**The Nature of Leadership** John Antonakis, Anna T. Cianciolo, Robert J. Sternberg, 2004 More than ever before, leadership is seen as critical for the proper functioning of societies and social institutions. Written by a team of leading experts, *The Nature of Leadership* will provide compelling answers to the most vexing questions surrounding leadership: Is leadership measurable? Are there traits that reliably distinguish leaders from nonleaders? Does the situation matter? Are there differences in women's and men's leadership styles? Is ethical leadership effective leadership? Are elements of leadership culturally bounded whereas other elements are universal? Does vision really matter? Can leadership be developed? --COVER.

Management Principles P. J. Smit, 2007 Book & CD. To improve on an award-winning book poses a major challenge to its authors. The authors of this book took the challenge head-on by conducting a major research study to determine what exactly the outcomes are that managers at different levels must deliver in contemporary organisations in South Africa, and the rest of Africa. The findings of this study, which dealt with current and near-future management issues, as well as classical and contemporary thinking about management, were used as the blueprint for the updating of this book. After placing management in context, the authors deal with the knowledge, skills and dispositions required of managers to perform the management functions of planning, organising, leading and controlling in a volatile business world. Examples of how the functions are applied in practice are cited throughout the book. These examples refer mainly to South African organisations and situations that managers in South Africa, and Africa, have to deal with to create and sustain a competitive advantage for their organisations. The book endeavours to break down the silo effect of seeing the management functions as separate activities. This is done by continuously placing the management function at hand in a bigger context. This enables learners of management to assess the implications of management decisions on different people, processes, systems and so on that make up the organisation.

Dynamics of Leadership in Public Service Montgomery Van Wart, 2014-12-18 Eminently readable, current, and comprehensive, this acclaimed text sets the standard for instruction in

*Leadership Explained* Nicholas Harkiolakis, 2016-11-03 Unfortunately, leadership does not have a one-size-fits-all definition. We all have our own ideas as to what makes a good leader and the types of challenges that will be faced. The

author bridges a gap by presenting how modern leadership happens while simultaneously combining a description of leadership and its practical application in today's environments. In this book, Nicholas Harkiolakis integrates the various theoretical perspectives into a unified model that can be understood by both the academic and the practitioner (existing and future leaders). This understanding is necessary to effectively treat and apply leadership to the challenging settings of today's operational environments: virtual, distributed, multicultural and so on. Some of the key topics covered are: leadership through the ages characteristics of leadership modern perspectives an integrated leadership framework the application of leadership the twenty-first-century leadership practices.

Leadership Peter G. Northouse, 2007 Heartened by the positive response to previous editions of *Leadership: Theory and Practice*, this Fourth Edition is written with the same objective to bridge the gap between the often simplistic popular approaches to leadership and the more abstract theoretical approaches.

**Adaptive Leadership: The Heifetz Collection (3 Items)** Ronald A. Heifetz, Marty Linsky, 2014-09-23 In times of constant change, adaptive leadership is critical. This Harvard Business Review collection brings together the seminal ideas on how to adapt and thrive in challenging environments, from leading thinkers on the topic—most notably Ronald A. Heifetz of the Harvard Kennedy School and Cambridge Leadership Associates. The Heifetz Collection includes two classic books: *Leadership on the Line*, by Ron Heifetz and Marty Linsky, and *The Practice of Adaptive Leadership*, by Heifetz, Linsky, and Alexander Grashow. Also included is the popular Harvard Business Review article, “Leadership in a (Permanent) Crisis,” written by all three authors. Available together for the first time, this collection includes full digital editions of each work. Adaptive leadership is a practical framework for dealing with today's mix of urgency, high stakes, and uncertainty. It has been used by individuals, organizations, businesses, and governments worldwide. In a world of challenging environments, adaptive leadership serves as a guide to distinguishing the essential from the expendable, beginning the meaningful process of adaptation, and changing the status quo. Ronald A. Heifetz is a cofounder of the international leadership and consulting practice Cambridge Leadership Associates (CLA) and the founding director of the Center for Public Leadership at the Harvard Kennedy School. He is renowned worldwide for his innovative work on the practice and teaching of leadership. Marty Linsky is a cofounder of CLA and has taught at the Kennedy School for more than twenty-five years. Alexander Grashow is a Senior Advisor to CLA, having previously held the position of CEO.

Leadership Robert P. Vecchio, 2007-06-01 Today, there are a growing number of business schools, law schools, and continuing education programs in executive development and management training that offer leadership classes. Despite the growing curricular recognition of this area, there is a shortage of strong college-level texts. *Leadership*, second edition—a completely up-to-date anthology of key writings by well-known contributors—meets this need for a textbook that encompasses the major theories in the field of leadership. *Leadership* is divided into six sections. Part I provides an overview

of the subject with readings that examine what leaders actually do, as well as the many myths surrounding the notion of leadership. Part II focuses on the fundamentals of leadership by taking a close look at the specific tactics people use to get their own way. These readings analyze the political games people play and the two-way nature of leader-subordinate influence. Part III considers problems that can arise from leadership gone wrong—when power and influence are abused. The major formal models of leadership that have been offered over the years are reviewed in Part IV. The next section looks at contemporary views of leadership, emphasizing reliance on maturity of subordinates for success, including leadership in the context of self-directed work teams, entrepreneurial leadership, the notion of the leader as servant, and examples of leaders who are recognized for having empowered others or for providing moral leadership. The final section examines the roles of societal and organizational cultures as they pertain to leadership. Robert P. Vecchio has updated the second edition with six new articles. Aimed at upper-level undergraduate and graduate-level courses, *Leadership* continues to provide classic essays by the major figures in the field of leadership along with topical essays on current and emerging issues.

Leadership That Matters Marshall Sashkin, Molly G. Sashkin, 2003-02-27 *Leadership That Matters* examines transformational leadership—leadership that not only improves productivity and performance but also makes a positive difference in the lives of organization members. Traditional leaders achieve superior results because of their ability to transform people from dutiful followers into self-directed leaders who go beyond simply doing what is expected of them. Drawing on research that investigates leadership, culture, and performance in dozens of organizations, the Sashkins describe the specific behaviors and personal characteristics of transformational leaders. They show how you can construct an empowering organizational culture that nurtures self-reliance and long-term thinking. They offer practical advice on how you can become a transformational leader—and make leadership matter.

Hackman, 2018-01-26 *Leadership: A Communication Perspective* has been at the forefront of university and college leadership courses for nearly three decades, providing a compelling, authoritative introduction to leadership as a communication-based activity. The new edition continues the tradition of excellence with an up-to-date treatment of theory and research combined with practical, real-world advice for improving communication competence and leadership effectiveness. Relevant: The authors profile contemporary leaders and organizations like Alibaba's Jack Ma, Zappos' Tony Hsieh, Facebook's Sheryl Sandberg, Uber, The Container Store, Airbnb, Chipotle, the Waffle House, Nordstrom, and Google. Their presentation balances current scholarship and trends with historical perspectives to provide a fuller understanding of the study and practice of leadership. Comprehensive: Leadership and followership are examined in multiple contexts, including organizational leadership, public leadership, and leadership in groups and teams. Topics new to this edition include transcendent followership, the leadership skills approach, team coaching, escalation of commitment, invisible leadership, cultural intelligence, trigger events, and resilience. **Christian Responses to Spiritual Incursions into the 21st Century Church and Society** Nikolaos Asproulis, Stuart Devenish, 2020-10-30 This volume provides an account of the surprising 'in-breaking' of spiritual life that persists in our culture, despite the best efforts of atheist spokespersons and secular theorists. Spirituality in its varying forms is irrepressible, resisting our attempts to exclude it by continuing to seep through the cracks and leak through the gaps. When it is allowed to manifest itself through the Christian faith-tradition, it has the power to surprise, transform and renew everything it touches. This volume contains a series of case studies, each of which describes the inner-functionings and out-workings of the spiritual life as a transformative point of contact between God, world, society and self. Each chapter contains high-level inquiry, drawing on best-practice scholarship that is deeply aware of the needs and opportunities that confront 21st-century society.
