The Regional Travel Guide for South Iceland (Iceland) ,

Iceland Gabriele Handl,Christian Handl,2019-02-27 Iceland, the island of fire and ice, has an almost magical allure for all nature-lovers. Active volcanoes and vast lava deserts stand in direct opposition to utterly boundless glacial. Massive waterfalls and geysers leave a striking impression, as do the unique plant and animal world. This unique ancient countryside guarantees unforgettable experiences in nature, but it also presents special challenges especially to the hiker. There is no network of huts and trails as we are used to in the Alps, and the weather also can be very unpredictable. Gabriele and Christian Handl, the two authors of the hiking guide to Iceland, lead the reader along selected, safe and reliably-described trails to those natural splendours of Iceland which are only accessible to hikers. Included are descriptions of short, impressive walks, as well as recommendations for trips lasting only a single day or several. The suggested walks are accompanied by an exact description of the route, map extracts showing the course of the route and informative height profiles; the colour-coded grade of difficulty facilitates your choice. Numerous notations and tips prepare the hiker for the distinctive features of Europe's northernmost country. Tantalising photos provide stimulation for the upcoming walking holiday. This fourth edition of the walking guide has been fully revised and, in addition, five new walks have been included. Also, all of the walks are now provided with GPS data which can be downloaded.

*The Baltic Sea Region: A Comprehensive Guide* Bernd Henningsen, Tobias Etzold, Krister Hanne, 2017-09-15 The Baltic Sea Region, at the crossroads between East and West, North and South, has long been marked by cultural, ethnical and ideological borders. Overcoming a history of conflict and separation, since the end of the Cold War the countries surrounding the Baltic Sea established widely valued formats of regional cooperation based on shared challenges and opportunities. In comparison with larger regions, however, the Baltic Sea Area is still a blank spot on the global map. This volume's intention is to fill this spot with colour and facts. It provides students, young researchers and other interested parties with basic knowledge of the region. The volume offers a comprehensive introduction into its history, politics, economy and culture, taking into account the various countries' commonalities and differences. By introducing concepts of regionalism and region-building, as well as analysing the structures of regional cooperation the authors and editors demonstrate the Baltic Sea Area's model function as a European macro-region.--Back cover.

What National and Subnational Interventions and Policies Based on Mediterranean and Nordic Diets are Recommended Or Implemented in the WHO European Region Centers of Disease Control, 2018-04-24 This review focuses on national and

subnational Mediterranean diet (MD) and Nordic diet (ND) interventions and policies in the WHO European Region. In the context of increasing noncommunicable disease (NCD) burden and unhealthy diets, there is a need to continue identifying optimal, evidence-informed diets and interventions for the prevention and control of NCDs. The MD and ND have been identified as region-specific healthy diets. To support decision-makers in shaping context-specific diet and nutrition policies, this review provides a summary of the NCD burden and activities in the Region; outlines the NCD-related health benefits of the MD and ND; describes interventions and policies in 15 countries; reviews four identified studies into the effectiveness of MD and ND policies on NCD outcomes; and discusses policy implications and options. In the context of MD and ND interventions for NCDs, there remains a Region-wide need to increase translation of evidence into action, monitor and evaluate the impact of existing policies on NCD outcomes and share activities through public platforms to support information sharing.
