William Wordsworth

I Wandered Lonely as a Cloud William Wordsworth,2007-03 The classic Wordsworth poem is depicted in vibrant illustrations, perfect for pint-sized poetry fans.

Poems of William Wordsworth William Wordsworth,1855

The Poetical Works of William Wordsworth William Wordsworth,1832

The Cambridge Introduction to William Wordsworth Emma Mason,2010-08-19 William Wordsworth is the most influential of the Romantic poets, and remains widely popular, even though his work is more complex and more engaged with the political, social and religious upheavals of his time than his reputation as a 'nature poet' might suggest. Outlining a series of contexts - biographical, historical and literary - as well as critical approaches to Wordsworth, this Introduction offers students ways to understand and enjoy Wordsworth's poetry and his role in the development of Romanticism in Britain. Emma Mason offers a completely up-to-date summary of criticism on Wordsworth from the Romantics to the present and an annotated guide to further reading. With definitions of technical terms and close readings of individual poems, Wordsworth's experiments with form are fully explained. This concise book is the ideal starting point for studying *Lyrical Ballads*, *The Prelude*, and the major poems as well as Wordsworth's lesser known writings.

series, a guide to the hundreds of manuscripts treated in the twenty-one volumes, and a comprehensive list of the contents of Wordsworth's many lifetime editions--Pref.

William Wordsworth John Williams,2017-03-14 From the earliest reviews of his poetry, readers were deeply divided on the merits of William Wordsworth's work. John Williams looks in detail at the major poems and discusses the critical issues that have dominated discussions of Wordsworth's compositions since they first began to appear in print after 1798. Beginning with a fresh assessment of the controversies that developed around Lyrical Ballads, the chapters trace the evolution of both Wordsworth's poetry and his reputation through to his death in 1850. At each stage, Williams investigates the possible reasons why critics and readers responded as they did: enraged by his revolutionary 'Jacobinism' at the turn of the eighteenth century; insulted by the 'simplicity' of the Poems in Two Volumes of 1807; reassured by his commitment to Nature and his reverence for Church and State in the early Victorian period. In the twentieth century, Wordsworth has been subjected to a series of extensive critical reappraisals. With reference to a wide range of the poetry, Williams goes on to discuss the way Wordsworth has been variously reconstructed as a consequence of the main critical and theoretical initiatives of the last one hundred years. He also examines the Wordsworth we have inherited for the twenty-first century: a poet many still feel has important things to say to the contemporary reader about human relationships, nature, the environment, and our imaginative life.

The Cambridge Companion to Wordsworth Stephen Gill,2003-06-12 The Cambridge Companion to Wordsworth provides a wide-ranging account of one of the most famous Romantic poets. Specially commissioned essays cover all the important aspects of this multi-faceted writer; the volume examines his poetic achievement with a chapter on poetic craft, other chapters focus on the origin of his poetry and on the challenges it presented and continues to present. The volume ensures that students will be grounded in the history of Wordsworth's career and his critical reception.

William Wordsworth in Context Andrew Bennett,2015-02-12 This book provides the essential contexts for an understanding of all aspects of the major English Romantic poet, William Wordsworth.
