complete reference for understanding the Enochian language ("the language of the angels"), the proper pronunciation of the letters of the Enochian alphabet, and the use of evocations to call forth celestial beings and perform Enochian magic. In 1581, Dr. John Dee, an advisor in the court of Queen Elizabeth I, began a series of scrying experiments intended to explore the ability to contact the spirit world. With Edward Kelley acting as the medium in these experiments, Dee was able to record these communications as they were transmitted in Enochian, the language of the angels. Dr. Dee's efforts furthered the development of the system of Enochian magic and his methods of invocation have been taken up and expounded upon by Aleister Crowley and many other magicians. Donald C. Laycock has thoroughly analyzed the work of Dee and Kelley. In this volume, he recounts the history of their experiments. He provides a pronunciation guide for the twenty-one letters, significant to untangling both the meaning and the derivation of the messages handed down from Dee and Kelley, and an essential Enochian/English and English/Enochian dictionary. The result is a fascinating linguistic and magical mystery story integral to any study of the Enochian tradition. This new edition of Laycock's work includes a new preface by Stephen Skinner that sets the tone and historical context for today's readers. Lon Milo DuQuette's foreword gives a delightful and edifying description of how he and his students put *The Complete Enochian Dictionary* to the test with astonishing results. This book is a must-have for any serious magician's library.

The Angelical Language, Volume I Aaron Leitch, 2010 Based on the journals of Dr. John Dee and Edward Kelley.

John Dee's Conversations with Angels Deborah E. Harkness, 1999-11-13 John Dee's angel conversations have been an enigmatic facet of Elizabethan England's most famous natural philosopher's life and work. Professor Harkness contextualizes Dee's angel conversations within the natural philosophical, religious and social contexts of his time philosophy, and the apocalypse, and argues that they represent a continuing development of John Dee's earlier concerns and interests. These conversations include discussions of the natural world, the practice of natural philosophy, and the apocalypse.

Brigid Brophy Richard Canning, 2020-03-27 This book explores all aspects of Brophy's literary career, alongside contributions on animal rights, vegetarianism, anti-vivisectionism, humanism, feminism and sexual politics, not only celebrating Brophy's eclectic achievements but fully reflecting them.

Codes and Ciphers - A History of Cryptography Alexander D'Agapeyeff, 2016-08-26 This vintage book contains Alexander D'Agapeyeff's famous 1939 work, *Codes and Ciphers - A History of Cryptography*. Cryptography is the employment of codes and ciphers to protect secrets, and it has a long and interesting history. This fantastic volume offers a detailed history of cryptography from ancient times to modernity, written by the Russian-born English cryptographer, Alexander D'Agapeyeff. The contents include: - The beginnings of Cryptography - From the Middle Ages Onwards - Signals, Signs, and Secret Languages - Commercial Codes - Military Codes and Ciphers - Types of Codes and Ciphers - Methods of Deciphering Many antiquarian texts such as this, especially those dating back to the 1900s and before, are increasingly hard to come by and expensive, and it is with this in mind that we are republishing this book now in an affordable, modern, high quality edition. It comes complete with a specially commissioned new biography of the author.

The Rohonc Code Benedek Láng, 2021-04-15 First discovered in a Hungarian library in 1838, the Rohonc Codex keeps privileged company with some of the most famous unsolved writing systems in the world, notably the Voynich manuscript, the Phaistos Disk, and Linear A. Written entirely in cipher, this 400-year-old, 450-page-long, richly illustrated manuscript initially gained considerable attention but was later dismissed as an apparent forgery. No serious scholar would study it again until the turn of the twenty-first century. This engaging narrative follows historian Benedek Láng's search to uncover the truth about this thoroughly mysterious book that has puzzled dozens of codebreakers. Láng surveys the fascinating theories associated with the Codex and discusses possible interpretations of the manuscript as a biblical commentary, an apocryphal gospel, or a secret book written for and by a sect. He provides an overview of the secret writing systems known in early modern times and an account of the numerous efforts to create an artificial language or to find a long-lost perfect tongue—endeavors that were especially popular at the time the Codex was made. Lastly, he tests several codebreaking

methods in order to decipher the Codex, finally pointing to a possible solution to the enigma of its content and language system. Engagingly written, academically grounded, and thoroughly compelling, The Rohonc Code will appeal to historians, scholars, and lay readers interested in mysteries, codes, and ciphers.

The Voynich Manuscript Wilfrid Voynich, Anonyme, 2012-06-25 This ebook is the complete reproduction of the preserved Voynich Manuscript, formatted for high resolution color ebook reader displays. The Voynich manuscript, also known as the world's most mysterious manuscript, is a work which dates to the early 15th century, possibly from northern Italy. It is named after the book dealer Wilfrid Voynich, who purchased it in 1912. Much of the manuscript resembles herbal manuscripts of the time period, seeming to present illustrations and information about plants and their possible uses for medical purposes. However, most of the plants do not match known species, and the manuscript's script and language remain unknown and unreadable. Possibly some form of encrypted ciphertext, the Voynich manuscript has been studied by many professional and amateur cryptographers, including American and British codebreakers from both World War I and World War II. As yet, it has defied all decipherment attempts, becoming a cause célèbre of historical cryptology. The mystery surrounding it has excited the popular imagination, making the manuscript a subject of both fanciful theories and novels. None of the many speculative solutions proposed over the last hundred years has yet been independently verified. Illustrations: The illustrations of the manuscript shed little light on the precise nature of its text but imply that the book consists of six sections, with different styles and subject matter. Except for the last section, which contains only text, almost every page contains at least one illustration. Following are the sections and their conventional names: Herbal: Each page displays one plant (sometimes two) and a few paragraphs of text—a format typical of European herbals of the time. Some parts of these drawings are larger and cleaner copies of sketches seen in the pharmaceutical section. None of the plants depicted is unambiguously identifiable. Astronomical: Contains circular diagrams, some of them with suns, moons, and stars, suggestive of astronomy or astrology. One series of 12 diagrams depicts conventional symbols for the zodiacal constellations (two fish for Pisces, a bull for Taurus, a hunter with crossbow for Sagittarius, etc.). Each of these has 30 female figures arranged in two or more concentric bands. Most of the females are at least partly naked, and each holds what appears to be a labeled star or is shown with the star attached by what could be a tether or cord of some kind to either arm. The last two pages of this section (Aquarius and Capricornus, roughly January and February) were lost, while Aries and Taurus are split into four paired diagrams with 15 women and 15 stars each. Some of these diagrams are on fold-out pages. Biological: A dense continuous text interspersed with figures, mostly showing small naked women, some wearing crowns, bathing in pools or tubs connected by an elaborate network of pipes, some of them strongly reminiscent of body organs. Cosmological: More circular diagrams, but of an obscure nature. This section also has foldouts; one of them spans six pages and contains a map

or diagram, with nine islands or rosettes connected by causeways and containing castles, as well as what may possibly be a volcano. Pharmaceutical: Many labeled drawings of isolated plant parts (roots, leaves, etc.); objects resembling apothecary jars, ranging in style from the mundane to the fantastical; and a few text paragraphs. Recipes: Many short paragraphs, each marked with a flower- or star-like bullet.

Handbook for Mortals Lani Sarem,2017-08-15 Zade Holder has always been a free-spirited young woman, from a long dynasty of tarot-card readers, fortunetellers, and practitioners of magick. Growing up in a small town and never quite fitting in, Zade is determined to forge her own path. She leaves her home in Tennessee to break free from her overprotective mother Dela, the local resident spellcaster and fortuneteller. Zade travels to Las Vegas and uses supernatural powers to become part of a premiere magic show led by the infamous magician Charles Spellman. Zade fits right in with his troupe of artists and misfits. After all, when everyone is slightly eccentric, appearing 'normal' is much less important. Behind the scenes of this multimillion-dollar production, Zade finds herself caught in a love triangle with Mac, the show's good-looking but rough-around-the-edges technical director and Jackson, the tall, dark, handsome and charming bandleader. Zade's secrets and the struggle to choose between Mac or Jackson creates reckless tension during the grand finale of the show. Using Chaos magick, which is known for being unpredictable, she tests her abilities as a spellcaster farther than she's ever tried and finds herself at death's door. Her fate is left in the hands of a mortal who does not believe in a world of real magick, a fortuneteller who knew one day Zade would put herself in danger and a dagger with mystical powers--Amazon.com

Esoteric Islam: A Hermetic Perspective on Islamic Traditions Sachal Smith,2021-06-15 There are always two ways of understanding religions whose origins stem from hermetic traditions of ancient Egypt, Greece, and Babylon; namely Exoteric and Esoteric, whether they be Hinduism, Judaism, Christianity, or Islam. In the book *Esoteric Islam*, I describe Islam to be one of the reflections of hermetic philosophy, and representative of the ideals of great ancient teachings of Astrology and Alchemy. The book *Esoteric Islam* includes the interpretation of Islamic traditions by use of the hermetic arts of Astrology and Alchemy. It discusses the mystical teachings of Quran from the standpoint of ancient mysteries and modern metaphysics. It attempts to understand the message of Quran in its structural designs alongside the principle tenets so as to unravel the mystique of this very impressive literature.

Voynich Manuscript ,2015-12-11 A facsimile of an object of unknown authorship that has been the source of study and speculation for centuries and remains undecipherable to this day.

The Astrological Autobiography of a Medieval Philosopher Steven Vanden Broecke,Carlos Steel,David Juste,Shlomo Sela,2018-11-26 Critical edition of the earliest known astrological autobiography The present book reveals the riches of the earliest known astrological autobiography, authored by Henry Bate of Mechelen (1246–after 1310). Exploiting all resources of contemporary astrological science, Bate conducts in his *Nativitas* a profound self-analysis, revealing the peculiarities of his

character and personality at a crucial moment of his life (1280). The result is an extraordinarily detailed and penetrating attempt to decode the fate of one's own life and its idiosyncrasies. The *Astrological Autobiography of a Medieval Philosopher* offers the first critical edition of Bate's *Nativitas*. An extensive introduction presents Bate's life and work and sheds new light on the reception and use of Greek, Latin, Arabic, and Hebrew texts among scholars in Paris at the end of the 13th century. The book thus provides a major new resource for scholars working on medieval science, autobiography, and notions of personhood and individuality.

Esoteric Transfers and Constructions Mark Sedgwick, Francesco Piraino, 2021-02-27 Similarities between esoteric and mystical currents in different religious traditions have long interested scholars. This book takes a new look at the relationship between such currents. It advances a discussion that started with the search for religious essences, archetypes, and universals, from William James to Eranos. The universal categories that resulted from that search were later criticized as essentialist constructions, and questioned by deconstructionists. An alternative explanation was advanced by diffusionists: that there were transfers between different traditions. This book presents empirical case studies of such constructions, and of transfers between Judaism, Christianity, and Islam in the premodern period, and Judaism, Christianity, and Western esotericism in the modern period. It shows that there were indeed transfers that can be clearly documented, and that there were also indeed constructions, often very imaginative. It also shows that there were many cases that were neither transfers nor constructions, but a mixture of the two.
