*USMC User's Guide to Counseling*, 1986

Marine Corps Values United States Marine Corps, 2005 The User's Guide to Marine Corps Values is to be used as a tool to help ensure that the values of the Corps continue to be reinforced and sustained in all Marines after being formally instilled in entry level training. This document is a compendium of discussion guides developed and used by Marine Corps formal schools. The guides are part of the formal inculcation of values in young Marines, enlisted and officer, during the entry level training process. This guide is designed to be used as a departure point for discussing the topics as a continuation of the process of sustaining values within the Marine Corps. The User's Guide also serves as a resource for leaders to understand the talk and the walk expected of them as leaders. New graduates of the Recruit Depots and The Basic School have been exposed to these lessons and expect to arrive at their first duty assignments and MOS schools to find these principles and standards exhibited in the Marines they encounter. Leaders must remember that as long as there is but one Marine junior to them, they are honor bound to uphold the customs and traditions of the Corps and to always walk the walk and talk the talk. We are the parents and older siblings of the future leaders of the Marine Corps. America is depending on us to ensure the Marines of tomorrow are ready and worthy of the challenges of this obligation. Teaching, reinforcement, and sustainment of these lessons can take place in the field, garrison, or formal school setting. Instructional methodology and media may vary depending on the environment and location of the instruction. However, environment should not be considered an obstacle to the conduct or quality of the instruction. This guide has been developed as a generic, universal training tool that is applicable to all Marines regardless of grade. Discussion leaders should include personal experiences that contribute to the development of the particular value or leadership lesson being di

The Noncommissioned Officer and Petty Officer BACKBONE of the Armed Forces. Introduction The Backbone of the Armed Forces To be a member of the United States Armed Forces--to wear the uniform of the Nation and the stripes, chevrons, or anchors of the military Services--is to continue a legacy of service, honor, and patriotism that transcends generations.

Answering the call to serve is to join the long line of selfless patriots who make up the Profession of Arms. This profession does not belong solely to the United States. It stretches across borders and time to encompass a culture of service, expertise, and, in most cases, patriotism. Today, the Nation's young men and women voluntarily take an oath to support and defend the Constitution of the United States and fall into formation with other proud and determined individuals who have answered the call to defend freedom. This splendid legacy, forged in crisis and enriched during times of peace, is deeply rooted in a time-tested warrior ethos. It is inspired by the notion of contributing to something larger, deeper, and more profound than one's own self. Notice: This is a printed Paperback version of the The Noncommissioned Officer and Petty Officer BACKBONE of the Armed Forces. Full version, All Chapters included. This publication is available (Electronic version) in the official website of the National Defense University (NDU). This document is properly formatted and printed as a perfect sized copy 6x9.

**Army Leadership and the Profession (ADP 6-22)** Headquarters Department of the Army, 2019-10-09 ADP 6-22 describes enduring concepts of leadership through the core competencies and attributes required of leaders of all cohorts and all organizations, regardless of mission or setting. These principles reflect decades of experience and validated scientific knowledge. An ideal Army leader serves as a role model through strong intellect, physical presence, professional competence, and moral character. An Army leader is able and willing to act decisively, within superior leaders' intent and purpose, and in the organization's best interests. Army leaders recognize that organizations, built on mutual trust and confidence, accomplish missions. Every member of the Army, military or civilian, is part of a team and functions in the role of leader and subordinate. Being a good subordinate is part of being an effective leader. Leaders do not just lead subordinates--they also lead other leaders. Leaders are not limited to just those designated by position, rank, or authority.

*Aspects of Leadership Ethics, Law, and Spirituality* Carroll Connelley, Paolo Tripodi, 2015-04-10 *Aspects of Leadership* is a book that brings together scholars from different disciplines and practitioners from a broad variety of backgrounds to address three key areas: Ethics; Law, and Spirituality. *Aspects of Leadership* intends to inform leaders, and the general public, about the challenges of ethical decision making, the application of the law of war and the important role of spirituality in the battlefield. Essays are about ethics and armed conflict in the 21st Century. Many of the more complex challenges in operating among foreign populations stem from trying to understand and work with people who follow different religious, political, and legal systems. Around the world, notions of leadership and authority, methods for judging and resolving disputes, and concepts of morally and religiously acceptable behavior vary radically from country to country or even from region to region within a country. Misunderstandings and conflicts between the local population and outside military forces can quickly arise due to different religious or cultural interpretations of events and actions. When handled poorly, such misunderstandings may even escalate to serious hostilities on the part of the local population, resulting in violent conflict and a widening gap between the population and military or security forces in the area.

*Rifle Marksmanship* U. S. Marine Corps,2005-01-01 All Marines share a common warfighting belief: Every Marine a rifleman. This simple credo reinforces the belief that all Marines are forged from a common experience, share a common set of values, and are trained as members of an expeditionary force in readiness. As such, there are no rear area Marines, and no one is very far from the fighting during expeditionary operations. The Marine rifleman of the next conflict will be as in past conflicts: among the first to confront the enemy and the last to hang his weapon in the rack after the conflict is won. *Rifle Marksmanship*, a Marine Corps Reference Publication, provides techniques and procedures for Marine Corps rifle marksmanship. Every Marine is first and foremost a rifleman. *Rifle Marksmanship* reflects this ethos and the Marine Corps' warfighting philosophy. This publication discusses the individual skills required for effective rifle marksmanship and standardizes the techniques and procedures used throughout the Marine Corps. It constitutes the doctrinal basis for all entry-level and sustainment-level rifle marksmanship training.

**Leadership Development** David V. Day,2001 A review of leadership development best practices in for-profit organizations was conducted. Practices discussed in this report include formal development programs, 360-degree feedback, executive coaching, job assignments, mentoring, networks, reflection, action learning and outdoor challenges. Additionally, five organizations that are popularly recognized for their leadership development practices are highlighted in this report. Highlights include information regarding the organizational philosophy, values, and mission as well as information on how various leadership development practices are implemented and integrated. Best practice principles are drawn from this research and implications for their use within the U.S. Army are discussed.--DTIC.

**Small Wars Manual** United States Marine Corps,2021-12-03 The *Small Wars Manual* is a manual on tactics and strategies for engaging in certain types of military operations created by the United States Marine Corps. The purpose of this work is sharing experience and preserving the achievements of tactics and organization of small wars, or different military operations of the United States in countries where government is unstable, inadequate, or unsatisfactory for the preservation of life and of such interests as are determined by the foreign policy of the United States. The book starts with the definition of the term small war and continues into more than 500 pages on tactics, personnel structure, communication chain, transportation and logistics, military-civil relationship, psychological side of war, training, and support of native armed organizations and much more. The book is extremely interesting as a manual on tactics, whether it is used for a military operation or any other sort of massive campaign involving a large part of population, like elections. For example, it contains a chapter telling how to plan and organize legally the disarmament of local population. It tells what laws should be issued and what organizations form, what sort of personnel should be involved and what should be their roles. A reader will find guidelines on how to distribute and spare resources needed for a campaign, and how to properly cross a river in a dangerous

area. Given the book's organization, structure and abundance of important information, covering different aspects of civil and military campaigns, this volume is a must-read for any person engaged in a state service or a student considering career in serving their country.

**Extreme Ownership** Jocko Willink,Leif Babin,2017-11-21 An updated edition of the blockbuster bestselling leadership book that took America and the world by storm, two U.S. Navy SEAL officers who led the most highly decorated special operations unit of the Iraq War demonstrate how to apply powerful leadership principles from the battlefield to business and life. Sent to the most violent battlefield in Iraq, Jocko Willink and Leif Babin's SEAL task unit faced a seemingly impossible mission: help U.S. forces secure Ramadi, a city deemed "all but lost." In gripping firsthand accounts of heroism, tragic loss, and hard-won victories in SEAL Team Three's Task Unit Bruiser, they learned that leadership—at every level—is the most important factor in whether a team succeeds or fails. Willink and Babin returned home from deployment and instituted SEAL leadership training that helped forge the next generation of SEAL leaders. After departing the SEAL Teams, they launched Echelon Front, a company that teaches these same leadership principles to businesses and organizations. From promising startups to Fortune 500 companies, Babin and Willink have helped scores of clients across a broad range of industries build their own high-performance teams and dominate their battlefields. Now, detailing the mind-set and principles that enable SEAL units to accomplish the most difficult missions in combat, Extreme Ownership shows how to apply them to any team, family or organization. Each chapter focuses on a specific topic such as Cover and Move, Decentralized Command, and Leading Up the Chain, explaining what they are, why they are important, and how to implement them in any leadership environment. A compelling narrative with powerful instruction and direct application, Extreme Ownership revolutionizes business management and challenges leaders everywhere to fulfill their ultimate purpose: lead and win.

**The Armed Forces Officer** Richard Moody Swain,Albert C. Pierce,2017 In 1950, when he commissioned the first edition of The Armed Forces Officer, Secretary of Defense George C. Marshall told its author, S.L.A. Marshall, that American military officers, of whatever service, should share common ground ethically and morally. In this new edition, the authors methodically explore that common ground, reflecting on the basics of the Profession of Arms, and the officer's special place and distinctive obligations within that profession and especially to the Constitution.

The Mattis Way of War United States Army Command and General S, United States United States Army Command and Staff College, 2015-04-08 This thesis examines the generalship, leadership, and operational art of General James N. Mattis, US Marine Corps by using Task Force 58 in Afghanistan as a formative base and then comparing elements of operational art to the conduct of the 1st Marine Division in Operation Iraqi Freedom, 2003. Mattis draws upon many historical influences that shape his operational design in both campaigns. He puts great effort and focus on ensuring that his commander's intent is understood by all his subordinates and uses a preference for a small staff in the planning and execution of his intent. He makes heavy use of personally selected liaison officers to form and sustain habitual relationships with higher and adjacent units. Through the use of historical examples and a refusal to be constrained by doctrine and popular thought he uses innovative approaches in his design. These innovative approaches often constitute paradigm shifts with contemporary thought and doctrine. A 'Mattis Way of War' is postulated in the conclusion which draws from his use of history, commander's intent, and leadership to build up a capacity, or potential energy, for action in his unit. Once built up, he unleashes this energy utilizing explicit trust in his staff and subordinates.

*From One Leader to Another* Combat Studies Institute Press, 2013-05 This work is a collection of observations, insights, and advice from over 50 serving and retired Senior Non-Commissioned Officers. These experienced Army leaders have provided for the reader, outstanding mentorship on leadership skills, tasks, and responsibilities relevant to our Army today. There is much wisdom and advice from one leader to another in the following pages.

**Marines At War** Eric Hammel, 2020-12-23 *Marines At War 20 True, Heroic Tales of U.S. Marines in Combat 1942 - 1983* by Eric Hammel Trade Paperback Edition: \$24.95 272 pages with Maps ISBN 978-0-935553-40-6 In twenty hard-hitting, action-packed true, heroic stories, Eric Hammel chronicles the making of the modern U.S. Marine Corps from the desperate Guadalcanal landings in 1942 to the tragic bombing of the Marine headquarters in Beirut in 1983. Excerpted from all of Hammel's books on Marine Corps battles and a number of articles he wrote over the years for *Leatherneck* and other magazines, this collection includes stories of ground combat in the South Pacific, Korea, Vietnam, and Beirut, as well as tales of Marine aviators in action in three wars. *Marines at War* will prove to be inspiring to Marines, former Marines, friends of the U.S. Marine Corps, and any other reader of military history who wants to know what war looks like from the bottom up. Eric Hammel is well known to military-history readers for the way he blends riveting accounts of men at the bloody spearpoint with the big picture. His blending fact with analysis is the essence of his writing. Several of the chapters in *Marines at War* are rendered in the actual words of combat Marines.

Stress and Success - Fast Fixes for Turbulent Times Jonathan Brown, 2013-02-01 How can we win in a turbulent world that is changing faster than our rate of evolution? Winning is tough and competition is intensifying. Conventional stress management won't tackle the types of stress we face today. Instead of merely surviving a tough month or year, we need

battle-tested approaches to anticipate and recover from turbulent situations so that we are even stronger tomorrow. We don't want stress management, we need Stress Leadership. In spite of how challenging things may seem, it is possible to accelerate the progress you and your organisation are making today.
